A PUBLIC AUTHORITY FOR UW HOSPITAL? NO!

To: Members of the Joint Finance Committee,

We, the undersigned employees of the University of Wisconsin Hospital & Clinics, or the Center for Health Sciences of which the hospital is a part, wish to express directly to you our opposition to the budget proposal to turn operation of the hospital over to a public authority.

While changes are needed, the hospital does not have to be removed from state service in order to make those changes. The public authority is not in the best interests of the public, the hospital, or its employees.

A recent newspaper ad claiming "grassroots" support among hospital employees for the public authority was signed almost exclusively by department heads, supervisors, and employees of the Human Resources (Personnel) department.

My signature on this petition attests to the fact that I, a *real* "grassroots" employee, oppose the public authority.

A PUBLIC AUTHORITY FOR UW HOSPITAL? NO!

To: Members of the Joint Finance Committee,

We, the undersigned employees of the University of Wisconsin Hospital & Clinics, or the Center for Health Sciences of which the hospital is a part, wish to express directly to you our opposition to the budget proposal to turn operation of the hospital over to a public authority.

While changes are needed, the hospital does not have to be removed from state service in order to make those changes. The public authority is not in the best interests of the public, the hospital, or its employees.

A recent newspaper ad claiming "grassroots" support among hospital employees for the public authority was signed almost exclusively by department heads, supervisors, and employees of the Human Resources (Personnel) department.

My signature on this petition attests to the fact that I, a *real* "grassroots" employee, oppose the public authority.
