March 17, 2000

Debbie:

Bob Nelson suggested that the department of corrections be required to prepare a form notice with the necessary information and make it available to the public free of charge or at cost, rather than allowing all types and manner of notices. The immunity from liability would apply if the official form were used. Perhaps the form should be supplied to county clerks or registers of deeds so that someone who does not live in or near Madison would have better access, since the notice must be provided soon after information is requested. What do you think?
