Intent: The intent of the draft is to deposit the supplemental title transfer fee in the environmental fund for nonpoint source pollution abatement purposes. This direct deposit would replace the current formula for transfer of GPR to the environmental fund under ss. 20.855(4)(f) and 85.037.

In addition, the intent of the draft is to convert the funding of several appropriations from GPR to SEG from the transportation fund. The affected appropriations are shown in the table below:

Agency	Alpha	Current Appropriation Title
WTCS	292(1)(fc)	Driver's education, local assistance
WTCS	292(1)(fg)	Chauffeur training grants
WTCS	292(1)(fp)	Emergency medical technician - basic training; state operations
DNR	370(2)(cf)	Air management – motor vehicle emission inspection & maintenance program, state funds
DNR	370(7)(mc)	Resource maintenance and development - state park, forest and riverway roads
DNR	370(3)(ad)	Law enforcement – car kill deer; general fund

Aaron:

Per my voicemail, Kirsten would like to see the treatment of the supplemental title transfer fee return to the way it was in the 1996-97 statutes: fee revenue deposited directly into the environmental fund. By my search, the relevant sections were 25.40(1) (a) 9., 25.46 (20) and 342.14 (3m).

OTHER TRANSPORTATION

Under current law, DOT collects a supplemental vehicle title fee of $7.50 in connection with applications for certificates of title for new vehicles and for vehicles the ownership of which has been transferred. The Department of Commerce (Commerce) also collects a supplemental manufactured home title fee of $7.50 in connection with applications for certificates of title for new manufactured homes and for manufactured homes the ownership of which has been transferred. These two supplemental title fees are deposited into the transportation fund. By October 1 of each year, the secretary of transportation must certify to the secretary of administration the amount of these two supplemental title fees collected during the previous fiscal year and that amount, minus $555,000, is transferred from the general fund to the environmental fund on October 1 of each year.

Under this bill, this transfer mechanism is eliminated and these two supplemental title fees are deposited directly into the environmental fund for nonpoint source water pollution abatement.

I think we're in agreement. To confirm:

- I agree with your interpretation of current law, with emphasis on the fact that there is no connection between supplemental title transfer fees collected in FY05 and the amount deposited in the environmental fund on October 1, 2005 except the amounts are the same. The fees are not collected "for" FY05 - but somehow deposited a year late. Rather, the FY06 amount is calculated from the FY05 fee history.

- It is ok for fees collected during FY05 to remain in the transportation fund.

- We should ensure that no transfer from GPR to the environmental fund under 20.855(4)(f) occurs on October 1, 2005 and, as you suggest, that such a transfer be reversed if the budget bill passed after October 1.

- We should also ensure that revenues collected on July 1, 2005 and thereafter are deposited in the environmental fund, not the transportation fund and that, if the bill passes after July 1, 2005, there will be transferred from the transportation fund to the environmental fund an amount equal to the amount of fees collected that have been deposited in the transportation fund between July 1 and the bill's enactment.

Thanks for your help and sorry again for raising this issue late.

Bill,

Based upon our conversation a few moments ago, I see a few options for the redraft. To rehash the context, it is my understanding that, under current law, fees collected by DOT are deposited in the transportation fund and stay there, but, on Oct. 1, an amount based upon these fees (as determined by the DOT secretary) is transferred from the general fund to the environmental fund.

1. Based upon our conversation, it's my understanding that you want to ensure that no transfer occurs on Oct. 1, 2005. If you assume that the budget bill will pass before this date, I can draft a nonstatutory provision making clear that no such transfer occurs. Accordingly, all fees collected during FY05 would remain in the transportation fund. If your concern is that the budget bill may not pass until after Oct. 1, 2005, there is nothing I can do to stop the transfer under existing statutes. What I can do is draft a provision transferring back any moneys that were transferred by operation of s. 20.855 (4) (f) and 85.037 if, for example, the bill passes on Oct. 15, 2005.

2. Based upon our conversation, it's my understanding that you want to ensure that revenues collect on July 1, 2005 and thereafter are deposited in the environmental fund, not the transporation fund. As with item 1., if the bill passes after July 1, 2005, there is nothing I can do to stop the deposit of revenues in the transportation fund between July 1, 2005 and passage of the bill. However, I can draft a provision requiring the transfer by the sec. of admin. from the transportation fund to the environmental fund of an amount equal to the amount of fees collected that have been deposited in the transporation fund betwen July 1 and the bill's enactment.

Please let me know how you want to proceed or call if you have any questions or want to discuss further. If I have misunderstood the issues you raised, please let me know. Thanks. Aaron

Bill,

I drafted it to accomplish both of these things, so I believe LRB-1560/1 adequately covers both of these issues. On Oct. 1, 2005, revenues collected in FY05 will be transferred. No transfer will occur on Oct. 1, 2006 for revenues collected in FY06 - instead all revenues collected during FY06 will be available (but not specifically appopriated) in the environmental fund for nonpoint source water pollution abatement.

I think the draft is unambiguous and works. Do you want me to discuss with my supervisor whether she agrees? Or do you want this redrafted regardless of my opinion? THanks. Aaron

Aaron:

Per my voicemail, we want to be sure that the s. 20.855 (4) (f) and the (new) deposit of supplemental title transfer fee revenue into the environmental fund accomplish the following two things:

1. No GPR $ expended out of (4)(f) in FY06.
2. All supplemental title transfer fee revenue collected after July 1, 2005 (e.g., FY06) is transferred to the environmental fund, even if the bill is passed late.

I've very sorry for raising these issues so late!
