For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

PREFATORY NOTE: This bill was prepared for the joint legislative council's special committee on developmental disabilities. The bill contains the following provisions:

1. Legislative Members: Council on Developmental Disabilities

Under current law, as modified by 2001 Act 59, the council on developmental disabilities must consist of state residents appointed for staggered 4 year terms who represent all geographic areas of the state and who reflect the state's racial and ethnic diversity.

State residents appointed to the council must represent the following: (1) the department of workforce development, the department of health and family services, and the department of public instruction; (2) individuals with developmental disabilities who are any of the following: individuals with developmental disabilities, parents or guardians of children with developmental disabilities, or immediate relatives or guardians of adults with mentally impairing developmental disabilities; (3) the entity designated by the federal department of health and human services as a university center for excellence in developmental disabilities education, research and services; (4) the state protection and advocacy system; and (5) each of the local governmental agencies, non-governmental agencies and private non profit groups concerned with services for individuals with developmental disabilities.

In addition, current law requires at least 60% of the council's membership to be any of the following: (1) individuals with developmental disabilities, (2) parents or guardians of children with developmental disabilities, or (3) immediate relatives or guardians of adults with mentally impairing developmental disabilities. Of these individuals, at least one third must be individuals with developmental disabilities, one third must be parents or guardians of children with developmental disabilities or immediate relatives or guardians of adults with mentally impairing developmental disabilities, and one third must be individuals with developmental disabilities, parents or guardians of children with developmental disabilities, or immediate relatives or guardians of adults with mentally impairing developmental disabilities. At least one of these members must reside in or have previously resided in an institution, including a state center for the developmentally disabled, or be the immediate relative or guardian of such an individual.

This bill amends current law regarding the membership of the council on developmental disabilities as follows:

a. Requires the governor to appoint 4 legislative members to the council on developmental disabilities, as designated by the speaker of the assembly, the assembly minority leader, the senate majority leader and the senate minority leader.

b. Requires the council to evaluate the waiting lists for developmental disabilities services compiled by DHFS and to submit an annual report regarding the status of the waiting lists to the legislature in the end of each calendar year.

2. Children's Long-Term Support Redesign

DHFS appointed a children's committee on long-term care as part of the effort to redesign the state system on long-term care. The children's long-term support redesign committee developed a model to redesign the current system of care for children and their families, to be implemented as a pilot program and funded by federal medicaid waiver funding. The children's home and community-based waiver would define children with physical, sensory, developmental and significant health care needs as eligible. The

SENATE BILL 74

waiver would permit the blending of the family support program, the community options program (COP), and MA waiver funding into a single funding stream. The intended effects are to streamline services and secure additional federal matching funds. DHFS would offer the waiver to children and families currently receiving services through family support, COP, MA home and community-based waivers and MA fee-for-service. Under the waiver, the funds for these programs would be managed within individual budgets based upon the child's functional needs. DHFS would pilot this waiver on a statewide, voluntary basis. The current family care pilot counties would have the option of piloting the children's waiver and coordinating it with the family care program. Families already receiving long-term support services would be offered the opportunity to enroll in the children's waiver on a voluntary basis.

The biennial budget act requires DHFS to seek waivers of federal MA statutes and regulations that are necessary to implement the program in pilot sites. If the waivers are approved, the biennial budget act requires DHFS to seek statutory language to implement the children's long-term support redesign on a piloted basis.

The bill restores language governing the children's long-term support redesign pilot program that was vetoed by the Governor in the biennial budget act. The restored language does the following:

a. Requires DHFS to seek the necessary federal waivers and enactment of necessary statutory language and funding as soon as possible before July 1, 2004.

b. Provides for the expansion of eligibility under certain long-term care programs currently serving children to include children with severe disabilities and long-term care needs and children eligible for medical assistance with high medical costs, and the expansion of medical assistance to include services focused on the needs of children with developmental disabilities and their families.

c. Requires DHFS to provide transitional services to families whose children with physical or developmental disabilities are preparing to enter the adult service system.

3. Administration and Funding of Developmental Disabilities Services

This bill requires DHFS to develop a plan to administer and fund services for persons with developmental disabilities, and to submit that plan to the department of administration as part of DHFS's budget request for the 2005-07 biennium. The plan that is submitted shall include any recommended statutory language changes that are needed to implement the plan. The plan must require all institutional and community-based services for persons with developmental disabilities to be administered within one administrative subunit of DHFS. The subunit designated to do this must be the subunit that is administering community-based services for persons with developmental disabilities as of the effective date of this act.

Further, the plan must provide that funding under the medical assistance program for institutional services and home and community-based waiver services for persons with developmental disabilities shall be combined into one appropriation to the extent permissible under federal law. DHFS must apply for any necessary waivers of federal MA statutes and regulations from the federal department of health and human services.
