RW  
3. *Mass Transit Operating Assistance (Tier Structure and Funding)*. Retain the Joint Committee on Finance's recommendation to create a four-tiered structure. The four-tiered structure would consist of Tier A-1 (Milwaukee County systems), Tier A-2 (Madison system) and the current law Tier B and Tier C systems.

Decrease funding by \$973,300 SEG in 1999-00 and \$3,893,200 SEG in 2000-01, which would restore the Governor's recommendation to fully fund calendar year 1999 payments and to provide a 3% increase in funding, beginning in calendar year 2000, for each tier of systems. Set the calendar year distribution amounts for 2000, and thereafter, at \$51,313,800 for Tier A-1, \$13,699,100 for Tier A-2, \$18,975,200 for Tier B and \$5,125,200 for Tier C.

RW  
4. *Mass Transit Operating Assistance -- Formula Changes*. Restore the following changes to the mass transit operating assistance formula, as recommended by the Governor:

a. Include transit system maintenance expenses as an eligible operating expense in calculating the distribution of mass transit operating assistance, except for Tier-A-1 systems.

b. Delete the statutory reference requiring that the sum of state and federal funding must fund a uniform percentage of applicants' operating expenses within each tier, effective with calendar year 2000 payments. Rather, require that DOT allocate state aid to each applicant in an amount equal to a uniform percentage, established by the Department, of applicants' projected operating expenses within each tier for the calendar year, subject to the proposed maximum annual allocations and the limits, based on local match amounts, proposed for those applicants served exclusively by a shared-ride taxi system.

c. Create the following maximum annual combined state and federal aid allocation levels, effective with calendar year 2000 payments: (1) for Tier A-2 systems, 50% of the eligible applicant's annual operating expenses; and (2) for Tier B and Tier C systems, 65% of the eligible applicant's annual operating expenses. Further, establish transitional provisions for Tier B systems operating in urbanized areas, effective with calendar year 2000 and 2001 payments, to limit combined state and federal operating aid to 60% for urbanized area expenses and 65% for nonurbanized area expenses.

d. Allow DOT to require any applicant (instead of just Tier B and Tier C systems, as under the Joint Committee on Finance's substitute amendment) eligible for transit aid to notify the Department of the amount of federal aid under the applicant's discretion that the applicant intends to apply toward annual operating expenses, including maintenance expenses.

e. Effective with calendar year 2000 contracts, require a local match, exclusive of user fees, for bus systems equal to at least 10% of each eligible applicant's annual operating expenses, rather than at least 20% of their annual state aid allocation. Further, except for the initial year of service, beginning with calendar year 2001, specify that no shared-ride taxi system may receive a state aid amount in excess of the previous calendar year amount unless the system provides a local match equal to at least 10% of the system's operating expenses.
