1       **Relating to:** recognizing the week beginning the first week in April as Public Health  
2            Awareness Week.

3            Whereas, the organization of public health is a partnership of public, private,  
4        nonprofit, and voluntary sectors focused on the health of the entire community, with  
5        its members responsible for providing comprehensive and coordinated public health  
6        and educational services to promote and support the health of families and  
7        individuals; and

8            Whereas, prevention, education, and outreach by public health professionals  
9        are the most focused and cost-effective ways of creating and maintaining healthy  
10        habits and improved quality of life for families and individuals, including women's  
11        health, newborn screening, and health of minorities; and

12           Whereas, all persons are receiving the benefits of public health workers who  
13        provide immunization clinics, AIDS/HIV counseling and testing, and a variety of  
14        specialty clinics and programs promoting health and wellness of all families and
