Analysis by the Legislative Reference Bureau

Current law prohibits making a visual representation that depicts a person nude without the person's consent while the person is nude in a circumstance in which he or she has a reasonable expectation of privacy, and prohibits reproducing or possessing such visual representations. So–called video voyeurism is a Class I felony, for which a person may be confined in prison, fined, or both imprisoned and fined.

Under current law, a court may require a person who is convicted, adjudicated delinquent, found in need of protection or services, or found not guilty or not

responsible by reason of mental disease or defect for certain offenses to register with the Department of Corrections (DOC) as a sex offender.

This bill provides that a court may order a person to register with DOC as a sex offender if the person is convicted, adjudicated delinquent, found in need of protection or services, or found not guilty or not responsible by reason of mental disease or defect for committing video voyeurism and the court determines that the offense was sexually motivated. The bill further provides that if the person was under the age of 21 when he or she committed the video–voyeurism offense, the court may provide that upon successful completion of the sentence, dispositional order, or commitment for the offense the person be released from the requirement to register as a sex offender. Under the bill, if the person is released from the requirement to register as a sex offender for a video–voyeurism offense and was not required to register for any other offense, DOC must delete information concerning the person from the sex offender registry.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

Under current law, a court may require a person who is convicted, adjudicated delinquent, found in need of protection or services, or found not guilty or not responsible by reason of mental disease or defect for certain offenses to register with the Department of Corrections (DOC) as a sex offender.

This bill provides that a court may order a person to register with DOC as a sex offender if the person is convicted, adjudicated delinquent, found in need of protection or services, or found not guilty or not responsible by reason of mental disease or defect for committing video voyeurism and the court determines that the offense was sexually motivated. The bill further provides that if the person was under the age of 21 when he or she committed the video–voyeurism offense, the court may provide that upon successful completion of the sentence, dispositional order, or commitment for the offense the person be released from the requirement to register as a sex offender. Under the bill, if the person is released from the requirement to register as a sex offender for a video–voyeurism offense and was not required to register for any other offense, DOC must delete information concerning the person from the sex offender registry.
