### *Analysis by the Legislative Reference Bureau*

Under current law, a county, town, village or city may enact an ordinance regulating the purchase or possession of cigarettes and tobacco products by minors and an ordinance regulating the sale or free distribution of cigarettes and tobacco products to minors, if those ordinances are in strict conformity with the state statute regulating that conduct. This bill permits a county, town, village or city to enact an ordinance regulating the purchase or possession of cigarettes and tobacco products by a minor and an ordinance regulating the sale or free distribution of cigarettes and tobacco products to minors, if those ordinances are at least as strict as the state statute regulating that conduct. The bill also provides that the state statute regulating the sale or free distribution of cigarettes and tobacco products to minors does not preclude a county, town, village or city from enacting a local ordinance regulating that conduct with respect to adults.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.
