2 84.02 (5) (am) of the statutes; **relating to:** the sale of advertising space in folded
3 highway maps, the sale of highway service maps and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the department of transportation (DOT) publishes highway service maps, which show the state trunk highway system and other main highways and features, and sells these maps for a price not less than the cost of producing them. Current law also requires DOT to publish folded versions of the maps for free distribution to the public.

This bill allows DOT to sell commercial advertising space in the folded highway maps. Such advertisements must be consistent with the goals, purposes and functions of DOT and of the department of tourism and may not include political advertisements. The bill directs that all profits from the sale of advertising space be used to supplement funding for the specialized transportation assistance program, which provides financial assistance to counties providing transportation services for elderly and disabled persons. The bill also eliminates the prohibition against selling highway service maps at a price below the cost of producing them.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
