

Ninetieth Regular Session

WEDNESDAY, October 28, 1992

The chief clerk makes the following entries under the above date.

Sincerely,
Carol Skornicka
Secretary

PETITIONS AND COMMUNICATIONS

State of Wisconsin
Department of Industry,
Labor and Human Relations

October 15, 1992

To the Honorable the Legislature:

The Department of Industry, Labor and Human Relations (DILHR) is pleased to enclose a copy of its report on the statewide implementation of Wisconsin's new Youth Apprenticeship Program. This report details the progress of this exciting new program which links business and education together to prepare Wisconsin's future workforce. The report has been submitted to Governor Thompson and the Chief Clerks under the requirements of Wisconsin Statute 101.265, which established the Youth Apprenticeship Program and created a Council.

Wisconsin's youth apprenticeship is part of a broader effort to improve the transition from high school to work, to a registered apprenticeship, or to two to four year colleges. Youth apprenticeship is explicitly intended to link high school students with business and industry through an integrated education and work-based learning program that leads to a statewide credential of proficiency and a high school diploma.

Youth apprenticeship exists in the printing/graphic arts industry today. Twenty-three students in West Bend, and in the Fox Cities are proudly serving as Wisconsin's first youth apprentices. Shortly, programs will begin in Milwaukee, Waukesha, Central Wisconsin and Southwest Wisconsin. Additionally, industry development is under way in the areas not previously included in apprenticeship programs such as finance, where we are bringing together banks, savings and loans, and credit unions in an unprecedented collaborative effort. In the future, industry development is planned for the health care, utility and auto/truck dealer industries.

We are proud of what we have already accomplished in this program through the use of not only state funds but grant money as well. We are moving ahead in a thoughtful, deliberative manner in order to ensure that what we produce fulfills our goals and fits the needs of Wisconsin businesses. Our proposal for a Wisconsin Skills Center for Industry and Labor is designed to create curricula that are linked to developing the high performance workforce that is so necessary to future economic growth in Wisconsin.

If you have questions or comments on the report, please feel free to call me or LaMarr Billups in the Bureau of Apprenticeship Standards at 266-3133.

Medical College of Wisconsin

October 16, 1992

To the Honorable the Legislature:

On behalf of the Medical College of Wisconsin, it is my pleasure to submit the annual report of our Department of Family and Community Medicine.

This report has been prepared in accordance with the requirements of 1991 Wisconsin Act 39 and provides information about the items specified in the Act.

We believe that both the Medical College of Wisconsin and the State have benefited greatly from this joint partnership for family medicine, and we look forward to continuing our efforts to improve Wisconsin's health care system.

Please feel free to contact me if you have any questions or would like more information about the Department of Family and Community Medicine or the Medical College of Wisconsin.

Sincerely,
T. Michael Bolger, JD 1
President and CEO
