

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-2002/P1dn
MES:wlj&jlg:hmh

Wednesday, January 27, 1999

Please review this draft very carefully to ensure that it is accurate. I have no way to verify the accuracy of the legal description with which you provided me, nor do I have any expertise in land surveying that would enable me to determine whether the changes made in this draft work. In addition, it seems to me that the boundary of Jackson County also needs to be changed if its border with Monroe County is changed. Please provide me with the new legal description of Jackson County so that I may produce an introducible draft. Finally, is the portion of the analysis that states that the boundary changes "reflect what county officials understand to be the boundaries of these two counties" accurate? I based that statement on the resolution passed by the Monroe County board, but I'm not sure if that resolution means that Jackson County shares that understanding.
