1 **AN ACT to create** 25.17 (72), 238.03 (4) and 238.155 of the statutes; **relating to:**
2 venture capital investment program.

Analysis by the Legislative Reference Bureau

This bill directs the Wisconsin Economic Development Corporation (WEDC) to establish an economic development program that operates like what is often referred to as a “fund of funds.” Typically, under a fund of funds investment model, an investment fund invests moneys with other investment funds that in turn invest those moneys directly in operating businesses. Under this bill, WEDC must contract with an investment manager to manage investments in venture capital funds and Wisconsin businesses.

Before WEDC contracts with an investment manager, WEDC and the State of Wisconsin Investment Board (SWIB) must form a committee to select the investment manager. A majority of the committee’s members must be representatives of SWIB. WEDC’s proposed contract with the investment manager is subject to passive review by the Joint Committee on Finance (JCF). However, under the bill, JCF’s review of the contract is limited to determining whether the contract is contrary to the bill or fails to implement an applicable provision of the bill.

The bill requires WEDC to pay \$25,000,000 to the investment manager for investments in venture capital funds. The bill also requires the investment manager to contribute to those investments \$300,000 of its own moneys and \$5,000,000 raised from other funding sources. The investment manager must attempt to invest all of those moneys within 24 months after the date the investment manager executes the contract with the corporation, and the investment manager must invest those

SENATE BILL 169

moneys in at least four different venture capital funds. The investment manager may not invest more than \$10,000,000 in any one venture capital fund.

The bill requires the investment manager to contract with each venture capital fund that receives moneys under the program created in the bill. Under that contract, each venture capital fund must do all of the following:

1. Invest all of the moneys the venture capital fund receives under the program in businesses that are headquartered in Wisconsin and employ at least 50 percent of their full-time employees in Wisconsin and invest at least one-half of those moneys in businesses that employ fewer than 150 full-time employees when the venture capital fund first invests in the business under the program. If, within three years after the venture capital fund makes an investment in a business under the program, the business relocates its headquarters outside of Wisconsin or fails to employ at least 50 percent of its full-time employees in Wisconsin, the venture capital fund must recover the total amount of moneys the venture capital fund invested in the business under the program, including any matching funds, and reinvest those moneys in one or more eligible businesses, subject to the bill's requirements.

2. Invest at least one-half of those moneys in businesses within 24 months after the venture capital fund receives the moneys and invest all of the moneys in businesses within 48 months.

3. Invest all of those moneys in businesses in the agriculture, information technology, engineered products, advanced manufacturing, or medical devices and imaging industries and attempt to ensure that those moneys are invested in businesses that are diverse with respect to geographic location within Wisconsin.

4. At least match the amount of the moneys the investment manager contributes to an investment in a business with an investment of moneys in that business that the venture capital fund has raised from other funding sources. The bill also requires the investment manager to attempt to ensure that, on average, a venture capital fund invests \$2 in a business for every \$1 the investment manager contributes to the investment in that business.

5. Provide to the investment manager the information necessary for the investment manager to make its annual report to WEDC, described below.

6. Disclose to the investment manager and to WEDC any interest that the venture capital fund or one of its owners or other representatives or agents holds in a business in which the venture capital fund invests or intends to invest moneys under the program.

Similarly, the bill requires the investment manager to disclose to WEDC any interest that it or an owner or other representative or agent of the investment manager holds in a venture capital fund that receives moneys under the program or a business in which a venture capital fund invests such moneys. Also, the investment manager's profit-sharing agreement with a venture capital fund under the program must be on terms that are substantially equivalent to the terms applicable for other funding sources of the venture capital fund.

Under the bill, the investment manager must set aside and pay to the state its proceeds from investments of the moneys contributed to the program by WEDC until

SENATE BILL 169

the investment manager has paid the state \$25,000,000, the amount of WEDC's contribution. After that point, the investment manager must pay 90 percent of its proceeds from such investments to the state.

The bill requires the investment manager to submit a report to WEDC each year within 90 days after the end of the investment manager's fiscal year that includes all of the following:

1. An audit of the investment manager's financial statements performed by an independent certified public accountant.

2. The investment manager's internal rate of return from investments in venture capital funds under the program.

3. For each venture capital fund that received an investment under the program: a) the name and address of the venture capital fund; b) the amount of the investment; and c) an accounting of any fees the venture capital fund paid to itself or any principal or manager.

4. For each business in which a venture capital fund held an investment of moneys contributed by the investment manager under the program: a) the name and address of the business; b) a description of the nature of the business; c) an identification of the venture capital fund that made the investment; d) the amount of each investment in the business and the amount contributed by the venture capital fund; e) the internal rate of return realized by the venture capital fund on the investment; and f) a statement of the number of employees the business employed when the venture capital fund first invested in the business under the program, the number of employees the business employed on the first day of the investment manager's fiscal year, and the number of employees the business employed on the last day of the investment manager's fiscal year.

WEDC must submit the investment manager's report to the legislature.

The bill also requires WEDC to submit to JCF two progress reports, one in 2015 and one in 2018. Each report must include all of the following:

1. A comprehensive assessment of the performance to date of the investment program created in the bill.

2. Any recommendations WEDC has for improving the investment program and the specific actions WEDC intends to take or proposes to be taken to implement those recommendations.

3. Any recommendations SWIB has for improving the investment program and the specific actions SWIB proposes to be taken to implement those recommendations.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
