- 1 **AN ACT to amend** 23.33 (5) (b) 2., 29.024 (1) and 350.05 (2) (b) of the statutes;
2 **relating to:** carrying and displaying in electronic format certain approvals and
3 safety certificates issued by the Department of Natural Resources.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Natural Resources (DNR) administers a program of instruction on all-terrain vehicle (ATV) and utility terrain vehicle (UTV) laws and safety and a program of instruction on snowmobile laws and safety. With certain exceptions, a person must successfully complete the relevant safety program before operating an ATV, UTV, or snowmobile and must hold a safety certificate issued by DNR, another state, or a province of Canada that demonstrates successful completion of the program. Current law also requires the operator of the ATV, UTV, or snowmobile to carry the certificate when operating the respective vehicle and to display it upon the request of a law enforcement officer.

Current law also requires any person who holds a license, permit, or other approval (approval) from DNR that authorizes the person to hunt, trap, or fish in this state to carry the required approval while engaging in that activity. Current law requires that person to exhibit the approval to DNR or its wardens on demand.

This bill allows a person who is required to carry an ATV, UTV, or snowmobile safety certificate or an approval to carry the certificate or approval in either printed or electronic format including by carrying an electronically scanned or photographic reproduction of the certificate or approval on a cellular telephone or other electronic device. The bill also allows the person to display the certificate or approval to a law enforcement officer or warden in either printed or electronic format.
