The department of corrections may also contract for and pay for the use of other public facilities or private facilities for the care and treatment of children in its care, including secured child caring institutions; but placement of children in private or public facilities not under its jurisdiction does not terminate the supervision under s. 48.34 (4h), (4m) or (4n) of the department of corrections. (d) Reimbursement to an agency may be based on total costs agreed to by the parties regardless of the actual number of service units to be furnished, when the agency is entering into a contract for a new or expanded service that the purchaser recognizes will require a start-up period not to exceed 180 days. This reimbursement applies only if identified client needs necessitate the establishment of a new service or expansion of an existing service.

(e) If the purchaser finds it necessary to terminate a contract prior to the contract expiration date for reasons other than nonperformance by the provider, the actual cost incurred by the provider may be reimbursed in an amount determined by mutual agreement of the parties.

(f) Advance payments of up to one-twelfth of an annual contract may be allowed under the contract. If the advance payment exceeds $10,000, the provider shall supply a surety bond in an amount equal to the amount of the advance payment applied for. No surety bond is required if the provider is a state agency. The cost of the surety bond shall be allowable as an expense.

(4) For purposes of this section and as a condition of reimbursement, each provider under contract shall:

(a) Except as provided in this subsection, maintain a uniform double entry accounting system and a management information system which are compatible with cost accounting and control systems prescribed by the department.

(b) Cooperate with the department and purchaser in establishing costs for reimbursement purposes.

(c) Unless waived by the department, biennially, or annually if required under federal law, provide the purchaser with a certified financial and compliance audit report if the care and services purchased exceed $25,000. The audit shall follow standards that the department prescribes.

(d) Transfer a client from one category of care or service to another only with the approval of the purchaser.

(e) Charge a uniform schedule of fees as specified under s. 49.32 (1) unless waived by the purchaser with the approval of the department. Whenever providers recover funds attributed to the client, such funds shall offset the amount paid under the contract.

(5) Except as provided in sub. (5m), the purchaser shall recover from provider agencies money paid in excess of the conditions of the contract from subsequent payments made to the provider.

(5m) (a) In this subsection:
1. “Provider” means a nonprofit, nonstock corporation organized under ch. 181 that contracts under this section to provide client services on the basis of a unit rate per client service.

2. “Rate–based service” means a service or a group of services, as determined by the department, that is reimbursed through a prospectively set rate and that is distinguishable from other services or groups of services by the purpose for which funds are provided for that service or group of services and by the source of funding for that service or group of services.

(b) 1. Subject to subds. 2. and 3., if revenue under a contract for the provision of a rate–based service exceeds allowable costs incurred in the contract period, the provider may retain from the surplus generated by that rate–based service up to 5% of the contract amount. A provider that retains a surplus under this subdivision shall use that retained surplus to cover a deficit between revenue and allowable costs incurred in any preceding or future contract period for the same rate–based service that generated the surplus so that the programmatic needs of clients served by the same rate–based service that generated the surplus.

2. Subject to subd. 3., a provider may accumulate funds from more than one contract period under this paragraph, except that, if at the end of a contract period the amount accumulated from all contract periods for a rate–based service exceeds 10% of the amount of all current contracts for that rate–based service, the provider shall, at the request of a purchaser, return to that purchaser the provider’s unit rate per client for that rate–based service in the next contract period. If a provider has held for 4 consecutive contract periods an accumulated reserve for a rate–based service that is equal to or exceeds 10% of the amount of all current contracts for that rate–based service, the provider shall apply 50% of that accumulated amount to reducing its unit rate per client for that rate–based service in the next contract period.

3. If on December 31, 1995, the amount accumulated by a provider from all contract periods ending on or before that date for all rate–based services provided by the provider exceeds 10% of the provider’s total contract amount for all rate–based services provided by the provider in 1995, the provider shall, at the request of a purchaser, return to that purchaser the purchaser’s proportional share of that excess.

(f) All providers that are subject to this subsection shall comply with any financial reporting and auditing requirements that the department may prescribe. Those requirements shall include a requirement that a provider provide to any purchaser and the department any information that the department needs to claim federal reimbursement for the cost of any services purchased from the provider and a requirement that a provider provide audit reports to any purchaser and the department according to standards specified in the provider’s contract and any other standards that the department may prescribe.

6. Contracts may be renegotiated by the purchaser under conditions specified in the contract.

7. The service provider under this section may appeal decisions of the purchaser in accordance with terms and conditions of the contract and ch. 68 or 227.
