

2019 SENATE BILL 783

February 6, 2020 - Introduced by Senator MILLER, cosponsored by Representative POPE. Referred to Committee on Natural Resources and Energy.

1 **AN ACT** *to repeal and recreate* 281.17 (8) (b) of the statutes; **relating to:**
2 disinfection of drinking water supplied by a municipal water system.

Analysis by the Legislative Reference Bureau

Current law prohibits the Department of Natural Resources from requiring a municipal water system to provide continuous disinfection of the water that it supplies unless federal law requires continuous disinfection or unless water quality data, well construction, or water system construction indicates a potential health hazard.

This bill requires a municipal water system to provide continuous disinfection of the water that it provides.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 **SECTION 1.** 281.17 (8) (b) of the statutes is repealed and recreated to read:
4 281.17 (8) (b) A municipal water system shall provide continuous disinfection
5 of the water that it provides.

6 **SECTION 2. Effective date.**
