

2003 SENATE BILL 299

October 29, 2003 – Introduced by Senator CHVALA, cosponsored by Representatives BERCEAU and TAYLOR. Referred to Committee on Environment and Natural Resources.

1 **AN ACT** *to create* 285.63 (11) of the statutes; **relating to:** prohibiting issuance
2 of air pollution control permits for certain ethanol plants.

Analysis by the Legislative Reference Bureau

Current law generally requires a person to obtain an air pollution control permit from the Department of Natural Resources (DNR) for a stationary source of air pollution that the person operates or proposes to construct. This bill prohibits DNR from issuing an air pollution control permit for an ethanol plant located within five miles of a school.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1.** 285.63 (11) of the statutes is created to read:
4 285.63 (11) RESTRICTION ON ETHANOL PLANTS. (a) In this subsection, “school”
5 means a public, parochial, or private school that provides an educational program
6 for one or more grades between grades 1 and 12 and that is commonly known as an
7 elementary school, middle school, junior high school, senior high school, or high
8 school.
