**Consolidated Contract**

*Health and Family Services—Public Health, Page 419, Item 26.* LFB Summary

Add the following:

- No funding formula of the public health consolidated contract may result in a reduction of funds currently being distributed to Local Public Health Agencies, Boards, or Departments.
- Any savings realized from implementation of the public health consolidated contract may not be used for state level administrative costs, but rather must be put back into local public initiatives through Local Public Health Agencies, Boards, or Departments.
- Submit permanent rules in proposed form to the Legislative Council Staff for review no later than November 1, 1999 relating to the implementation of the public health consolidated contract and any formulae related to it. The rules must reflect the aforementioned.

*Fiscal Impact: None.*

Specify that, if by August 5, 2003, the Department determines that fewer than 88% of all deliveries in the state are performed in hospitals that have a newborn hearing screening program, it would notify all hospitals that every hospital must establish a newborn hearing screening program that is available to all infants delivered in the hospital by January 1, 2004.

Create the following definitions for the statutory and nonstatutory provisions of the program: (a) "hearing loss" means an inability to hear in one or both ears to detect sounds at 30 decibels hearing level or greater in the frequency region of 500 to 4,000 hertz, which affects speech recognition and auditory comprehension; (b) "hertz" means a body of frequency equal to one cycle per second; (c) "hospital" as any building, structure, institution or place devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment of and medical or surgical care for three or more nonrelated individuals hereinafter designated patients, suffering from illness, disease, injury or disability, whether physical or mental, and including pregnancy and regularly making available at least clinical laboratory services, and diagnostic X-ray services and treatment facilities for surgery, or obstetrical care, or other definitive medical treatment; (d) "infant" as a child from birth to three months of age; and (e) "newborn hearing screening program" as a system of a hospital under which an infant may be tested, using currently available medical techniques, to determine if the infant has a hearing loss.

## **26. CONSOLIDATED CONTRACTS**

**Joint Finance:** Specify that if DHFS proposed to consolidate contracts to cover care or services under more than one program administered by the DHFS, Division of Public Health, the Department would be required to submit the proposed contract to the Joint Committee on Finance under 14-day passive review. Specify that the proposed contract would include detailed information regarding the programs that are being contracted, the allocation of funds for each program and outcome performance incentives and disincentives offered under the contract. These provisions would first apply to contracts entered into on or after the general effective date of the bill.

## **27. WIC ELECTRONIC BENEFITS TRANSFER**

**Joint Finance:** Move to create a nine-member Supplemental Food Program for Women, Infants and Children Council in DHFS. Require the Council to do all of the following:

- Review all state statutes, administrative rules and Department policies regarding the WIC program;
- Propose statute, rule and policy changes that would limit the occurrences of WIC vendor suspensions and terminations;

Budget Amendment [REDACTED]  
[REDACTED]

Re: Department of Health & Family Services Public Health

**Health Insurance Risk-Sharing Plan (HIRSP) (LFB Paper #510)**

Repeal the requirement that premiums collected from policyholders, including amounts received for premium and deductible subsidies, must equal 60% of the plan costs and that insurers and providers must each provide 50% of the remaining 40% of the plan costs. Instead, establish the maximum premium cost for policyholders at 150% of the cost for a standard plan. Insurers and providers each provide 50% of the remaining plan costs.

See LFB Comparative Summary pages 398-402
