<b>Assumptions Used in Arriving at Fiscal Estimate</b>  <p><b>Senate Bill 290 replaces the current birth and developmental outcome monitoring program (BDOMP) with a new program that requires physicians, hospitals, certain clinics and clinical laboratories to report birth defects in children age two or younger to the Department of Health and Family Services (DHFS). The bill requires DHFS to establish and maintain a registry that documents the diagnosis of birth defects.</b></p> <p><b>The Wisconsin State Laboratory of Hygiene (WSLH), under contract with DHFS, performs tests on newborns to identify congenital and metabolic disorders. WSLH charges fees, on behalf of DHFS, to cover the costs of the tests, as well as the services performed by DHFS. The bill would not affect the services required of WSLH. However, the bill would likely result in increased fees to cover the costs of the new services required of DHFS under the bill. The level of the increase would be determined by DHFS.</b></p>		
<b>Long-Range Fiscal Implications</b>
