

## 2023 ASSEMBLY JOINT RESOLUTION 134

February 23, 2024 - Introduced by Representatives CONLEY, ANDRACA, DRAKE, EMERSON, JOERS, MOORE OMOKUNDE, OHNSTAD, ORTIZ-VELEZ, RATCLIFF, SHANKLAND, SINICKI and SUBECK, cosponsored by Senators SPREITZER, LARSON, ROYS and AGARD. Referred to Committee on Rules.

1     **Relating to:** designating the month of March as Endosalpingiosis Awareness  
2         Month.

3         Whereas, Endosalpingiosis is a rare disease that primarily affects women  
4         between the ages of 20-49 years; and

5         Whereas, Endosalpingiosis is characterized by the presence of tubal epithelium  
6         outside of the fallopian tube; and

7         Whereas, the prevalence of Endosalpingiosis is difficult to establish, since it is  
8         diagnosed only through surgical biopsy; and

9         Whereas, common symptoms of Endosalpingiosis include pelvic pain,  
10        infertility, menstrual irregularities, and dyspareunia, along with chronic back pain  
11        being reported as a common issue years before diagnosis; and

12        Whereas, some of the biggest issues that patients face are uncertainty about  
13        how the condition develops and a lack of doctors who specialize in Endosalpingiosis;  
14        and
