Referred to Committee on Health.

1 **AN ACT relating to:** funding for the statewide immunization program and
2 making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the department of health and family services (DHFS) administers a statewide immunization program for children. Under the program DHFS provides the vaccines without charge upon the request of a school board or local health department to the extent that state and federal funds are available. In administering the statewide immunization program, DHFS also distributes to local entities participating in the program grants funded under federal vaccines for children programs.

This bill provides \$1,000,000 in fiscal year 1997-98 to DHFS to supplement the federal funding for grants distributed under the statewide immunization program.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1. Appropriation changes.**
