### *Analysis by the Legislative Reference Bureau*

Current law prohibits a person from selling alcohol beverages at retail unless the seller possesses a license or permit authorizing the sale. A “Class B” license authorizes the sale of intoxicating liquor at retail for consumption on the premises where sold and is issued for specific premises. Current law imposes a quota on the number of “Class B” licenses that a municipality may issue. The quota on the number of “Class B” licenses that a municipality may issue is generally determined by a formula based on the number of licenses previously issued by the municipality and the municipality’s population. Current law also provides quota exceptions for a full-service restaurant that has a seating capacity of 300 or more persons and for a hotel that has 50 or more rooms and has a restaurant or banquet room meeting certain criteria. The holder of a “Class B” license issued under one of these two quota exceptions is not entitled to transfer the license to another premises within the issuing municipality and, if there is a finding of certain alcohol beverage violations by the licensee, a “Class B” license issued under one of these two quota exceptions must be revoked, in contrast to other “Class B” licenses for which revocation would be permissive.

This bill creates a third quota exception for any opera house or theater for the performing arts operated by a nonprofit organization.
