2013 SENATE BILL 296

September 10, 2013 – Introduced by Senator GROTHMAN, cosponsored by Representative J. OTT. Referred to Committee on Judiciary and Labor.

1 AN ACT ***to repeal*** 165.828 of the statutes; **relating to:** transaction information
2 for management of enforcement system.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Justice (DOJ) administers the transaction information for management of enforcement system (TIME system), which provides access to information regarding law enforcement to tribal law enforcement agencies and other law enforcement agencies. Current law requires DOJ to submit to the Joint Committee on Finance (JCF) a resource allocation plan that sets limits and priorities for access to the TIME system if the average daily message volume for any three–month period exceeds 100,000.

This bill eliminates the requirement that DOJ submit a plan to JCF.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1.** 165.828 of the statutes is repealed.

4 **(END)**
