Assumptions Used in Arriving at Fiscal Estimate

This bill would permit certified dietitians to provide services under the volunteer health care provider program. The program allows volunteer health care professionals to provide their services without charge to individuals who are uninsured, low-income and not eligible for General Relief, Medicaid or Medicare. Volunteers include state licensed: physicians, dentists, optometrists, registered and practical nurses, nurse midwives and physician assistants.

For providers and services covered by this program, the volunteers become an agent of the State (DHFS) and are afforded the broad liability protection of s.895.46, Wisconsin Statutes. To this date, there have been no claims of malpractice against the State based on health care provided through the volunteer health care provider program. It is assumed that the inclusion of certified dietitians will not incur a liability claim against the State. The bill has no fiscal impact.
