- 1 **To create** section 1m of article III of the constitution; **relating to:** requiring
2 photographic identification to vote in any election (first consideration).

Analysis by the Legislative Reference Bureau

This constitutional amendment, proposed to the 2023 legislature on first consideration, provides that a qualified elector may not vote in any election unless the elector presents photographic identification issued by this state, by the federal government, by a federally recognized American Indian tribe or band in this state, or by a college or university in this state, that verifies the elector's identity. Acceptable forms of photographic identification must be specified by law. The amendment authorizes the legislature to pass laws establishing exceptions to the photographic identification requirement. Additionally, if an elector is unable to present valid photographic identification before voting on election day, the elector must be given the opportunity to cast a provisional ballot and present valid photographic identification at a later time and place, as provided by law.

A constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.
