Summary

Requires the State Superintendent of Public Instruction to adjust the payments made to parents or guardians of all pupils attending a choice school during the regular school term to include amounts for those pupils who attended academic summer classes at the choice schools during the previous summer.

These adjustments are based on a "summer choice average daily membership equivalent" computation which compares the total number of minutes of summer school attended by such pupils in academic summer classes and laboratory periods to the total number of minutes per pupil for the regular school term. Pupils attending summer school at the choice school are counted only if: (a) they also attended the choice school on the second Friday of January of the immediately preceding school term; or (b) their applications have been accepted for attendance at the choice school in the school term immediately following that summer.

The amendment would first apply to payments made for academic summer classes and laboratory periods attended in 1999.

Fiscal Impact

None. The costs would be covered by the funding that Milwaukee Public Schools receive for choice students. The MPS Board supports the amendment because it has no additional fiscal impact on the district.

Statement of Intent

Department of Public Instruction. Reverses a decision of the Department of Public Instruction to stop payments to private schools in the Milwaukee Parental Choice Program for summer school classes.

DATE: May 13, 1999 (Corrected May 26, 1999)
TO: REPRESENTATIVE STEPHEN NASS
FROM: Jane R. Henkel, Deputy Director
SUBJECT: LRBb0221/1, An Assembly Amendment to 1999 Assembly Bill 133 (The Biennial Budget Bill)

This memorandum describes LRBb0221/1, an amendment to 1999 Assembly Bill 133 (the biennial budget bill), which was prepared at your request.

I. Background

Since 1991, the Department of Public Instruction (DPI) has made payments to private schools participating in the Milwaukee Parental Choice Program for pupils attending summer school. These payments have been based on a "full-time equivalent" computation which compares the total number of minutes of summer school attended by such pupils in "academic" classroom and laboratory periods to the total number of minutes per pupil for the regular school term.* Payments were made directly to participating private schools in the fall immediately following the summer school program (e.g., payments for 1998 summer school programs were made in the fall of 1998).

Although DPI has been making payments to choice schools for summer school pupils since 1991, the statute relating to the Milwaukee Parental Choice Program [s. 119.23, Stats.] does not specifically mention pupils' attendance, under the Milwaukee Parental Choice Program, at summer school. Nor does that statute specify how to compute payments to choice schools for pupils participating in summer school programs. (Compare s. 119.23, Stats., to ss. 121.004 (5) and 121.14, Stats., which specifically provides for counting pupils enrolled in public school

*This is similar to the "summer average daily membership equivalent" computation used to count pupils attending summer school in public schools for state aid purposes. [ss. 121.004 (5) and 121.14, Stats.]

- 2 -

summer schools for the purposes of making state aid payments to the public schools.) Therefore, it appears that payments to choice schools for pupils participating in summer school programs are not authorized.

In a letter to administrators of private schools participating in the Milwaukee Parental Choice Program, dated December 16, 1998, Charles Toulmin, Consultant, Milwaukee Parental Choice Program, DPI, announced that State Superintendent John Benson had decided "to not pay for summer school in the choice program in the future, until the Legislature provides the Department of Public Instruction the clear statutory authority to do so."

2. LRBb0221/1

LRBb0221/1 requires the State Superintendent of Public Instruction to adjust the payments made to parents or guardians of all pupils attending a choice school during the regular school term to *include amounts for those pupils who attended academic summer classes* at the choice schools during the previous summer. The approach of making payments by adjusting payments to parents of pupils attending the choice school during the regular school term is used to avoid the necessity of making out many small checks to parents of pupils attending summer school.

These adjustments are based on a "summer choice average daily membership equivalent" computation which compares the total number of minutes of summer school attended by such pupils in academic summer classes and laboratory periods to the total number of minutes per pupil for the regular school term. Pupils attending summer school at the choice school are counted only if: (a) they also attended the choice school on the second Friday of January of the immediately preceding school term; or (b) their applications have been accepted for attendance at the choice school in the school term immediately following that summer.

The draft provides that the State Superintendent may include the entire amount of the adjustments in one of the September, November, February or May payments made to parents of pupils attending the choice school during the regular school term or may apportion the amount among more than one of those instalments.

The draft would first apply to payments made for academic summer classes and laboratory periods attended in 1999.

If you would like any further information on this subject, please feel free to contact me at the Legislative Council Staff offices.
