### *Analysis by the Legislative Reference Bureau*

This bill requires the Department of Health Services, in consultation with the Department of Children and Families and the Department of Administration to create an advisory committee to review proposed legislation and proposed requests for approval from the federal government of changes to public assistance programs and to review performance data outcomes and costs of changes to public assistance programs after federal approval of changes to those programs. The bill specifies participants DHS must appoint to the advisory committee. The bill also requires that a state agency that administers a public assistance program to hold a public comment period before developing language for a proposal to waive federal law and to conduct no fewer than three public hearings on the proposed waiver before submitting to the federal government. The agency may not submit the request on the proposed waiver without prior approval of the proposed waiver request by the Joint Committee on Finance.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
