

No. 552, A.]

[Published July 2, 1953.

CHAPTER 335

AN ACT to create 95.459 (3) of the statutes, relating to tests and sales of bovine herds.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

95.495 (3) of the statutes is created to read:

95.495 (3) In the event there are tuberculosis reactors found in such herd no quarantine of the herd shall be imposed if all reactors are disposed of by slaughter, the post-mortem discloses no visible lesions of tuberculosis in any of such reactors, and the remaining cattle in such herd are healthy in the opinion of the attending veterinarian.

Approved June 25, 1953.
