January 29, 1988

To the Honorable the Legislature

I am pleased to transmit to you the following report:
**CREDIT RELIEF OUTREACH PROGRAM
MONTHLY REPORT**

I would appreciate your including this letter in the Journal for the information of the membership. Additional copies of this report are available upon request from the Wisconsin Housing and Economic Development Authority (WHEDA), 1 South Pinckney, Suite 500, or by calling (608) 266-7884.

and Consumer Protection

January 26, 1988

To the Honorable the Legislature

The 1987-89 Budget Bill directed me to offer an interstate agreement to every state contiguous to the borders of this state which would set the minimum content of milk solids not fat in milk at 8.7%, in lowfat milk at 10%, in skim milk at 9%; and submit a written report on the outcome of my efforts to you.

The four states bordering Wisconsin — Michigan, Minnesota, Illinois and Iowa — have all been contacted. Responses have now been received from all states and our report to you is attached.

We would be happy to discuss this issue further with you. Please feel free to contact myself, Deputy Secretary Helene Nelson, or Legislative Liaison Jim Arts.

Sincerely,
HOWARD C. RICHARDS
Secretary

State of Wisconsin
Department of Natural Resources

February 3, 1988

To the Honorable the Legislature

I am transmitting to you a report prepared by the Department of Natural Resources on the status and effectiveness of Wisconsin's 1983 ban on phosphate-containing detergents. The report is submitted in fulfillment of the requirements in 1987 Wisconsin Act 27 (Section 3040 (6d)).

I would like to highlight several important points the Legislature should consider in any future deliberations to repeal or relax the existing ban. Any relaxation or repeal of the ban would not be in the spirit of the Great Lakes Water Quality Agreement, which calls for a detergent phosphorus limitation, nor would it be in accord with the antidegradation provisions contained in the federal Water Quality Act of 1987. In addition, as discussed in the report, we do not believe the use of environmental attainment areas is a workable concept from the perspective of an overall water quality management program. Furthermore, from a marketing or distribution standpoint, compliance with the statute would be difficult, if not impossible.

There is no information available on those items cited for study under paragraph (b) of the statutory provision noted above. Consequently, the report does not address those issues directly.

Sincerely,
C. D. BESADNY
Secretary
