**Affected Ch. 20 Appropriations****Assumptions Used in Arriving at Fiscal Estimate:**

This bill requires the Department of Corrections to provide certain information from the department's sex offender registry to public and private elementary schools immediately after a person registers as a sex offender and immediately after a person already registered as a sex offender updates information in the registry.

State Fiscal Effect

The bill will have no fiscal effect on appropriations related to the department of public instruction. The bill may have fiscal impacts on the Department of Corrections.

Local Fiscal Effect

The bill may impose some costs on local school districts and private schools as administrators provide information upon request to any parent, guardian or legal custodian of any child in the school district or private school. The Department of Corrections reports there are over 11,000 offenders on the sex offender registry and estimates that there are 1,500 changes in offender status each week that would require notification under the provisions of the bill. The offender population is highly mobile and many of the current notifications are related to changes in residence or changes in job status.

Each change in offender status that must be reported could impose costs on school districts. The costs may vary across districts depending on the distribution of registered sex offenders and the number of requests for notification. Each notification will involve preparation and mailing of a notification letter or form. Awareness of this requirement may also lead some parents, guardians or legal custodians to make calls to districts for information, whether or not there have been any changes in offender status. Responses to these inquiries could impose substantial demands on district staff time. It is not possible to estimate the number of requests for notification that will be made. The costs are indeterminable.
