Analysis by the Legislative Reference Bureau

This bill allows a person who registers a specified special interest, reconstructed, replica, or street modified vehicle to provide and display historical plates in lieu of the special plates issued by the Department of Transportation (DOT).

Under current law, any person who is the owner of a special interest vehicle that is a former military vehicle or that is at least 20 years old may register the vehicle as a special interest vehicle. DOT is required to furnish the owner of the vehicle with registration plates of a distinctive design that show that the vehicle is owned by a Wisconsin collector. A person who registers a special interest vehicle manufactured before 1979 may furnish and display on the vehicle one or two historical plates from the model year of the vehicle. The historical plates may be displayed only while the vehicle is being operated to or from a car show or parade and the registration plates issued by DOT must be carried in the vehicle. Under this bill, historical plates may be displayed on a special interest vehicle manufactured before 1985.

Under current law, any person who is the owner of a reconstructed, replica, street modified, or homemade vehicle may register the vehicle as a reconstructed,

SENATE BILL 374

replica, street modified, or homemade vehicle. DOT is required to furnish the owner of the vehicle with registration plates of a distinctive design that show that the vehicle is owned by a Wisconsin hobbyist.

Under this bill, a person who registers a special interest vehicle manufactured before 1985, a reconstructed vehicle assembled from a vehicle manufactured before 1985, a replica vehicle that is a reproduction of a vehicle manufactured before 1985, or a street modified vehicle manufactured before 1985 may furnish and display on the vehicle two historical plates. The owner is required to provide DOT with the registration number on the historical plates and may be required to provide proof of possession of the plates. DOT is required to issue the applicable special plate for the vehicle and record in its motor vehicle registration database the registration number on the historical plates provided to DOT.

Under this bill, the historical plates must be original Wisconsin plates that are not special or personalized plates, were issued for a vehicle of the same type, and that have a design that was issued during a time period that includes the model year of the vehicle. The plates must be legible and both plates must display the same registration number, which cannot be shared by any other vehicle registered with DOT currently or within the two years preceding the registration, and cannot be reserved. A vehicle owner displaying historical plates must display one to the front and one to the rear of the vehicle, unless the vehicle is a motorcycle, upon which only one plate to the rear is required. The historical plates may be displayed only if the registration plates issued by DOT are carried in the vehicle. Failure to display the plates as required may result in a forfeiture of not more than \$200.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
