1. SPECIAL EDUCATION PROGRAM AID [LFB Paper 775]

	Governor (Chg. to Base)	Jt. Finance (Chg. to Gov)	Net Change
GPR	\$0	\$35,000,000	\$35,000,000

Governor: Delete the current law 63% reimbursement rate for most special education costs. Instead, to the extent funding would be provided, base reimbursement on the full costs of the following activities: (a) expenditures by a school district, CESA or CCDEB during the preceding year for salaries of certain current special education personnel, including licensed school psychologists and school workers working for a special education program; (b) special education transportation costs; (c) expenditures by a school district during the preceding year for salaries of teachers and instructional aides, special transportation and other expenses approved by the State Superintendent for a school age parents program; and (d) expenditures by a school district, CESA or CCDEB during the preceding year for certain costs associated with health treatment services for children with special physical or mental health treatment needs.

Delete current law that provides that: (a) the salaries of licensed school psychologists and school workers are reimbursed at 51% without regard to whether they are employed in a program for children with disabilities; and (b) a school district, cooperative educational service agency (CESA) or county children with disabilities education board (CCDEB) must include in its special education plan any information required by the State Superintendent relating to the use of a school psychologist or social worker under this provision.

Provide that costs eligible for reimbursement from the appropriations for special education and special education transportation would be reimbursed at a rate set to distribute the full amount appropriated for reimbursement of such costs, not to exceed 100%. Maintain the current law requirement that the full costs of special education for children in hospital and convalescent homes are required to be reimbursed as a first draw on the appropriation. All other costs eligible for reimbursement would be paid with the remaining funds, up to a rate necessary to fully distribute 100% of the appropriated funding. A clarification would be necessary to carry out the intent of the bill relating to the full payment of hospital and convalescent home costs.
