Number of Amendments: 12

UW SYSTEM

Stray Voltage Research

Motion:

Move to provide \$200,000 PR annually in a new, biennial appropriation within the UW System for research relating to stray voltage. Specify that the funding would be used for the following projects: (a) continued research recommended in the Minnesota Science Advisors Report to the Minnesota Public Utilities Commission; (b) field and economic performance analysis of electrical mitigation devices, and systems; (c) electrical conditions on farms with potentially unique stray voltage concerns; and (d) continuation and verification of studies regarding the nature of animal responses to stray voltage.

Note:

✓ This motion would provide \$200,000 PR annually in a new, biennial appropriation under the UW System for specified research relating to stray voltage. The program revenues would be generated by increasing the assessment on public utilities administered by the Public Service Commission.

Currently, the Department of Agriculture, Trade and Consumer Protection is provided \$291,600 PR annually and 4.0 PR positions to develop and provide informational and educational materials on stray voltage and to study the need for state action on stray voltage. The Public Service Commission is also provided \$200,000 annually and 1.5 positions for regulation, education, inspection and investigation relating to stray voltage.

[Change to Bill: \$400,000 PR]

Motion #924

Kunkel, Mark

From: Lief, Madelon
Sent: Thursday, June 24, 1999 10:41 AM
To: Kunkel, Mark
Subject: SDC amendment

Importance: High

Mark--Dave from the LFB may be calling you regarding a SDC amendment request to establish a stray voltage research program at UW funded with increased assessment on public utilities. I'll do the program part, but you will need to do the stuff regarding the increased assessments. You can do an insert to the amendment, which is -b0973.

Wlj

Note that the PSC has a stray voltage program that is funded by assessments paid by electric utilities that have annual gross operating revenues in excess of \$100,000,000. Your instructions do not specify the type of public utility that should pay the assessments for the UW's stray voltage program. I assume that only electric utilities should pay the assessments. Is this correct? Also, under the amendment, any electric utility, even one that has annual gross operating revenues that are less than \$100,000,000, must pay the assessments. Is this okay?
