Hi Ginger,

Just following up on the email below and my conversation with Ryan a moment ago. If you want me to fix the mistake below, I'll need the jacket back for LRBa0816. (DOT is OK with the fix I would make.) Also, DOT would like to see a provision in the amendment requiring DOT to post a notice on its web site of its final estimate of costs (the $23,700 figure in the bill/amendment is kind of a conservative, preliminary figure, and the final estimate is likely to be lower). I have a sentence I've drafted that could be added to the amendment.

Let me know if you would like either or both of these changes and, if so, please return the jacket.

Thanks. Aaron

Ginger,

I'm sorry to say it, but I think I made a mistake in this amendment. I should have modified the line at p. 3, line 25 to delete references to the $23,700 or production costs. Since these are now being funded from a separate source, nothing should be subtracted from the $25 fee. Can I redraft the amendment to fix this? If so, I'll need the jacket back or I will need to draft it under a new LRB number.

Thanks. Aaron

The attached redraft reflects the two changes we discussed by email.

It also incorporates one other change. The language on p. 2, line 19 was slightly revised to reflect the fact that DOT will be working from a cost estimate, not actual cost. DOT pointed out that it will not know the actual cost of production of the special plates until the plates are produced, and the plates cannot be produced until sufficient contributions are received. Therefore, when DOT receives contributions sufficient to cover its final estimate of costs, DOT will begin the process of producing the plate. The actual cost will only be known in hindsight.
