XI. Metallic Mining

JFC Action

The Joint Finance Committee passed a motion #938 (vote 9-7), which requires an agreement between a local governmental unit and the operator of a proposed mine to provide that the agreement is subject to amendment at the request of either party if additional information relevant to the issues addressed in the agreement is obtained after the agreement takes effect, but before the hearing held by the DNR on whether to issue a mining permit.

Motion

Return to current law, which authorizes a local governmental unit, if it requires approval or permit for a proposed metallic mineral mine, to enter into an agreement with the operator of the mine. The agreement must include various provisions, including a provision for the amendment of an agreement.

Fiscal Impact

There is no fiscal impact associated with this provision.
