Actually, 0949/2 is Kelsie's. I don't have a copy of it, but I think the issue is that 0949/2 increases the amount in the allocation compared to JFC by 130,000 in 1999-00 and the other increases the dollar amount compared to JFC by $100,000. They are both correct in that they both increase the allocation by the correct amount for the provision included in the individual draft. The total increase to the allocation in the end, however, should be $230,000 in 1999-00 so the amount shown in that allocation should be $159,560,000 in 1999-00.

The same problem may occur for the second year of the biennium as well. In the end, the total dollar amount in that allocation for 2000-01 should be $181,050,000.

Call if you have questions.

Also, I think that is the only allocation that is affected by two separate drafts, so I don't anticipate the same problem anywhere else.

Joanne:
LRB b1652/1 and b0949/2 conflict in that they each change the dollar amount on page 683, line 19. LRBb0949/2 (which is Kendra's draft, I think) has the amount at $159,460,000. LRBb1652 puts it at $159,430,000. Whatever shall I do?
