Agency	DPI	Amendment#	143
ARC Analyst	Kelly Rindfleisch	LRB#	
		Tax Cut	<input type="checkbox"/>

Summary

The amount appropriated for aid to the state's 17 public library systems was \$13,249,800 GPR in 1998 99. State aid is distributed to library systems through a formula that takes into account system size, local library costs and population.

This amendment would Modify the current law formula for distribution of state aid to public library systems by adopting the provisions of DPI's agency budget request, which have been incorporated into Senate Bill 66. Under this alternative, until the total amount of state funding equals at least 11.25% of the total operating expenditures for public library services from local and county sources in the calendar year ending in that fiscal year, the amount of state aid received by each system would increase at the same percentage as the increase in the public library system aid appropriation. Then, after the total amount of state appropriated funding equals at least 11.25% of the total operating expenditures for public library services from local and county sources in the calendar year ending in that fiscal year, the distribution of funding would again be modified. Under the new formula the amount paid to a system would determined by adding all of the following: (a) the system's percentage of the state's population multiplied by 85% of the total amount appropriated for library aid; (b) the system's percentage of the state's area multiplied by 7.5% of the total amount appropriated for libraries; and (c) the system's percentage of current fiscal year shared revenue payments multiplied by 7.5% of the total amount appropriated for library aid.

Fiscal Impact

\$529,992 GPR over the biennium \$264,996 in 1999 00 & \$264,996 in 2000-01)

Statement of Intent

Department of Public Instruction. Provides additional funds for Library System Aids & changes the formula for distribution of the aid.
