Senate: Provide \$10,000 in 1999-00 from the forestry account of the conservation fund under the urban forestry grant program and require DNR to provide that amount of funding to the City of Hudson for scenic development along the St. Croix River adjacent to the City's wastewater treatment plant along State Highway 35.

53. URBAN FORESTRY GRANT PROGRAM EXPANSION

Assembly: No change to Joint Finance.

Senate: Include counties, towns and nonprofit conservation organizations (in addition to cities and villages under current law) as eligible recipients of urban forestry grants. Base funding of \$529,900 from the forestry account of the conservation fund is available for these grants.

54. NONPOINT SOURCE WATER POLLUTION ABATEMENT PROGRAM REDESIGN

Assembly: Transfer \$3,500,000 GPR and \$2,521,300 SEG in 2000-01 from the nonpoint account of the environmental fund from DNR's nonpoint grant appropriations to DATCP's soil and water resource management GPR and SEG appropriations to be used for county basic allocation staffing in priority watershed projects. Further, delete \$500,000 GPR annually from DNR's nonpoint grant appropriation. Additionally, create three staff positions at DATCP for nonpoint program implementation and transfer \$170,000 SEG in 1999-00 and \$190,000 SEG in 2000-01 from DNR's nonpoint grant appropriation to DATCP's soil and water resource management SEG appropriation. The effect of the transfers is to reduce DNR's rural nonpoint grant SEG appropriation to zero in 2000-01 (though \$3 million SEG would remain for the DNR urban nonpoint and flood control programs). Further, transfer \$5 million BR from the urban nonpoint program to the municipal flood control and riparian restoration program, so that \$10 million BR would be available for urban nonpoint cost share grants and \$8 million BR for municipal flood control and riparian restoration cost share grants.
