6. If an application is accepted, on or before the first Friday following the first Monday in June following receipt of a notice of acceptance, the pupil’s parent shall notify the nonresident school board of the pupil’s intent to attend school in that school district in the following school year.

(b) Notice to resident school district. Annually by June 30, each nonresident school board that has accepted a pupil under this section for attendance in the following school year shall report the name of the pupil to the pupil’s resident school board.

(c) Subsequent reapplication; when required. 1. If a pupil’s parent notifies a nonresident school board, under par. (a) 6., that the pupil intends to attend school in that school district in the following school year, the pupil may attend that school district in the following school year and may continue to attend that school district in succeeding school years without reapplying, except that the nonresident school board may require that the pupil reapply, no more than once, when the pupil enters middle school, junior high school or high school.

2. If at any time a pupil who is attending school in a nonresident school district under this section wishes to attend school in a different nonresident school district under this section, the pupil’s parent shall follow the application procedures under par. (a).

(b) If the school board revises its criteria or policies under par. (a), it shall do so by resolution.

5. Nonresident school district acceptance criteria. (a) Permissible criteria. Except as provided in par. (c), the criteria for accepting and rejecting applications from nonresident pupils under sub. (3) (a) may include only the following:

1. The availability of space in the schools, programs, classes or grades within the nonresident school district, including any class size limits, pupil-teacher ratios, pupils attending the school district for whom tuition is paid under s. 121.78 (1) (a) or enrollment projections established by the nonresident school board.

2. Whether the pupil has been expelled from school by any school district during the current or 2 preceding school years for any of the following reasons or whether a disciplinary proceeding involving the pupil, which is based on any of the following reasons, is pending:

b. Engaging in conduct while at school or while under supervision of a school authority that endangered the health, safety or property of others.

5. Whether the child has been screened by his or her resident school board under s. 115.80 (2) to determine if there is reasonable cause to believe that the child is a child with exceptional educational needs.

6. Whether the child has been reported to his or her resident school board under s. 115.80 (1) or identified by his or her resident school board under s. 115.80 (2) but not yet evaluated by a multidisciplinary team appointed by his or her resident school board under s. 115.80 (3).

(b) Rejection after initial acceptance. The criteria under par. (a) may provide that, notwithstanding the nonresident school board’s acceptance of an application under sub. (3) (a), at any time prior to the beginning of the school year in which the pupil will first attend school in the school district under this section, the school board may notify the pupil that he or she may not attend school in the school district if the school board determines that any of the criteria under par. (a) are met.

(c) Required preference. A nonresident school board shall give preference in accepting applications under sub. (3) (a) to pupils and to siblings of pupils who are already attending public school in the nonresident school district.

6. Resident school district transfer limitations. A school board may limit the number of its resident pupils attending public school in other school districts under this section in the 1998–99 school year to 3% of its membership. In each of the 7 succeeding school years, a school board may limit the number of its resident pupils attending public school in other school districts to an additional 1% of its membership. If more than the maximum allowable number of resident pupils apply to attend public school in other school districts in any school year under this section, the school board shall determine which pupils will be allowed to attend public school in other school districts on a random basis, except that the school board shall give preference to pupils who are already attending public school in the school district to which they are applying under this section and to siblings of such pupils.

7. Racial balance. (a) The school board of a school district that is eligible for aid under subch. VI of ch. 121 shall reject any application for transfer into or out of the school district made under this section if the transfer would increase racial imbalance in the school district. A pupil who transfers out of a school district under subch. VI of ch. 121 shall not be counted in that school district’s membership, as defined in s. 121.004 (5), for the purpose of determining the school district’s racial balance under this paragraph.

(b) The school board of a school district that receives applications for transfer into the school district under subch. VI of ch. 121 and this section may not accept applications made under this section until it has accepted or rejected all applications made under subch. VI of ch. 121.

8. Disciplinary records. Notwithstanding s. 118.125, the resident school board shall provide to the nonresident school board to which a pupil has applied under this section, upon request by that school board, a copy of any expulsion findings and orders pertaining to the pupil, a copy of records of any pending disciplinary proceeding involving the pupil, a written explanation of the reasons for the expulsion or pending disciplinary proceeding and the length of the term of the expulsion or the possible outcomes of the pending disciplinary proceeding.

9. Appeal of rejection. If the nonresident school board rejects an application under sub. (3) (a) or (7) or the resident school board prohibits a pupil from attending public school in a nonresident school district under sub. (6), (7) or (12) (b) 1., the pupil’s parent may appeal the decision to the department within 30 days after the decision. The department shall affirm the school board’s decision unless the department finds that the decision was arbitrary or unreasonable.

10. Pupil assignment. A nonresident school board may assign pupils accepted to attend public school in the school district under this section to a school or program within the school district. The school board may give preference in attendance at a school, program, class or grade to residents of the school district who live outside the school’s attendance area.

12. Special education program or related services. (a) Unavailable after enrollment. If the individualized education program for a pupil, developed or revised under s. 115.80 (4) after a child begins attending public school in a nonresident school district under this section, requires a special education program or related service that is not available in the nonresident school district or if there is no space available in the special education program identified in the child’s individualized education program, including any class size limits, pupil–teacher ratios or enrollment projections established by the nonresident school board, the nonresident school board may notify the child’s parent and the child’s resident school board that the program or service is not available in the nonresident school district. If such notice is provided, the child shall be transferred to his or her resident school district, which shall provide an educational placement for the child under ss. 115.80 (4m) and 115.85 (2).
(b) **Undue financial burden.** 1. If the costs of the special education program or services required in the individualized education program under s. 115.80 (4) for a child with exceptional educational needs whose parent has submitted an application under sub. (3) (a), as proposed to be implemented by the nonresident school district, would impose upon the child’s resident school district an undue financial burden in light of the resident school district’s total economic circumstances, including its revenue limit under subch. VII of ch. 121, its ability to pay tuition costs for the pupil and the per pupil special education program or services costs for children with exceptional educational needs continuing to be served by the resident school district, the child’s resident school board may notify the child’s parent and the nonresident school board by the first Friday following the first Monday in April that the pupil may not attend the nonresident school district to which the child has applied.

2. If the costs of the special education program or services required in an individualized education program for a pupil, developed or revised under s. 115.80 (4) after a child begins attending public school in a nonresident school district under this section, as implemented or proposed to be implemented by the nonresident school district, would impose upon the child’s resident school district an undue financial burden in light of the resident school district’s total economic circumstances, including its revenue limit under subch. VII of ch. 121, its ability to pay tuition costs for the pupil and the per pupil special education program or services costs for children with exceptional educational needs continuing to be served by the resident school district, the child’s resident school board may notify the pupil’s parent and the nonresident school board that the program or services impose such an undue financial burden on the resident school district. If such notice is provided, the child shall be transferred to his or her resident school district, which shall provide an educational placement for the child under ss. 115.80 (4m) and 115.85 (2). The pupil’s parent may appeal a required transfer under this subdivision to the department within 30 days after receipt of the notice. The department shall affirm the resident school board’s determination unless the department finds that the determination was arbitrary or unreasonable.

**Rights and privileges of nonresident pupils.** A pupil attending a public school in a nonresident school district under this section has all of the rights and privileges of pupils residing in that school district and is subject to the same rules and regulations as pupils residing in that school district.

**Participation in certain programs.** A pupil attending a public school in a nonresident school district under this section shall be considered a resident of the nonresident school district for the purposes of participating in programs of a cooperative educational service agency or a county handicapped children’s education board.

**Transportation.**

1. Except as provided in subd. 2., the parent of a pupil attending public school in a nonresident school district under this section is responsible for transporting the pupil to and from school in the nonresident school district attended by the pupil.

2. If the pupil is a child with exceptional educational needs and transportation of the pupil is required in the individualized education program developed for the child under s. 115.80 (4) or is required under s. 121.54 (3), the nonresident school district shall provide such transportation for the child.

**Low-income assistance.** The parent of a pupil who is eligible for a free or reduced-price lunch under 42 USC 1758 (b) and who will be attending public school in a nonresident school district in the following school year shall be considered a resident of the nonresident school district in the following school year. The reimbursement amount may not exceed the actual transportation costs incurred by the parent or 3 times the statewide average per pupil transportation costs, whichever is less. If the appropriation under s. 20.255 (2) (cy) in any one year is insufficient to pay the full amount of approved claims under this paragraph, payments shall be prorated among the parents entitled thereto. By the 2nd Friday following the first Monday in May following receipt of the parent’s application under sub. (3) (a), the department shall provide to each parent requesting reimbursement under this paragraph an estimate of the amount of reimbursement that the parent will receive if the pupil attends public school in the nonresident school district in the following school year.

**Department duties.** The department shall do all of the following:

(a) **Application form.** Prepare, distribute to school districts and make available to parents an application form to be used by parents under sub. (3) (a). The form shall include provisions that permit a parent to apply for transportation reimbursement under sub. (14) (b).

(b) **Information and assistance.** Develop and implement an outreach program to educate parents about the open enrollment program under this section, including activities specifically designed to educate low-income parents, and services to answer parents’ questions about the program and assist them in exercising the open enrollment option provided under this section.

(c) **Annual report.** Annually submit a report to the governor, and to the appropriate standing committees of
the legislature under s. 13.172 (3), on the number of pupils who applied to attend public school in a nonresident school district under this section, the number of applications denied and the bases for the denials, and the number of pupils attending public school in a nonresident school district under this section.

(16) State aid adjustments. (a) Annually, the department shall determine all of the following:

1. For each school district, the number of nonresident pupils attending public school in the school district under this section, other than pupils for whom tuition is paid under sub. (17).

2. For each school district, the number of resident pupils attending public school in a nonresident school district under this section, other than pupils for whom tuition is paid under sub. (17).

3. The statewide average per pupil school district cost for regular instruction, cocurricular activities, instructional support services and pupil support services in the previous school year.

(b) 1. If the number determined in par. (a) 1. is greater than the number determined in par. (a) 2. for a school district, the department shall increase that school district’s state aid payment under s. 121.08 by an amount equal to the difference multiplied by the amount determined under par. (a) 3.

2. If the number determined in par. (a) 1. is less than the number determined in par. (a) 2. for a school district, the department shall decrease that school district’s state aid payment under s. 121.08 by an amount equal to the difference multiplied by the amount determined under par. (a) 3. If the state aid payment under s. 121.08 is insufficient to cover the reduction, the department shall decrease other state aid payments made by the department to the school district by the remaining amount. If the state aid payment under s. 121.08 and other state aid payments made by the department to the school district are insufficient to cover the reduction, the department shall use the moneys appropriated under s. 20.255 (2) (cg) to pay the balance to school districts under subd. 1.

(c) If a pupil attends public school in a nonresident school district under this section for less than a full school term, the department shall prorate the state aid adjustments under this subsection based on the number of days that school is in session and the pupil attends public school in the nonresident school district.

(d) The department shall ensure that the aid adjustment under par. (b) does not affect the amount determined to be received by a school district as state aid under s. 121.08 for any other purpose.

(17) Special education tuition. The resident school board shall pay to the nonresident school board, for each child who is attending public school in the nonresident school district under this section and is enrolled in a program for children with exceptional educational needs, tuition calculated using the daily tuition rate under s. 121.83 for children enrolled in such programs in the nonresident school district, or an amount agreed to by the school boards of the 2 school districts.

2. The pupil is in good academic standing.
3. The pupil notifies the school board of his or her intent to attend a technical college under this subsection by March 1 if the pupil intends to enroll in the fall semester and by October 1 if the pupil intends to enroll in the spring semester.
4. The pupil is not a child at risk, as defined in s. 118.153 (1) (a).
1997 Assembly Bill 100

(a) A school board may refuse to permit a pupil to attend a technical college under this subsection if the pupil is a child with exceptional educational needs, as defined in s. 115.76 (3), and the school board determines that the cost to the school district under par. (dm) would impose an undue financial burden on the school district.

(b) The technical college district board shall admit the pupil if he or she meets the requirements and prerequisites of the course or courses for which he or she applied, except that the district board may reject an application from a pupil who has a record of disciplinary problems, as determined by the district board, or if the district board determines that there is no space available for the pupil.

(c) If a child attends a technical college under this subsection, the technical college shall ensure that the child’s educational program meets the high school graduation requirements under s. 118.33. At least 30 days before the beginning of the technical college semester in which the pupil will be enrolled, the school board of the school district in which the pupil resides will notify the pupil, in writing, if a course in which the pupil will be enrolled does not meet the high school graduation requirements and whether the course is comparable to a course offered in the school district. If the pupil disagrees with the school board’s decision regarding comparability of courses or satisfaction of high school graduation requirements, the pupil may appeal the school board’s decision to the state superintendent within 30 days after the decision. The state superintendent’s decision is final and is not subject to review under subch. III of ch. 227. The pupil is eligible to receive both high school and technical college credit for courses successfully completed at the technical college.

(d) 1. Except as provided in par. (dg), for each pupil attending a technical college under this subsection, the school board shall pay to the technical college district board, in 2 installments payable upon initial enrollment and at the end of the semester, the following amount:

   b. If the pupil is attending the technical college for 7 credits or more that are eligible for high school credit, an amount equal to 50% of the school district’s average per pupil cost for regular instruction and instructional support services in the previous school year, as determined by the department, multiplied by a fraction the numerator of which is the number of credits taken for high school credit for which the pupil is enrolled and the denominator of which is 15. Annually by the 3rd Monday in February, the department shall make available to school boards and technical college district boards estimates of the amounts under this subd. 1. b.

2. Notwithstanding subd. 1., if the pupil is attending the technical college for less than 10 credits during any semester, the school board is not responsible for payment for any courses that are comparable to courses offered in the school district. If the pupil is attending the technical college for 10 or more credits during any semester, the school board is responsible for payment for courses that are comparable to courses offered in the school district for one-half of the credits taken but no more than 6 credits.

(dg) 1. If, by September 15, 1997, or within 30 days after the effective date of this subdivision ..., [revisor inserts date], whichever is later, the technical college system board, the Wisconsin Association of School Boards and the School Administrators Alliance agree on a different method than the method under par. (d) for determining the amount that a school board must pay a technical college district board for each pupil attending a technical college under this subsection, they shall submit it to the department by September 15, 1997, or within 30 days after the effective date of this subdivision .... [revisor inserts date], whichever is later.

2. Within 30 days after receiving the recommended method under subd. 1., the department shall approve or reject it. If the department approves the method it shall immediately submit the method to the cochairpersons of the joint committee on finance. If the cochairpersons of the joint committee on finance do not notify the department that the committee has scheduled a meeting for the purpose of reviewing the method within 14 working days after the date that the method was submitted, the method is approved. If, within 14 working days after the date that the method was submitted, the cochairpersons of the committee notify the department that the committee has scheduled a meeting for the purpose of reviewing the method, the method is not approved until the committee approves it.

3. If the method is approved by the department and by the joint committee on finance under subd. 2., the department shall promulgate rules implementing the method beginning with pupils attending a technical college in the 1998 spring semester.

(dm) If a pupil who is attending a technical college under this subsection is a child with exceptional educational needs, as defined in s. 115.76 (3), the payment under par. (d) shall be adjusted to reflect the cost of any special services required for the pupil.

(e) The school board is not responsible for transporting a pupil attending a technical college under this subsection to or from the technical college that the pupil is attending.

Section 4917m. 632.746 of the statutes is created to read:

632.746 Preexisting condition; portability; restrictions; and special enrollment periods. (1) (a) Subject to subs. (2) and (3), an insurer that offers a group health benefit plan may, with respect to a participant or beneficiary under the plan, impose a preexisting condition exclusion only if the exclusion relates to a condition, whether physical or mental, regardless of the cause of the condition, for which medical advice, diagnosis, care or treatment was recommended or received within the 6−month period ending on the participant’s or beneficiary’s enrollment date under the plan.

(b) A preexisting condition exclusion under par. (a) may not extend beyond 12 months, or 18 months with respect to a late enrollee, after the participant’s or beneficiary’s enrollment date under the plan.

(2) (a) An insurer offering a group health benefit plan may not treat genetic information as a preexisting condition exclusion with respect to a condition to which the individual was not covered under any creditable coverage on the last day of the 6−month period ending on the day on which the individual is adopted or placed for adoption.

(b) An insurer offering a group health benefit plan may not impose a preexisting condition exclusion relating to pregnancy as a preexisting condition.

(c) Subject to par. (e), an insurer offering a group health benefit plan may not impose a preexisting condition exclusion with respect to an individual who is covered under creditable coverage on the last day of the 30−day period beginning with the day on which the individual is born.

(d) Subject to par. (e), an insurer offering a group health benefit plan may not impose a preexisting condition exclusion with respect to an individual who is adopted or placed for adoption before attaining the age of 18 years and who is covered under creditable coverage on the last day of the 30−day period beginning with the day on which the individual is adopted or placed for adoption. This paragraph does not apply to coverage before the day on which the individual is adopted or placed for adoption.

(e) Paragraphs (c) and (d) do not apply to an individual after the end of the first continuous period during which the individual was not covered under any creditable coverage for at least 63 days. For purposes of this paragraph, any waiting period or affiliation period for coverage under a group health plan or group health benefit plan shall not be taken into account in determining the period before enrollment in the group health plan or group health benefit plan.

(3) (a) The length of time during which any preexisting condition exclusion under sub. (1) may be imposed shall be reduced by the aggregate of the participant’s or beneficiary’s periods of creditable coverage on his or her enrollment date under the group health benefit plan.

(b) With respect to enrollment of an individual under a group health plan or a group health benefit plan, a period of creditable coverage after which the individual was not covered under any creditable coverage for a period of at least 63 days before enrollment in the group health plan or group health benefit plan may not be counted. For purposes of this paragraph, any waiting period or affiliation period for coverage under the group health plan or group health benefit plan shall not be taken into account in determining the period before enrollment in the group health plan or group health benefit plan.

(c) No period of creditable coverage before July 1, 1996, may be counted. Individuals who need to establish creditable coverage for periods before July 1, 1996, and who would have such coverage but for this paragraph may be given credit for creditable coverage for such periods through the presentation of documents or other means provided by the federal secretary of health and human services, consistent with section 104 of P.L. 104−191.

(d) 1. An insurer offering a group health benefit plan shall count a period of creditable coverage without regard to the specific benefits for which the individual had coverage during the period.

2. Notwithstanding subd. 1., an insurer offering a group health benefit plan may elect to apply par. (a) on the basis of coverage of benefits within each of several classes or categories of benefits specified in regulations issued by the federal department of health and human services under P.L. 104−191. The election shall be made on
a uniform basis for all participants and beneficiaries. Under the election, an insurer shall count a period of creditable coverage with respect to any class or category of benefits if any level of benefits is covered within the class or category.

3. An insurer that makes an election under subd. 2. shall prominetly state in any disclosure statements concerning the coverage offered, and to each employer at the time of the offer or sale of coverage, that the insurer has made the election and what the effect of the election is.

(e) Periods of creditable coverage shall be established through the presentation of certifications described in sub. (4) or in any other manner specified in regulations issued by the federal department of health and human services under P.L. 104–191.

4. (a) On and after October 1, 1996, an insurer that provides health benefit plan coverage shall provide the certification described in par. (b) upon the happening of any of the following events:

1. An individual ceases to be covered under the health benefit plan or otherwise becomes covered under a federal continuation provision. The certification required under this subdivision may be provided, to the extent practicable, at a time consistent with notices required under any applicable federal continuation provision or s. 632.897.

2. An individual ceases to be covered under a federal continuation provision.

3. Upon the request of an individual that is made not later than 24 months after the date of the cessation of the individual’s coverage under subd. 1. or 2., whichever is later.

(b) The certification required under this subsection shall be a written certification that includes all of the following information:

1. The period of creditable coverage of the individual under the health benefit plan and the coverage, if any, under the federal continuation provision.

2. The waiting period, if any, or affiliation period, if any, imposed with respect to the individual for coverage under the health benefit plan.

(c) Upon the happening after June 30, 1996, and before October 1, 1996, of an event described in par. (a) 1. to 3., an insurer providing health benefit plan coverage shall provide a certification described in par. (b) if the individual with respect to whom the certification is provided requests the certification in writing.

(d) If an individual seeks to establish creditable coverage with respect to a period for which a certification is not required because of the happening of an event described in par. (a) 1. to 3. before July 1, 1996, all of the following apply:

1. The individual may present other credible evidence of the coverage in order to establish the period of creditable coverage.

2. An insurer may not be subject to any penalty or enforcement action with respect to the crediting or not crediting of the individual’s coverage under subd. 1. if the insurer has sought to comply in good faith with any applicable requirements under this subsection.

5. (a) If an insurer that made an election under sub. (3) (d) 2. enrolls an individual for coverage under a group health benefit plan and the individual provides a certification under sub. (4), upon the request of that insurer or the group health benefit plan the insurer that issued the certification shall promptly disclose to the requesting insurer or group health benefit plan information on coverage of classes or categories of health benefits available under the coverage on which the certification was based.

(b) The insurer providing the information may charge the requesting insurer or plan for the reasonable cost of disclosing the information.

(c) An insurer providing information under this subsection shall comply with regulations issued by the federal department of health and human services under section 2701 (e) (3) of P.L. 104–191.

6. An insurer offering a group health benefit plan shall permit an employee who is not enrolled but who is eligible for coverage under the terms of the group health benefit plan, or a participant’s or employee’s dependent who is not enrolled but who is eligible for coverage under the terms of the group health benefit plan, to enroll for coverage under the terms of the plan if all of the following apply:

(a) The employee or dependent was covered under a group health plan or had health insurance coverage at the time coverage was previously offered to the employee or dependent.

(b) The employee or participant stated in writing at the time coverage was previously offered that coverage under a group health plan or health insurance coverage was the reason for declining enrollment under the insurer’s group health benefit plan. This paragraph applies only if the insurer required such a statement at the time coverage was previously offered and provided the employee or participant, at the time coverage was previously offered, with notice of the requirement and the consequences of the requirement.

(c) The employee or dependent is currently covered under the group health plan or health insurance or, under the terms of the group health benefit plan, the employee or participant requests enrollment no later than 30 days after the date on which the coverage under par. (a) is exhausted or terminated.

7. (a) If par. (b) applies, an insurer offering a group health benefit plan shall provide for a special enrollment period during which any of the following may occur:

1. A person who marries an individual and who is otherwise eligible for coverage may be enrolled under the plan as a dependent of the individual.

2. A person who is born to, adopted by or placed for adoption with, an individual may be enrolled under the plan as a dependent of the individual.
An individual who has met any waiting period applicable to becoming a participant under the plan, who is eligible to be enrolled under the plan and who failed to enroll during a previous enrollment period or such an individual’s spouse, or both, may be enrolled under the plan.

(b) An insurer under par. (a) is required to provide for a special enrollment period if all of the following apply:

1. The group health benefit plan makes coverage available for dependents of participants under the plan.
2. The individual is a participant under the plan, or the individual has met any waiting period applicable to becoming a participant under the plan and is eligible to be enrolled under the plan but failed to enroll during a previous enrollment period.
3. A person becomes a dependent of the individual through marriage, birth, adoption or placement for adoption.

(c) A special enrollment period provided for under this subsection shall be for a period of not less than 30 days and shall begin on the later of either of the following:

1. The date dependent coverage is made available under the group health benefit plan.
2. The date of the marriage, birth, adoption or placement for adoption described in par. (a), whichever is applicable.

(d) If an individual seeks to enroll a dependent during the first 30 days of a special enrollment period, the coverage of the dependent shall become effective on the following date:

1. If the person becomes a dependent through marriage, not later than the first day of the first month beginning after the date on which the completed request for enrollment is received.
2. If the person becomes a dependent through birth, the date of birth.
3. If the person becomes a dependent through adoption or placement for adoption, the date of the adoption or placement for adoption.

(8) A health maintenance organization that offers a group health benefit plan and that does not impose any preexisting condition exclusion under sub. (1) with respect to a particular coverage option may impose an affiliation period for that coverage option, but only if all of the following apply:

1. The affiliation period is applied uniformly without regard to any health status–related factors.
2. The affiliation period does not exceed 2 months, or 3 months with respect to a late enrollee.

(b) A health maintenance organization that imposes an affiliation period under this subsection is not required to provide health care services or benefits during the affiliation period. A health maintenance organization may not charge a premium to a participant or beneficiary for any coverage that is provided during an affiliation period.

An affiliation period shall begin on the enrollment date and run concurrently with any waiting period under the group health benefit plan.

(c) A health maintenance organization under par. (a) may use methods other than those described in par. (a) to address adverse selection, if the methods are approved by the commissioner.

(9) (a) Except as provided in pars. (b) and (c), requirements used by an insurer in determining whether to provide coverage under a group health benefit plan to an employer, including requirements for minimum participation of eligible employees and minimum employer contributions, shall be applied uniformly among all employers that apply for or receive coverage from the insurer.

(b) An insurer may do all of the following:

1. Vary its minimum participation requirements or minimum employer contribution requirements only by the size of the employer group based on the number of eligible employees.
2. Unless the commissioner by rule permits more frequent change, increase the minimum participation requirements or minimum employer contribution requirements no more than one time during a calendar year and, except as otherwise permitted under this subsection, only if the requirements are applied uniformly to all employers applying for coverage and to all renewing employers effective on the date of renewal.

3. Except as limited or restricted by rule of the commissioner, establish separate participation requirements or employer contribution requirements that uniformly apply to all employers that provide a choice of coverage to employees or their dependents. Except as limited or restricted by rule of the commissioner, an insurer may establish separate uniform requirements based on the number or type of choice of coverage provided by the employer.

(c) Except as provided in par. (b), an insurer may vary requirements used by the insurer in determining whether to provide coverage under a group health benefit plan to a large employer, but only if the requirements are applied uniformly among all large employers that have the same number of eligible employees.

(d) In applying minimum participation requirements with respect to an employer, an insurer may not count eligible employees who have other coverage that is creditable coverage in determining whether the applicable percentage of participation is met, except that an insurer may count eligible employees who have coverage under another health benefit plan that is sponsored by that employer and that is creditable coverage.

(e) This subsection does not apply to a group health benefit plan offered by the state under s. 40.51 (6) or by the group insurance board under s. 40.51 (7).

(10) (a) 1. Except as provided in rules promulgated under subd. 3. or 4., if an insurer offers a group health benefit plan to an employer, the insurer shall offer cover-
age to all of the eligible employes of the employer and their dependents. Except as provided in rules promulgated under subd. 3. or 4., an insurer may not offer coverage to only certain individuals in an employer group or to only part of the group, except for an eligible employee who has not yet satisfied an applicable waiting period, if any.

2. Except as provided in rules promulgated under subd. 3., if the state or a county, city, village, town or school district offers coverage under a self−insured health plan, it shall offer coverage to all of its eligible employes and their dependents. Except as provided in rules promulgated under subd. 3., the state or a county, city, village, town or school district may not offer coverage to only certain individuals in the employer group or to only part of the group, except for an eligible employee who has not yet satisfied an applicable waiting period, if any.

3. The secretary of employe trust funds, with the approval of the group insurance board, shall promulgate rules related to offering coverage to eligible employees under a group health benefit plan, or a self−insured health plan, offered by the state under s. 40.51 (6) or by the group insurance board under s. 40.51 (7). The rules shall conform to the intent of subds. 1. and 2. and may not allow the state or the group insurance board to refuse to offer coverage to an eligible employee or dependent for reasons related to health condition.

4. The commissioner may promulgate rules permitting exceptions to the requirement under subd. 1. for classes of eligible employees or their dependents. No rule promulgated under this subdivision may permit an insurer to refuse to offer to provide coverage to an eligible employee or his or her dependent for reasons related to health condition.

(b) 1. An insurer may not modify a group health benefit plan with respect to an employer or an eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage for certain diseases or medical conditions otherwise covered by the group health benefit plan.

2. The state or a county, city, village, town or school district may not modify a self−insured health plan with respect to an eligible employee or dependent, through riders, endorsements or otherwise, to restrict or exclude coverage for certain diseases or medical conditions otherwise covered by the self−insured health plan.

3. Nothing in this paragraph limits the authority of the group insurance board to fulfill its obligations as trustee under s. 40.03 (6) (d) or to design or modify procedures or provisions pertaining to enrollment, premium transmitted or coverage of eligible employees for health care benefits under s. 40.51 (1).

come−withholding order, or both, issued by a tribunal of
another state may send the documents required for regis-

state.

(2) Upon receipt of the documents, the support en-
forcement agency, without initially seeking to register
the order, shall consider and, if appropriate, use any ad-
ministrative procedure authorized by the law of this state
to enforce a support order or an income−withholding or-
der, or both. If the obligor does not contest administrative
enforcement, the order need not be registered. If the obli-
gor contests the validity or administrative enforcement of
the order, the support enforcement agency shall register
the order as provided in this chapter.

SECTION 5128. 769.605 (1) of the statutes is amended
to read:

Section 5129. 769.606 (3) of the statutes is amended to read:

769.611 (1) (b) That an individual party or the child is subject to the personal jurisdiction of the tribunal and that all of the individual parties have filed a written consent in the issuing tribunal providing that a tribunal of this state may modify the child support order and assume continuing, exclusive jurisdiction over the child support order. Section 5132. 769.611 (3) of the statutes is amended to read:

769.611 (3) A tribunal of this state may not modify any aspect of a child support order that may not be modified under the law of the issuing state. Failure of the party obtaining the modified child support order to file a certified copy as required by this section subjects the party to appropriate sanctions by a tribunal in which the issue of failure to file arises, but that failure has no effect on the validity or enforceability of the modified child support order of the new tribunal of continuing, exclusive jurisdiction.

Section 5134. 769.613 of the statutes is created to read:

769.613 Jurisdiction to modify support order of another state when individual parties reside in this state. (2) A tribunal of this state exercising jurisdiction as provided in sub. (1) shall apply the provisions of this subchapter and subchs. I and II to the enforcement or modification proceeding. Subchapters III to V, VII and VIII do not apply, and the tribunal shall apply the procedural and substantive law of this state.

Section 5136. 769.802 (2) of the statutes is amended to read:

769.802 (2) If, under this chapter or a law substantially similar to this chapter, the uniform reciprocal enforcement of support act or the revised uniform reciprocal enforcement of support act, Uniform Reciprocal Enforcement of Support Act or the Revised Uniform Reciprocal Enforcement of Support Act, the governor of another state makes a demand that the governor of this state surrender an individual charged criminally in that state with having failed to provide for the support of a child or other individual to whom a duty of support is owed, the governor may require a prosecutor to investigate the demand and report whether a proceeding for support has been initiated or would be effective. If it appears that a proceeding would be effective but has not been initiated, the governor may delay honoring the demand for a reasonable time to permit the initiation of a proceeding.
