Assumptions Used in Arriving at Fiscal Estimate

SUMMARY OF BILL - This bill directs the Department of Workforce Development (DWD) to calculate the minimum hourly wage for various classes of employes using a calculation based on the federal poverty line. The bill would raise the general minimum wage from \$5.15/hour to \$6.55/hour, and would also raise the minimum wage for other categories of minimum wage employees, including opportunity, tipped and agricultural. The bill requires DWD to revise the minimum wages annually using annually revised federal poverty line information. The bill eliminates the requirement that DWD consider the effect that an increase in the living wage might have on the state's economy in determining the living wage.

FISCAL EFFECT - The Department of Natural Resources employed 329 limited term employes in 1999 who were paid less than the minimum wage proposed in this bill. It is estimated that the Department's costs to raise these wages to the new minimum would be \$47,100 annually in the first year after the bill passes, and would increase annually.

Long-Range Fiscal Implications
