FROM: Kendra Bonderud, Rick Olin, Al Runde and Ron Shanovich

SUBJECT: Brownfields Modifications to Joint Committee on Finance Provisions in 1999-01 Budget

At your request, this memorandum summarizes potential modifications related to four brownfields provisions in the 1999-01 biennial budget recommended by the Joint Committee on Finance. The Assembly and Senate amendments do not affect these provisions.

**Brownfields -- Local Government Cost Recovery**

The Joint Finance Committee would authorize a local government to take action to recover costs it incurs in cleaning up a property on which a hazardous substance has been discharged if the local government acquired the property in one of several ways provided for under the local government liability exemption provisions. The proposed modification would include the following changes.

a. Specify that a local government may not recover costs under the local government cost recovery process: (1) from a responsible person who "is exempt" from liability (instead of "qualifies for" an exemption under Joint Finance) under the spills law with respect to the discharge that is the subject of the cost recovery action; (2) from a person that has entered into a contract with the Department of Natural Resources (DNR) under s. 292.31(8)(h) (an agreement between DNR and a responsible person regarding actions which DNR and the responsible person would take to cleanup the property), a consent order under Chapters 289 (solid waste facilities), 291 (hazardous waste management) or 292 (remedial action) or a negotiated agreement under s. 292.11(7)(d) (authority for DNR to negotiate and enter into an agreement containing a schedule for conducting required nonemergency actions with a person who possesses or controls a hazardous substance that

was discharged or who caused the discharge of a hazardous substance if the discharge does not endanger public health), with respect to the discharge, and is in compliance with the contract, order or negotiated agreement; (3) from a responsible person who is exempt from liability under s. 292.35(9)(c) of the current local governmental unit negotiation and cost recovery process, with respect to the discharge (the responsible person establishes that his or her contribution to the environmental pollution resulting from the discharge was caused solely by an act of God, an act of war or an act or omission of a third party); and (4) with respect to a discharge, if the discharge was in compliance with a permit, license, approval, special order, waiver or variance issued by DNR.

b. Specify that a responsible person who, at the time that the local government acquired the property, possessed or controlled the hazardous substance that was discharged on the property, is not liable for costs that the local government is unable to recover because a person who caused the discharge of the hazardous substance on the property is exempt from liability under (a)(3) and (a)(4) above.

### **Brownfields Grant Program**

The proposed modification would delete the Joint Finance provisions related to the brownfields grant program that would: (a) require Commerce to make 50% of awards for projects, like recreation or housing, that would be scored without considering the number of jobs created, and (b) require applicants to document their inability to obtain funding from other sources. Instead, in awarding grants in 2000-01, the Department would be required to reduce the weight accorded to job creation in scoring grant applications by a factor that was approximately 50% lower than that same factor in previous award periods. In addition, the Department would be required to award \$1.4 million for projects that were evaluated without considering the number of jobs created by the projects. Finally, the proposed modification would provide that awards of Round III brownfields grants be limited to those who submitted applications by the original deadline established by Commerce (April 16, 1999).

### **Environmental Remediation Tax Incremental Financing**

The proposed modification would make the following changes to the ER-TIF provisions under the Joint Finance version of the bill.

a. Allow eligible expenditures incurred during the entire 23-year period of the ER-TIF district to be reimbursed through the allocation of tax increments. Under the Joint Finance version of the bill and similar to general TIF law, only expenditures that are incurred during the first seven years of an ER-TIF district would be reimbursed through the allocation of tax increments.

b. Delete the Joint Finance provision that would require that contaminated properties within an ER-TIF district could not be sold to the party responsible for the contamination. (Properties could still be transferred to other private persons prior to completion of remediation.)

c. Delete the Joint Finance provisions that would require that a joint review board, prior to approving any proposed ER-TIF district that has incurred costs, or has an environmental

remedial action plan containing cost estimates, in excess of \$80,000, must either: (1) require that any contract entered into by the county or municipality to remediate the identified contamination within the proposed ER-TIF district contain a guaranteed maximum cost that is to be paid by the county or municipality that is consistent with the costs identified in the detailed remedial action plan; or (2) require that the county or municipality have insurance to cover any costs in excess of the costs identified in the detailed remedial action plan.

d. Add a requirement that no costs incurred after DNR notification that a remedial action has been completed would be eligible for reimbursement through the allocation of tax increments unless the costs were identified as a required condition of site closure.

#### **Special Charges for Cancelled Taxes on Contaminated, Tax Delinquent Property**

The Joint Finance provision related to special charges for cancelled taxes on contaminated, tax delinquent property would require county treasurers to charge back as a special charge on the next tax levy all cancelled property taxes subject to a hazardous substance clean-up agreement and provide that the cost of the cancelled taxes be spread among the governments that levied taxes on the property. The proposed modification would delete the Joint Finance changes and maintain current law. Current law provisions allow counties and the City of Milwaukee to cancel all or part of the unpaid property taxes, plus interest and penalties, on certain contaminated real property for which a tax certificate has been issued, but a tax deed has not yet been recorded. As a result, the government that cancels the taxes bears the cost of the taxes.

We hope this information is helpful.
