SUBCHAPTER I

DEFINITIONS AND GENERAL PROVISIONS

121.004 Definitions. In this chapter, unless the context clearly requires otherwise:

(1) **AVERAGE DAILY MEMBERSHIP.** "Average daily membership" is the sum of all pupils enrolled in all schools of the school district for each day of the school term, divided by the number of days school is actually taught. If it contains a fraction, the quotient shall be expressed as the nearest whole number.

(2) **EQUALIZED VALUATION.** The "equalized valuation" of a school district is the full value of the taxable property of the territory in the school district as certified for the prior year under s. 121.06 (2), excluding value adjustments made under s. 70.57 (1) resulting from appeals made under s. 70.995.

NOTE: Sub. (2) is shown as amended by 1987 Wis. Act 27, s. 1755m, eff. 7-1-89. Prior to that date, replace "prior year" with "current year".

(3) **FUND.** "Fund" is an independent accounting entity with its own assets, liabilities, fund balances, receipts, and disbursements, as prescribed under s. 115.28 (13).

(4) **GROSS COST.** The "gross cost" of a fund means the sum of all nonduplicative expenditures from that fund.

(5) **MEMBERSHIP.** "Membership" for any school district is the sum of pupils enrolled as reported under s. 121.05 and the summer average daily membership equivalent for classes approved under s. 121.14.

(6) **NET COST.** The "net cost" of a fund means the gross cost of that fund minus all nonduplicative receipts of that fund except property taxes and state general aids. In this subsection, "nonduplicative receipts" includes federal financial assistance under 20 USC 236 to 245, to the extent permitted under federal law and regulations, multiplied by 50% in the 1981-82 school year, 75% in the 1982-83 school year and 100% in every school year thereafter.

(7) **PUPILS ENROLLED.** (a) "Pupils enrolled" is the total number of pupils, as expressed by official enrollments, in all

schools of the school district, except as provided in pars. (b) to (d). If such total contains a fraction, it shall be expressed as the nearest whole number. The same method shall be used in computing the number of pupils enrolled for resident pupils, nonresident pupils or both.

(b) A first grade pupil may be counted only if the pupil attains the age permitted under s. 115.28 (8) or required under s. 118.14 for first grade admission.

(c) 1. A pupil enrolled in kindergarten may be counted only if the pupil attains the age permitted under s. 115.28 (8) or required under s. 118.14 for kindergarten admission. A kindergarten pupil shall be counted as one-half pupil except that:

a. A pupil enrolled in a 5-year-old kindergarten program requiring full-day attendance for 5 days a week for an entire school year shall be counted as one pupil.

b. A pupil enrolled in a 5-year-old kindergarten program requiring full-day attendance for less than 5 days a week for an entire school year shall be counted as the result obtained by multiplying the number of hours in each day in which the pupil is enrolled by the total number of days for which the pupil is enrolled, and dividing the result by the product of the number of hours of attendance per day required of first grade pupils in the school district multiplied by 180.

2. In subd. 1. a and b, "full-day" means the length of the school day for pupils in the first grade of the school district operating the 5-year-old kindergarten program.

(d) A pupil enrolled in a preschool program under subch. V of ch. 115 who is 3 years of age or older shall be counted as one-half pupil.

(8) **SUMMER AVERAGE DAILY MEMBERSHIP EQUIVALENT.** "Summer average daily membership equivalent" is the sum of all summer classroom or laboratory periods in which each pupil is enrolled, as determined by multiplying the total number of periods in each day in which the pupil is enrolled by the total number of days for which the pupil is enrolled, divided by 1,080.

121.004 SCHOOL FINANCE

(9) **TEACHER-PUPIL RATIO.** "Teacher-pupil ratio" is the quotient of the number of pupils enrolled divided by the number of teachers employed.

(10) **TEACHERS EMPLOYED.** "Teacher" means a person holding a license or certificate under s. 115.28 (7), but does not include any person under s. 115.29 (3). In computing the number of teachers employed, professional workers who devote less than full time to their professional duties shall be counted in proportion to the time devoted to such duties. Teachers who devote full time to handicapped children shall not be counted.

121.006 State aid withheld. (1) (a) The state superintendent may withhold state aid from any school district in which the scope and character of the work are not maintained in such manner as to meet the state superintendent's approval.

(b) No state aid may be paid in any year under this chapter to a school district which fails to meet the requirements under sub. (2).

(2) Unless the state superintendent is satisfied that the failure to meet the requirements of pars. (a) and (b) was occasioned by some extraordinary cause not arising from intention or neglect on the part of the responsible officers, every school district shall:

(a) Hold school for at least 180 days each year, less any days during which the state superintendent determines that school is not held or educational standards are not maintained as the result of a strike by school district employes, the days to be computed in accordance with s. 115.01 (10).

(b) Employ teachers qualified under s. 118.19.

(c) File all reports as required by state law.

(5) In the event of a school district labor dispute, s. 121.23 shall apply.

121.007 Use of state aid; exemption from execution. All moneys paid to a school district under s. 20.255 (2) (ac), (cg) and (cr) shall be used by the school district solely for the purposes for which paid. Such moneys are exempt from execution, attachment, garnishment or other process in favor of creditors, except as to claims for salaries or wages of teachers and other school employes and as to claims for school materials, supplies, fuel and current repairs.

SUBCHAPTER II**GENERAL AID**

121.01 Purpose. It is declared to be the policy of this state that education is a state function and that some relief should be afforded from the local general property tax as a source of public school revenue where such tax is excessive, and that other sources of revenue should contribute a larger percentage of the total funds needed. It is further declared that in order to provide reasonable equality of educational opportunity for all the children of this state, the state must guarantee that a basic educational opportunity be available to each pupil, but that the state should be obligated to contribute to the educational program only if the school district provides a program which meets state standards. It is the purpose of the state aid formula set forth in this subchapter to cause the state to assume a greater proportion of the costs of public educa-

tion and to relieve the general property of some of its tax burden.

A "uniform" education: reform of local property tax school finance systems through state constitutions. 62 MLR 565.

121.02 School district standards. (1) Each school board shall:

(a) Ensure that every teacher, supervisor, administrator and professional staff member holds a certificate, license or permit to teach issued by the department before entering on duties for such position.

(b) Annually, establish with school board employes a professional staff development plan designed to meet the needs of individuals or curriculum areas in each school.

(c) Provision shall be made for remedial reading services for under-achieving students in grades kindergarten through grade 3.

(d) Operate a 5-year-old kindergarten program, except in union high school districts.

(e) Provide guidance and counseling services.

(f) 1. Schedule at least 180 school days annually, less any days during which the state superintendent determines that school is not held or educational standards are not maintained as the result of a strike by school district employes.

2. Annually, schedule at least 437 hours of direct pupil instruction in kindergarten, at least 1,050 hours of direct pupil instruction in grades 1 to 6 and at least 1,137 hours of direct pupil instruction in grades 7 to 12. Scheduled hours under this subdivision include recess and time for pupils to transfer between classes but do not include the lunch period.

(g) Provide for emergency nursing services.

(h) Provide adequate instructional materials, texts and library services which reflect the cultural diversity and pluralistic nature of American society.

(i) Provide safe and healthful facilities.

(j) Ensure that instruction in elementary and high schools in health, physical education, art and music is provided by qualified teachers.

(k) 1. By September 1, 1988, develop a written, sequential curriculum plan in at least 3 of the following subject areas: reading, language arts, mathematics, social studies, science, health, computer literacy, environmental education, vocational education, physical education, art and music. The plan shall specify objectives, course content and resources and shall include a program evaluation method.

2. By September 1, 1989, develop a written, sequential curriculum plan in at least 3 additional subject areas specified in subd. 1.

3. By September 1, 1990, develop a written, sequential curriculum plan in all of the remaining subject areas specified in subd. 1.

(L) 1. In the elementary grades, provide regular instruction in reading, language arts, social studies, mathematics, science, health, physical education, art and music.

2. In grades 5 to 8, provide regular instruction in language arts, social studies, mathematics, science, health, physical education, art and music. The school board shall also provide pupils with an introduction to career exploration and planning.

3. In grades 9 to 12, provide access to an educational program that enables pupils each year to study English, social studies, mathematics, science, vocational education, foreign language, physical education, art and music. In this subdivision, "access" means an opportunity to study through school district course offerings, independent study, cooperative educational service agencies or cooperative arrangements between school boards and postsecondary educational institutions.

(m) Provide access to an education for employment program that has been approved by the state superintendent.

NOTE: Par. (m) is created by 1985 Act 29, as affected by 1987 Wis. Act 27, ss. 2263 and 2264, eff. 9-1-91.

(n) Develop a plan for children at risk under s. 118.153.

(o) Annually, adopt and publish a performance disclosure report. (s) during the previous school year.

(p) Comply with high school graduation standards under s. 118.33 (1).

(q) Evaluate, in writing, the performance of all certified school personnel at the end of their first year and at least every 3rd year thereafter.

(r) Annually administer a standardized reading test developed by the department to all pupils enrolled in the school district in grade 3.

(s) Using achievement tests that are aligned with the school district's curriculum, test all of the pupils enrolled in the school district in reading, language arts and mathematics at least twice in grades kindergarten to 5, at least once in grades 6 to 8 and at least once in grades 9 to 11. This paragraph does not apply to any school district participating in the competency testing program under s. 118.30.

(t) Provide access to an appropriate program for pupils identified as gifted or talented.

(1m) A school district may provide for scoring the test administered under sub. (1) (r) or have it scored by the department. If the school district provides for scoring the test, the department shall reimburse the school district for the cost of scoring the test, not exceeding what the department's cost would be to score the test. Costs of scoring the tests and reimbursing school districts for scoring the tests shall be paid from the appropriation under s. 20.255 (1) (a).

(2) In order to ensure compliance with the standards under sub. (1), the state superintendent shall annually conduct a general on-site audit of at least 20% of all school districts, selected by means of a stratified, random sample. The state superintendent shall audit each school district at least once every 5 years but may not audit a school district more than once every 3 years. The state superintendent shall ensure that the audit process involves school board members, school district administrators, teachers, pupils, parents of pupils and other residents of the school district. Nothing in this subsection prohibits the state superintendent from conducting an inquiry into compliance with the standards upon receipt of a complaint.

(3) Prior to any finding that a school district is not in compliance with the standards under sub. (1), the state superintendent shall, upon request of the school board or upon receipt of a petition signed by the maximum number of electors allowed for nomination papers of school district officers under s. 8.10 (3) (i), (km) or (ks), conduct a public hearing in the school district. If the state superintendent, after the hearing, finds that the district is not in compliance with the standards, the state superintendent may develop with the school board a plan which describes methods of achieving compliance. The plan shall specify the time within which compliance shall be achieved. The state superintendent shall withhold up to 25% of state aid from any school district that fails to achieve compliance within the specified period.

(4) Any school district which is completely surrounded by water may meet the requirements of this section by being in substantial compliance with the standards in sub. (1). Annually by August 15, the school district shall submit to the state

superintendent for approval a report describing the methods by which the school district intends to substantially comply with the standards. The state superintendent shall allow any such school district maximum flexibility in the school district's substantial compliance plans.

(5) The state superintendent shall promulgate rules to implement and administer this section, including rules defining "regular instruction" for the purpose of sub. (1) (L) 1 and 2.

121.07 General provisions; state aid computation. In this subchapter:

(1) **BASIS FOR STATISTICS.** (a) The membership and teacher-pupil ratio of the school district in the previous school year as reported under s. 121.05 and the shared cost for the previous school year shall be used in computing general aid. In computing general aid, the teacher-pupil ratio shall not exceed 25.

(b) If the school district valuation is increased or decreased due to an alteration in school district boundaries before the 3rd Friday in September, the estimated shared cost for the current school year and the estimated mill levy rate shall be based on the school district equalized valuation of the territory comprising the altered school district.

(c) If an order of school district reorganization is not effective due to litigation until after the 3rd Friday in September but takes effect before April 1 of the current school year, state aid for the reorganized school district for the first year of operation shall be computed after the order takes effect using calculations by the state superintendent of the number of pupils enrolled and teacher-pupil ratio for the territory in the reorganized school district, which shall be made as if the school district had been in existence on the 3rd Friday in September.

(d) At the end of the school year, the department shall adjust state aid payments according to the actual shared cost of the school district for that school year.

(6) **SHARED COST.** (a) "Shared cost" is the sum of the net cost of the general fund and the net cost of the debt service fund. The net cost of the debt service fund included in shared cost may not exceed an amount equal to \$90 multiplied by the membership.

(b) The "primary ceiling cost per member" shall be \$3,860 in the 1987-88 school year and \$4,090 in each school year thereafter, except as provided in s. 121.23.

(c) The "primary shared cost" is that portion of a district's shared cost which is less than the primary ceiling cost per member multiplied by its membership.

(d) The "secondary shared cost" is that portion of a district's shared cost which is not included in the primary shared cost.

(7) **GUARANTEED VALUATION PER MEMBER.** (a) The "primary guaranteed valuation per member" is an amount, rounded to the next lowest dollar, that, after subtraction of payments under ss. 118.153 (4) (b), 121.09 and 121.85 (6) (b) 2 and 3 and (c), fully distributes the amount remaining in the appropriation under s. 20.255 (2) (ac) for payments under ss. 121.08, 121.10, 121.105, 121.135, 121.85 (6) (a) and (g) and 121.86 (2).

(b) The "secondary guaranteed valuation per member" shall be an amount rounded to the next lowest dollar determined by multiplying the equalized valuation of the state by 1.06 and dividing the result obtained by the state total membership.

(c) For districts operating only high school grades, the amounts in pars. (a) and (b) shall be multiplied by 3 and rounded to the next lowest dollar.

(d) For districts operating only elementary grades, the amounts in pars. (a) and (b) shall be multiplied by 1.5 and rounded to the next lowest dollar.

(8) **GUARANTEED VALUATION.** A school district's primary and secondary guaranteed valuations are determined by

multiplying the amounts in sub. (7) by the district's membership.

(10) **REQUIRED LEVY RATE.** (a) The "required levy rate" is the sum of the rates derived in pars. (b) and (c).

(b) The "primary required levy rate" is the primary shared cost divided by the primary guaranteed valuation.

(c) The "secondary required levy rate" is the secondary shared cost divided by the secondary guaranteed valuation.

History: 1971 c. 125; 1973 c. 61, 90, 190, 333; 1975 c. 39; 1977 c. 29, 178, 418; 1979 c. 34, 221; 1981 c. 20, 317, 385; 1983 a. 27, 212; 1985 a. 29; 1987 a. 27.

121.08 Payment of state aids; reductions. (1) The state shall pay to the school district a sum equal to the amount by which the primary guaranteed valuation exceeds the school district equalized valuation, multiplied by the primary required levy rate and a sum equal to the amount by which the secondary guaranteed valuation exceeds the school district equalized valuation multiplied by the secondary required levy rate.

(2) The aid computed under sub. (1) shall be reduced by the amount by which the school district equalized valuation exceeds the secondary guaranteed valuation, multiplied by the secondary required levy rate. In no case may the aid under this section be less than zero.

(3) The aid computed under sub. (1) shall be reduced by the amount by which the aid that the school district is receiving under sub. (1) as a result of the number of pupils reported as enrolled in the school district under s. 121.05 (1) (a) 7 exceeds the amount paid by the school district for tuition for those pupils.

History: 1973 c. 90; 1977 c. 29; 1983 a. 509; 1985 a. 29; 1987 a. 27, 399.

121.085 Supplemental state aid. (1) Except as provided under sub. (1m), the state shall pay to each school district the amount determined by subtracting the amount determined under par. (b) from the amount determined under par. (a):

(a) The amount which would be paid by the state to the school district under this subchapter other than this section if the full value of the taxable property of the territory in the school district were calculated and certified under s. 121.06 with the equalized valuation of any taxable property in a tax incremental district not exceeding its equalized value determined for the purpose of the determination of the tax incremental base of that district under s. 66.46.

(b) The amount to be paid to the school district under this subchapter other than this section with the full value of the taxable property of the school district calculated and certified as provided in s. 121.06.

(1m) No aid under this section may be paid to any school district unless a city or village located within the school district verifies to the department of revenue that it has adopted a resolution under s. 66.46 (4) (gm) before January 1, 1983.

(2) Equalized valuation of the state for the purpose of calculations under sub. (1) means the full value of taxable property, including value increments under s. 66.46.

History: 1977 c. 418; 1981 c. 20; 1983 a. 27; 1985 a. 29; 1987 a. 27 s. 3202 (47).

121.09 State aid adjustment; redetermination of assessment. (1) If, on or after July 1, 1980, the tax appeals commission or a court makes a final redetermination on the assessment of property subject to taxation under s. 70.995 that is lower than the previous assessment, or if, on or after January 1, 1982, the state board of assessors makes a final redetermination on the assessment of property subject to taxation under s. 70.995 that is lower than the previous assessment, the school board of the school district in which the property is located may, within 4 years after the date of

the determination, decision or judgment, file the determination of the state board of assessors, the decision of the tax appeals commission or the judgment of the court with the state superintendent, requesting an adjustment in state aid to the school district. If the state superintendent determines that the determination, decision or judgment is final and that it has been filed within the 4-year period, the state shall pay to the school district in the subsequent fiscal year, from the appropriation under s. 20.255 (2) (ac), an amount equal to the difference between the state aid computed under s. 121.08 for the school year commencing after the year subject to the valuation recertification, using the school district's equalized valuation as originally certified, and the state aid computed under s. 121.08 for that school year using the school district's equalized valuation as recertified under s. 70.57 (2).

(2) If, on or after May 3, 1984, the state board of assessors, the tax appeals commission or a court makes a final redetermination on the assessment of property subject to taxation under s. 70.995 that is higher than the previous assessment, the state superintendent shall notify the school district in which the property is located of the recertification by the department of revenue under s. 70.57 (2). The state superintendent shall, in the subsequent fiscal year, withhold from the school district's state aid entitlement under s. 121.08 an amount equal to the difference between the state aid computed under s. 121.08 for the school year commencing after the year subject to the valuation recertification, using the school district's equalized valuation as originally certified, and the state aid computed under s. 121.08 for that school year, using the school district's equalized valuation as recertified under s. 70.57 (2).

History: 1983 a. 372; 1985 a. 29.

School districts may obtain adjustments in state aid payments whether their equalized valuation is changed either as a result of a reassessment of or a finding of exemption of manufacturing property. 73 Atty. Gen. 119.

121.10 Minimum state aid. (1) In this section:

(a) "Median household income" shall be determined by the most recent federal decennial census.

(b) "State aid" means the sum of payments provided to a school district under ss. 121.08 and 121.085.

(2) From the appropriation under s. 20.255 (2) (ac), the state shall annually pay:

(a) To each school district in which the median household income is less than \$15,000, an amount which, when added to the amount of state aid the school district will receive in the current school year, is equal to an amount determined by multiplying \$225 in the 1986-87 school year and \$250 in each school year thereafter by the membership.

(b) To each school district in which the median household income is at least \$15,000 but less than \$20,000 and the property tax levy determined under s. 120.12 (3) in the previous year was not above the average property tax levy determined under s. 120.12 (3) in the previous year by all school districts, an amount which, when added to the amount of state aid the school district will receive in the current school year, is equal to an amount determined by multiplying \$135 in the 1986-87 school year and \$150 in each school year thereafter by the membership.

(c) To each school district in which the median household income is at least \$15,000 but not more than \$25,000 and the property tax levy determined under s. 120.12 (3) in the previous year was above the average property tax levy determined under s. 120.12 (3) in the previous year by all school districts, an amount which, when added to the amount of state aid the school district will receive in the current school year, is equal to an amount determined by multiplying \$225 in

the 1986-87 school year and \$250 in each school year thereafter by the membership.

(2) (a) Beginning in the 1985-86 school year, if a school district would receive less than 90% of the state aid for the current school year than it received as state aid in the previous school year, its state aid for the current school year shall be increased to an amount equal to 90% of the state aid received in the previous school year. The additional aid shall be paid from the appropriation under s. 20.255 (2) (ac).

(b) A school district is eligible to receive additional aid under par. (a) only if both of the following apply:

1. The school district's equalized valuation divided by its membership does not exceed an amount determined by multiplying the equalized valuation of the state by 1.35 and dividing the product by the state total membership. The calculation under this subdivision shall be based upon the equalized valuations and memberships used to compute general aid in the current school year.

2. The additional aid does not result in a state aid payment greater than the school district's shared cost.

(3) In the school year in which a school district consolidation takes effect under s. 117.06 and in each of the subsequent 2 school years, the consolidated school district's state aid shall be an amount that is not less than the aggregate state aid received by the consolidating school districts in the school year prior to the school year in which the consolidation takes effect. The additional state aid shall be paid from the appropriation under s. 20.255 (2) (ac).

121.135 State aid to county handicapped children's education boards. (1) If, upon receipt of the report under s. 115.84, the state superintendent is satisfied that any children enrolled and participating in a special education program provided by a county handicapped children's education board under this subchapter and not counted as pupils enrolled under s. 121.05 are receiving the substantial equivalent of an elementary or high school education from those services, the superintendent shall certify to the department of administration from the appropriation under s. 20.255 (2) (ac) in favor of the county handicapped children's education board providing those services the amount determined under sub. (2) for each pupil enrolled, except as provided under sub. (3). Enrollment for aid purposes shall be determined in accordance with s. 121.05.

(2) (a) In this subsection:

1. "Average general aid per member" means the amount of aid per member that a school district would receive under ss. 121.08 and 121.085 if its membership included each pupil who is a resident of the district and solely enrolled in a special education program provided by a county handicapped children's education board and the district's shared costs were increased by the average per pupil costs of the county handicapped children's education board program for each pupil who is solely enrolled in the county handicapped children's education board program.

2. "Average per pupil costs of the county handicapped children's education board program" means the gross cost of the county handicapped children's education board program minus all nonduplicative receipts except property taxes and state aid paid under this section in the previous school year,

divided by the number of pupils enrolled in the county handicapped children's education board program.

3. "Pupils enrolled in the county handicapped children's education board program" means the sum of the pupils counted under s. 121.05 (1) (a) 1 and pupils who are receiving services from the county handicapped children's education board under sub. (1).

(c) If a school district is eligible for minimum aid under s. 121.10, the county handicapped children's education board shall be eligible to receive a minimum aid amount calculated as follows: the applicable dollar amount under s. 121.10 is multiplied by each pupil who is solely enrolled in the county handicapped children's education board program and who is a resident of the school district which is eligible for minimum aid.

(3) This section does not apply beginning on the effective date of a resolution adopted under s. 115.86 (9) (c), except that in the school year beginning July 1 of the year prior to the effective date of the resolution, the state superintendent shall certify to the department of administration from the appropriation under s. 20.255 (2) (ac) in favor of the county handicapped children's education board an amount equal to one-half the amount specified under sub. (2) for each pupil enrolled.

121.14 State aid for summer classes. (1) State aid shall be paid to each district or county handicapped children's education board only for those academic summer classes or laboratory periods for which the state superintendent has given prior review and approval as to the content of such classes or laboratory periods so as to assure that such classes and laboratory periods are only for necessary academic purposes. Recreational programs and team sports shall not be eligible for aid under this section, and pupils participating in such programs shall not be counted as pupils enrolled under s. 121.004 (5) nor shall costs associated with such programs be included in shared costs under s. 121.07 (6).

(2) (a) State aid for summer classes shall be incorporated into the state aid paid for regular classes under this subchapter.

(b) Annually on or before October 1, the school district clerk or chairperson of the county handicapped children's education board shall file with the department a report stating the summer average daily membership equivalent.

(3) References to county handicapped children's education boards under subs. (1) and (2) (b) do not apply beginning on the effective date of a resolution adopted under s. 115.86 (9) (c).

121.15 Payment of state aid. (1) State aid under s. 121.08 shall be paid to school districts according to the following distribution schedule:

(a) Each school district shall receive 15% of its total aid entitlement in September, 25% of its total aid entitlement in December, 25% of its total aid entitlement in March and 35% of its total aid entitlement in June.

(b) For the September payment, the total aid entitlement for each district shall be estimated based upon the total aid payment in the previous year.

(c) For the payments from December to June, the total aid entitlement for each district shall be computed on the basis of the budget and membership report under s. 121.05.

(d) Any aid adjustment for the previous year required under s. 121.07 (1) (d) shall be made by increasing or decreasing the payment made in June.

(e) Payments under this subsection shall be made on the first Monday of the month for the December payment, on the 3rd Monday of the month for the September and June payments and on the 4th Monday of the month for the March payment.

(2) No state aid payments may be made to any district until the annual report under s. 120.18 has been filed with the department.

(3) No state aid payments may be made to any district in the months of November to June until the budget and membership report under s. 121.05 is filed with the department.

(4) On July 1 and October 1, using the most accurate data available, the state superintendent shall provide each school district with an estimate of the total amount of state aid the school district will receive under s. 121.08 in the current school year.

121.17 Use of federal revenue sharing funds. It is the intent of the legislature that school districts receiving federal revenue sharing funds through the state under this subchapter shall utilize these funds in compliance with the federal revenue sharing requirements as defined in the state and local fiscal assistance act of 1972 (P.L. 92-512), as amended by P.L. 94-488. The department of public instruction shall assure compliance with this section.

121.23 Payment of aids in school district labor disputes.

(1) In the event that the state superintendent finds that school is not held, or educational standards are not maintained in accordance with s. 121.02 (1) (f) as the result of a strike by school district employees, make-up days are authorized to be scheduled but no make-up days are required.

(2) If a school district holds less than 180 days of school as the result of a strike by school district employees, for the purposes of computing general aid, the state superintendent shall compute the school district's primary ceiling cost per member in accordance with the procedure specified in pars. (a) to (e). In making the calculation, the state superintendent shall:

(a) Determine the amount of shared cost not incurred by the school district because of the strike.

(b) Determine the amount of shared cost that the school district would have incurred had the strike not occurred.

(c) Divide the amount determined under par. (a) by the amount determined under par. (b).

SUBCHAPTER III

DRIVER EDUCATION AID AND FEES

121.41 Driver education programs. (1) STATE AID. To promote a uniformly effective driver education program among high school and vocational, technical and adult education school pupils, each school district operating high

school grades, each county handicapped children's education board which provides the substantial equivalent of a high school education and each vocational, technical and adult education district shall receive \$50 for each pupil of high school age who completes a course in driver education approved by the department, but in no case may the state aid exceed the actual cost of instruction. If the appropriation under s. 20.255 (2) (r) is inadequate in any year to provide \$50 per pupil, the state aid shall be prorated after the appropriation for administration is deducted. Such state aid shall be paid at the same time as the state aid under s. 121.08 is paid.

(2) **FEEs.** A school board may establish and collect reasonable fees for any driver education program or part of a program which is neither required for nor credited toward graduation. The school board may waive any fee established under this subsection for any indigent pupil.

SUBCHAPTER IV

TRANSPORTATION AID

121.51 Definitions. In this subchapter:

(1) "Attendance area" is the geographic area designated by the governing body of a private school as the area from which its pupils attend and approved by the school board of the district in which the private school is located. If the private school and the school board cannot agree on the attendance area, the state superintendent shall, upon the request of the private school and the board, make a final determination of the attendance area. The attendance areas of private schools affiliated with the same religious denomination shall not overlap.

(3) "School board" has the meaning designated in s. 115.001 (7) and includes any governmental agency transporting children to and from public schools.

(4) "School bus" has the meaning designated in s. 340.01 (56).

History: 1975 c. 120; 1983 a. 189 ss. 185, 329 (17); 1983 a. 512.
"The attendance areas of private schools affiliated with the same religious denomination shall not overlap," is not construed as mere surplusage, for although it adds no special restrictive ban on overlapping in that such restriction is inherent in the whole concept of "attendance areas," it makes the phrase "affiliated with the same religious denomination" the test of affiliation in a single school system rather than operation by a single agency or set of trustees or religious order within a particular religious denomination. 121.52 Vehicle, operator and driver requirements. (1) (a) Rules governing the design, construction, inspection and operation of school buses adopted by the secretary of transportation under s. 110.06 (2) shall by reference be made part of any contract for the transportation of pupils.

(b) The school board may adopt additional rules, not inconsistent with law or with rules of the secretary of transportation or the state superintendent, for the protection of the pupils or to govern the conduct of the person in charge of the motor vehicle used for transportation of pupils for compensation.

(2) (a) All drivers of motor vehicles owned by the school district and used for the transportation of pupils shall be under written contract with the school board of the district.

(b) The owner or lessee of all privately owned motor vehicles transporting pupils for compensation shall be under written contract with the school board of the district for which such transportation is provided.

(c) The form of contract shall be prescribed by the department and shall provide that all parties to the contract are subject at all times to rules adopted by the secretary of transportation under s. 110.06 (2) and by the department.

(3) (a) If the contract is made under sub. (2) (b), the contract shall provide that the owner or lessee require his or her bus drivers, as a condition of employment, to take a physical examination, including a chest X-ray or tuberculin test, and to submit the physical examination report to the school board. If the reaction to the tuberculin test is positive, a chest X-ray shall be required. Freedom from tuberculosis in a communicable form is a condition of employment as a bus driver. Additional physical examinations shall be required thereafter at intervals determined by the school board.

(b) The contract shall provide that a physical examination report may be submitted on forms prescribed by the federal authority regulating motor carriers or the department and that a copy of a physical examination report obtained for other purposes within one year of the date of the contract may be substituted for the examination, if the report contains substantially the same information required by the department.

(c) Such physical examinations, chest X-rays or tuberculin tests shall not be required of a bus driver who files with the school board an affidavit setting forth that he depends exclusively upon prayer or spiritual means for healing in accordance with the teachings of a bona fide religious sect, denomination or organization and that he is to the best of his knowledge and belief in good health and that he claims exemption from health examination on these grounds. Notwithstanding the filing of such affidavit, if there is reasonable cause to believe that the bus driver is suffering from an illness detrimental to the health of the pupils, the school board may require a health examination of the bus driver sufficient to indicate whether or not he is suffering from such an illness. No bus driver may be discriminated against by reason of his filing such affidavit.

(4) The use of any motor vehicle to transport pupils shall be discontinued upon receipt of an order signed by the state superintendent or the secretary of transportation ordering such discontinuance. Personnel under the state superintendent or the secretary of transportation may ride any school bus at any time for the purpose of inspection.

History: 1977 c. 29 s. 1654 (7) (d); 1985 a. 218.

121.53 School bus insurance. (1) No motor vehicle may be used as a school bus unless a policy of bodily injury and property damage liability insurance, issued by an insurer authorized to transact business in this state, is maintained thereon. The policy shall provide property damage liability coverage with a limit of not less than \$10,000. The policy also shall provide bodily injury liability coverage with limits of not less than \$75,000 for each person and, subject to such limit for each person, total limits as follows:

(a) \$150,000 for each accident for each such motor vehicle having a seating capacity of 7 passengers or less.

(b) \$200,000 for each accident for each such motor vehicle having a seating capacity of 8 to 15 passengers.

(c) \$250,000 for each accident for each such motor vehicle having a seating capacity of 16 to 24 passengers.

(d) \$375,000 for each accident for each such motor vehicle having a seating capacity of 25 to 36 passengers.

(e) \$1,000,000 for each accident for each such motor vehicle having a seating capacity of 37 or more passengers.

(2) The policy under this section shall cover the transportation of pupils, their parents or guardians, authorized chaperones, school district officers, faculty and employees and school doctors, dentists and nurses:

(a) To and from the school or school district which operates the school bus or contracts for its operation.

(b) In connection with any extracurricular school activity authorized by and made in compliance with s. 121.54 (7).

(3) An insurer issuing a policy under this section may exclude coverage for public or livery use of the school bus, but any such exclusion does not apply:

(a) When the school bus, while regularly used as such, also is used to transport pupils of another public or private school, whether or not a charge is made for such transportation.

(b) When used in accordance with sub. (2), whether or not any person lawfully transported is required to pay a charge therefor.

(c) When the school bus is used as specified in s. 340.01 (56) (am) for the purpose of transporting elderly or handicapped persons in connection with a transportation assistance program for such persons.

(4) Every school board shall require that there be filed with it and with the department of transportation a certificate of insurance showing that an insurance policy has been procured and is in effect which covers the owner and operator of the school bus and the school board or shall procure an insurance policy and file such certificate with the department of transportation. Unless such certificate is on file with the department of transportation, no registration plates for a school bus may be issued by the department of transportation. No such policy may be terminated prior to its expiration or canceled for any reason, unless a notice thereof is filed with the department of transportation and with the school board by the insurer at least 10 days prior to the date of termination or cancellation. The department of transportation shall revoke the registration of a school bus on which the policy has been terminated or canceled, effective on the date of termination or cancellation.

(5) Subsections (1) to (4) do not apply to:

(a) A motor vehicle owned or operated by a parent or guardian transporting only his own children, whether or not any contract is made with or compensation paid to the parent or guardian for such transportation by a school board.

(b) A motor vehicle operated by a common carrier certificated under ch. 194, where such motor vehicle is used under contract pursuant to this subchapter, if the common carrier has complied with s. 194.41 or 194.42.

(c) A taxicab regulated by a municipal ordinance under s. 349.24 when used to transport pupils.

(6) Within 10 days after its occurrence, every accident involving a motor vehicle while providing transportation under this subchapter shall be reported to the appropriate school board and promptly by it to the state superintendent on forms provided by him.

History: 1975 c. 60; 1977 c. 29 s. 1654 (7) (b); 1979 c. 281; 1981 c. 25; 1985 a. 287.

121.54 Transportation by school districts. (1) CITY OPTION. (a) Subsections (2) and (6) and s. 121.57 do not apply to pupils who reside in a school district that contains all or part of a city unless the school they attend is located outside the city but within the boundaries of the school district.

(b) If a school district elects under sub. (2) (c) to provide transportation for the pupils under par. (a), state aid shall be paid in accordance with s. 121.58, and there shall be reasonable uniformity in the transportation furnished to the pupils, whether they attend public or private schools.

(c) Paragraph (a) does not apply to pupils who reside in a school district that contains all or part of a 1st, 2nd or 3rd class city with a population exceeding 40,000 unless transportation for the pupils is available through a common carrier of passengers operating under s. 85.20 or ch. 194.

(2) **GENERAL TRANSPORTATION.** (a) Except as provided in sub. (1), every school board shall provide transportation to and from public school for all pupils who reside in the school district 2 miles or more from the nearest public school they are entitled to attend.

(b) 1. Except as provided in sub. (1) or otherwise provided in this subsection, the school board of each district operating high school grades shall provide transportation to and from the school he attends for each pupil residing in the school district who attends any elementary grade, including kindergarten, or high school grade at a private school located 2 miles or more from his residence, if such private school is a school within whose attendance area the pupil resides and is situated within the school district or not more than 5 miles beyond the boundaries of the school district measured along the usually traveled route.

2. In lieu of transporting students under subd. 1 and paying for transportation under sub. (8) (b), an underlying elementary school district of a union high school district may elect, by resolution adopted at its annual or special meeting, to transport elementary school children who reside within the underlying district and qualify for transportation under subd. 1, in vehicles owned, operated or contracted for by the district. Once adopted, such a resolution may be repealed only upon one year's notice to the board of the union high school district of which the underlying district is a part. An elementary school district shall notify the union high school district of any action under this paragraph no later than June 15 preceding the school year in which the elementary school district's action takes effect.

3. By April 1, 1986, and annually thereafter by that date, each private school shall submit its proposed attendance area for the ensuing school year to the school board of each school district having territory within the proposed attendance area. If a proposal is not submitted by April 1, the existing attendance area shall remain in effect for the ensuing school year.

4. No later than May 15 in each year, each private school shall notify each school board of the names, grade levels and locations of all pupils, if any, eligible to have transportation provided by such school board under this paragraph and planning to attend such private school during the forthcoming school term. The school board may extend the notification deadline.

(c) An annual or special meeting of a common or union high school district, or the school board of a unified school district, may elect to provide transportation for pupils who are not required to be transported under this section. Transportation may be provided for all or some of the pupils who reside in the school district to and from the public school they are entitled to attend or the private school, within or outside the school district, within whose attendance area they reside. If transportation is provided for less than all such pupils there shall be reasonable uniformity in the minimum distance that pupils attending public and private schools will be transported. Except for elementary school districts electing to furnish transportation under par. (b) 2, this paragraph does not permit a school district operating only elementary grades to provide transportation for pupils attending private schools.

(d) A school board may provide transportation for teachers to and from public school, subject to the same controls and limitations as apply to the transportation of pupils.

(3) **TRANSPORTATION FOR CHILDREN WITH EXCEPTIONAL EDUCATIONAL NEEDS.** Every school board shall provide transportation for children with exceptional educational needs, as defined in s. 115.76 (3), to any public or private elementary or

high school, to the Wisconsin school for the visually handicapped or the Wisconsin school for the deaf or to any special educational program for children with exceptional educational needs sponsored by a state tax-supported institution of higher education, regardless of distance, if the request for such transportation is approved by the state superintendent. Approval shall be based on whether or not the child can walk to school with safety and comfort. Section 121.53 shall apply to transportation provided under this subsection.

(4) SUMMER CLASS TRANSPORTATION. (a) A school board may provide transportation for pupils residing in the school district and attending summer classes. If the school board provides transportation for less than all pupils, there shall be reasonable uniformity in the minimum and maximum distances pupils are transported.

(b) A school board, a county handicapped children's education board or a cooperative educational service agency may provide transportation regardless of distance for children with exceptional educational needs who attend a summer special education program under s. 115.83 (4), if a request for such transportation is approved by the state superintendent. Approval shall be based on whether or not the child can walk to school with safety and comfort. Section 121.53 shall apply to transportation provided under this paragraph.

(5) TRANSPORTATION TO VOCATIONAL SCHOOLS. The school board of a district operating high school grades may provide for the transportation or board and lodging of residents of the school district attending vocational, technical and adult education schools outside the school district who are not high school graduates, are less than 20 years of age and attend such schools full time. The school board of such a district may also provide transportation for residents of the district participating in vocational education programs organized cooperatively between school districts under s. 66.30. The school district shall be paid state aid for such transportation or board and lodging in accordance with s. 121.58. This subsection does not apply if the distance between a pupil's home and the vocational, technical and adult education school along the usually traveled public highway is more than 15 miles, unless the pupil resides on an approved bus route or board and lodging are provided.

(6) TRANSPORTATION IN SPECIAL CASES. The school board of a district operating high school grades which, under s. 121.78 (2) (a), must permit a pupil to attend high school outside the school district shall provide transportation for such pupil if he resides 2 or more miles from the high school he attends.

(7) TRANSPORTATION FOR EXTRACURRICULAR ACTIVITIES. (a) A school board may provide transportation for pupils attending public or private schools, their parents or guardians, authorized chaperones, school officers, faculty and employees and school doctors, dentists and nurses in connection with any extracurricular activity of the public or private school, such as a school athletic contest, school game, after school practice, late activity, school outing or school field trip or any other similar trip when:

1. A school bus or motor bus or a motor vehicle under s. 121.555 (1) (a) is used and such transportation is under the immediate supervision of a competent adult.

2. A school operated by the school district or the private school has an actual interest in the safety and welfare of the children transported to the activity;

4. The school principal or other person with comparable authority authorizes such use.

(b) 1. If transportation is provided to pupils and other persons in connection with any extracurricular activity of a public school under par. (a), the school board may make a

charge for such transportation, to be paid by the persons transported, sufficient to reimburse it for the cost of providing the transportation. If transportation is provided to pupils and other persons in connection with any extracurricular activity of a private school under par. (a), the school board shall make a charge for such transportation, to be paid by the private school or the persons transported, sufficient to reimburse it for the cost of providing the transportation.

2. The school board may contract under s. 121.52 (2) (b) for transportation authorized under par. (a) for pupils attending public schools. The school board may authorize a charge for the transportation, to be paid by the persons transported, sufficient to make reimbursement for the cost of providing the transportation.

(8) PAYMENT OF TRANSPORTATION COSTS. (a) The cost of providing transportation for pupils under subs. (1) to (6) and s. 121.57 shall be paid by the school district in which they reside, and no part of such cost may be charged to the pupils or their parents or guardians.

(b) At the end of the school term, every union high school district shall submit to each of its underlying school districts operating only elementary grades a certified statement of the actual cost for the school year, less the amount to be paid for such pupils for that school year under s. 121.58 (2), of transporting the private school pupils residing in the underlying school district under sub. (2) (b). On or before June 30 in each year each underlying school district shall reimburse the union high school district for the net cost of transporting its resident private school pupils as so reported in the statement.

(9) TRANSPORTATION IN AREAS OF UNUSUAL HAZARDS. (a) In school districts in which unusual hazards exist for pupils in walking to and from the school where they are enrolled, the school board shall develop a plan which shall show by map and explanation the nature of the unusual hazards to pupil travel and propose a plan of transportation if such transportation is necessary, which will provide proper safeguards for the school attendance of such pupils. Copies of the plan shall be filed with the sheriff of the county in which the principal office of the school district is located. The sheriff shall review the plan and may make suggestions for revision deemed appropriate. The sheriff shall investigate the site and plan and make a determination as to whether unusual hazards exist which cannot be corrected by local government and shall report the findings in writing to the state superintendent and the school board concerned. Within 60, but not less than 30, days from the day on which the state superintendent receives the sheriff's report, the state superintendent shall determine whether unusual hazards to pupil travel exist and whether the plan provides proper safeguards for such pupils. If the state superintendent makes findings which support the plan and the determination that unusual hazards exist which seriously jeopardize the safety of the pupils in their travel to and from school, the school board shall put the plan into effect and state aid shall be paid under s. 121.58 (2) (c) for any transportation of pupils under this subsection. Any city, village or town may reimburse, in whole or in part, a school district for costs incurred in providing transportation under this subsection for pupils who reside in the city, village or town.

(am) Any person aggrieved by the failure of a school board to file a plan with the sheriff as provided in par. (a) may notify the school board in writing that an area of unusual hazard exists. The school board shall reply to the aggrieved person in writing within 30 days of receipt of the aggrieved person's notice. The school board shall send a copy of the board's reply to the sheriff of the county in which the principal office of the school district is located and to the state superintendent.

ent. Upon receipt of the school board's reply, the aggrieved person may request a hearing before the state superintendent for a determination as to whether an area of unusual hazard exists. If the state superintendent determines that an area of unusual hazard exists, the state superintendent shall direct the school board to proceed as provided in par. (a).

(b) Within 30 days after the sheriff's report is received by the state superintendent, any aggrieved person may request a hearing before the state superintendent on the determination by the sheriff and on the plan. After such hearing, the state superintendent shall proceed as provided in par. (a).

(c) The state superintendent and the department of transportation shall establish a definition of "unusual hazards" and "area of unusual hazards" for the implementation of this subsection. Such definition shall be promulgated, as a rule, by the state superintendent.

Exceptions to the mandatory provision of transportation should be narrowly construed. The exception for children who "reside in cities" should be confined to its common and approved usage. *Morrisette v. DeZonia*, 63 W (2d) 429, 217 NW (2d) 377.

Although private school was only 127 feet beyond 5-mile limit of (2) (b) 1, statutory construction is not available to extend such limit. *Young v. Bd. of Ed.*, Jt. Dist. No. 10, 74 W (2d) 144, 246 NW (2d) 230.

Students living less than 2 miles from school may not be transported by the school board at parental expense. 62 Atty. Gen. 95.

City school bussing policies adopted pursuant to (1) and (2) (b) 1 were without rational basis and violated the equal protection rights of city resident private school students who resided more than 2 miles from school but were denied transportation solely because the school was located 400 feet outside the city and school district boundaries. *Deutsch v. Teel*, 400 F Supp. 598.

121.545 Additional transportation. The parent or guardian of a pupil who attends a public or private school and who is not required to be transported under s. 121.54 may contract with the school board of the district for transportation under this section. The school board of the district may provide transportation under this section to a pupil not required to be transported under s. 121.54, if requested to do so by the parent or guardian of the pupil and if the parent or guardian agrees to pay to the school board a fee sufficient to reimburse the board for the costs incurred in providing such transportation. State aid shall not be provided for transportation under this section.

History: 1979 c. 221.

121.55 Methods of providing transportation. (1) School boards may provide transportation by any of the following methods:

(a) By contract with a common carrier, a taxi company or other parties.

(b) By contract with the parent or guardian of the pupil to be transported. If the school board and the parent or guardian cannot agree upon the amount of compensation, the department shall determine the amount of compensation to be designated in the contract.

(c) By contract with another school board, board of control of a cooperative educational service agency or the proper officials of any private school or private school association.

(d) By contract between 2 or more school boards and an individual or a common carrier.

(e) By the purchase and operation of a motor vehicle.

(3) If the estimated cost of transporting a pupil under s. 121.54 (2) (b) 1 is more than 1.5 times the school district's average cost per pupil for bus transportation in the previous year, exclusive of transportation for kindergarten pupils during the noon hour and for handicapped pupils, the school board may fulfill its obligation to transport a pupil under s. 121.54 (2) (b) 1 by offering to contract with the parent or guardian of the pupil. The contract shall provide for an annual payment for each pupil of not less than \$5 times the distance in miles between the pupil's residence and the private school he or she attends, or the school district's average cost per pupil for bus transportation in the previous year exclusive of transportation for kindergarten pupils during the noon hour and for handicapped pupils, whichever is greater, but the payment shall not exceed the actual cost nor may the aids paid under s. 121.58 (2) (a) for the pupil exceed the cost thereof. A school board which intends to offer a contract under this subsection shall notify the parent or guardian of the private school pupil of its intention at least 30 days before the commencement of the school term of the public school district.

History: 1979 c. 34, 221; 1981 c. 263; 1983 a. 264.

121.555 Alternative methods of providing transportation.

(1) A school board or the governing body of a private school may provide pupil transportation services by the following alternative methods:

(a) A motor vehicle transporting 9 or less passengers in addition to the operator.

(b) A motor vehicle transporting 10 or more passengers in addition to the operator and used temporarily to provide transportation for purposes specified under s. 340.01 (56) (a) when the school board or the governing body requests the secretary of transportation to determine that an emergency exists because no regular transportation is available. The secretary of transportation shall approve or deny the request in writing. Any authorization granted under this paragraph shall specify the purpose and need for the emergency transportation service.

(2) The school board or governing body of a private school shall determine that any motor vehicle used under sub. (1) complies with the following conditions:

(a) *Insurance.* If the vehicle is owned or leased by a school or a school bus contractor, or is a vehicle authorized under sub. (1) (b), it shall comply with s. 121.53. If the vehicle is transporting 9 or less persons in addition to the operator and is not owned or leased by a school or by a school bus contractor, it shall be insured by a policy providing property damage coverage with a limit of not less than \$10,000 and bodily injury liability coverage with limits of not less than \$25,000 for each person, and, subject to the limit for each person, a total limit of not less than \$50,000 for each accident.

(b) *Inspection.* If the vehicle is owned or leased by a school or a school bus contractor or is operated by a school district employe, it shall be inspected annually for compliance with the requirements of s. 110.075, ch. 347, and the rules of the department of transportation. The owner or lessee of the vehicle is responsible for the annual inspection.

(c) *Operator requirements.* The operator:

1. Shall possess a valid Wisconsin operator's license or a valid operator's license issued by another jurisdiction, as defined in s. 343.01 (2) (d).

2. Shall be at least 18 years of age.

3. Shall have sufficient use of both hands and the foot normally employed to operate the foot brake and foot

accelerator. The department of transportation may require substantiation of such use by a driving examination conducted by the department or by a medical opinion.

4. Shall submit at least once every 3 years to the school a medical opinion in such form as the school may prescribe that the operator is not afflicted with or suffering from any mental or physical disability or disease such as to prevent the operator from exercising reasonable control over a motor vehicle. The examination report prescribed in s. 118.25 (2) and (4) may be used to satisfy this requirement. This subdivision applies only if the vehicle used under sub. (1) is owned or leased by a school or a school bus contractor or is operated by a school district employe.

5. May not be a person convicted within a 2-year period of reckless driving under s. 346.62, operating a motor vehicle while under the influence of an intoxicant or of a controlled substance under s. 346.63 (1) or a local ordinance in conformity therewith, a violation of s. 346.63 (1m), 1985 stats., or any of the offenses enumerated under s. 343.31 (1). Upon request of the operator or school, the department shall certify whether the operator meets this requirement.

(cm) *Waiver of operator requirement.* Notwithstanding par. (c) 3, with respect to the operator of a vehicle under sub. (1) (a), a school board or the governing body of a private school may waive the requirement that an operator have sufficient use of both hands if the operator has sufficient use of one hand to safely operate the vehicle which the school board or governing body of the private school proposes the operator use, as substantiated by a special driving examination conducted by the department of transportation. The department of transportation shall conduct the special examination under this paragraph upon the request of a school board, the governing body of a private school or the operator.

(d) *Seating requirements.* The vehicle may not be used to transport more persons than can be seated on the permanently mounted seats facing forward without interfering with the operator.

Application of this section to various methods of transportation discussed. 75 Atty. Gen. 146 (1986).

121.56 School bus routes. The school board of each district shall make and be responsible for all necessary provisions for the transportation of pupils, including establishment, administration and scheduling of school bus routes. Upon the request of any school board, the state superintendent shall provide advice and counsel on problems of school transportation. Any private school shall, upon the request of the public school officials, supply all necessary information and reports. The transportation of public and private school pupils shall be effectively coordinated to insure the safety and welfare of the pupils. Upon receipt of a signed order from the state superintendent, the school board shall discontinue any route specified by him.

See note to 121.54, citing *Hahner v. Board of Ed. Wisconsin Rapids*, 89 W (2d) 180, 278 NW (2d) 474 (Ct. App. 1979).

121.57 Board and lodging or house rental in lieu of transportation. (1) (a) If a school board determines it is to the advantage of the school district and if the parent or guardian determines it is to the advantage of the pupil that board and lodging in lieu of transportation be provided for all or part of the time for a pupil of the school district required to be transported or for whom it has been authorized under s. 121.54 (2), the school board shall enter into a written contract under which the pupil shall be properly boarded and lodged and the school board shall pay for such board and lodging. The parent or guardian may select the home in which his child

is boarded and lodged. If a school board determines it is in the interest of the school district, it may pay the tuition of a pupil in a school in another school district in lieu of providing transportation to a school in the school district of residence or board and lodging. If the distance from the pupil's home to the school in another school district is 2 miles or more, the school board of the district of residence shall provide transportation.

(b) This subsection also applies to handicapped children. The state superintendent may grant permission for a handicapped child to be transported to a school in another school district if an acceptable form of transportation is provided and if such school offers equal or better educational opportunities for the child.

(2) If a school board determines it is in the interest of the school district to rent a house for the family of children required to be transported in lieu of providing such transportation, it may enter into a written lease for such housing and pay as rental therefor not more than the amount which otherwise would be paid for transportation.

(3) This section does not apply to pupils who attend private schools.

121.58 State aid. (1) REPORT. In the report filed under s. 120.18 the school district clerk shall include such information as the department requires on the number of pupils for whom transportation or board and lodging is provided.

(2) **STATE AID FOR TRANSPORTATION.** (a) A school district which provides transportation to and from a school under ss. 121.54 (1) to (3), (5) and (6) and 121.57 shall be paid state aid for such transportation at the rate of \$30 per school year per pupil so transported whose residence is at least 2 miles and not more than 5 miles from the school attended, \$45 per school year per pupil so transported whose residence is at least 5 miles and not more than 8 miles from the school attended, \$60 per school year per pupil so transported whose residence is at least 8 miles and not more than 12 miles from the school attended, \$68 per school year per pupil so transported whose residence is at least 12 miles and not more than 15 miles from the school attended, \$75 per school year per pupil so transported whose residence is at least 15 miles and not more than 18 miles from the school attended, and \$85 per school year per pupil so transported whose residence is more than 18 miles from the school attended. Such state aid shall be reduced proportionately in the case of a pupil transported for less than a full school year because of nonenrollment. State aid for transportation shall not exceed the actual cost thereof. No state aid of any kind may be paid to a school district which charges the pupil transported or his or her parent or guardian any part of the cost of transportation provided under ss. 121.54 (1) to (3), (5) and (6) and 121.57 or which wilfully or negligently fails to transport all pupils for whom transportation is required under s. 121.54.

(c) A school district which provides transportation to and from a school under s. 121.54 (9) shall be paid state aid for such transportation at the rate of \$12 per school year per pupil so transported. Such state aid shall be reduced proportionately in the case of a pupil transported for less than a full year because of nonenrollment. State aid for such transportation shall not exceed the actual cost thereof.

(3) **STATE AID FOR BOARD AND LODGING.** A school district which provides board and lodging or housing under s. 121.57 (2) in lieu of transportation shall be paid state aid for such board and lodging or housing at the rate of not more than \$6 per week of 5 days for each pupil so boarded and lodged or housed, but not to exceed 60% of the cost. For children with exceptional educational needs such state aid shall be supple-

mented by the state aid under s. 115.88 in an amount not to exceed the full cost of such board and lodging.

(4) **STATE AID FOR SUMMER CLASS TRANSPORTATION.** Annually on or before October 1 of the year in which transportation is provided under s. 121.54 (4), the school district clerk shall file with the department a report, containing such information as the department requires, on transportation provided by the school board to and from summer classes. Upon receipt of such report and if the summer classes meet the requirements of s. 121.14 (1), state aid shall be paid for such transportation. A school district which provides such transportation shall be paid state aid for such transportation at the rate of \$4 per pupil transported to and from public school whose residence is at least 2 miles and not more than 5 miles by the nearest traveled route from the public school attended, and \$6 per pupil transported to and from public school whose residence is more than 5 miles by the nearest traveled route from the public school attended, if the pupil is transported 30 days or more. The state aid shall be reduced proportionately if the pupil is transported less than 30 days.

(5) **STATE SUPERINTENDENT APPROVAL.** If the state superintendent is satisfied that transportation or board and lodging was provided in compliance with law, he shall certify to the department of administration the sum due the school district. In case of differences concerning the character and sufficiency of the transportation or board and lodging, the state superintendent may determine such matter and his decision thereon is final.

(6) **APPROPRIATION PRORATED.** If the appropriation under s. 20.255 (2) (cr) in any one year is insufficient to pay the full amount of approved claims under this section, state aid payments shall be prorated among the school districts entitled thereto.

(7) **PAYMENT.** Beginning with payments made in the 1985-86 school year, each school district entitled to state aid under this section shall receive its total aid entitlement in January.

The school board of residence shall pay tuition for such pupil. If the parent or guardian of such pupil has paid tuition in order to enroll such pupil in such high school, the school board of residence shall reimburse the parent or guardian for the

The application shall be accompanied by a written declaration of the parent or legal custodian that he will establish residence in the school district by a specified time. If facilities are adequate, the school board may permit the pupil to enroll in the schools of the school district, and may require prepayment of a tuition fee for 9 school weeks or may waive the tuition requirement for that pupil. If the parent or legal custodian establishes residence in the school district within such 9 school weeks, the school board shall refund the tuition fee. If such residence is not established there shall be no refund of the tuition fee but another written application for enrollment may be filed for the next succeeding 9 school weeks and, upon prepayment of a tuition fee for such 9 school weeks, the school board may permit the pupil to reenroll. If the parent or legal custodian establishes residence in the school district within the second 9 school weeks, the school board shall refund the tuition fee for the second 9 school weeks.

(b) If the parent or legal custodian establishes residence in the school district prior to the expiration of the first 18 school weeks of the school term and if the pupil was enrolled in the school district on the 3rd Friday in September, the pupil shall be considered a resident pupil in computing general aid under subch.
