<b>Assumptions Used in Arriving at Fiscal Estimate</b> This bill places requirements on school boards concerning the use of pesticides in schools and on school grounds. The bill also requires the department of agriculture, trade, and consumer protection (DATCP) to assist school districts in complying with these requirements and prohibitions. The bill requires the University of Wisconsin (UW) System, through the UW-Extension, to provide programs to educate and train employe of schools and others about developing and implementing school pest management plans.  State Fiscal Effect: There would be no significant fiscal effects to the department of public instruction.  Local Fiscal Effect: The provision that requires school districts to develop a pest management plan could have a minimal fiscal effect on school districts. Furthermore, the bill could require school districts to pay for training their employees in developing and implementing pest management plans provided through the UW-Extension. However, the estimated cost for training employees is expected to be minimal.		
<b>Long-Range Fiscal Implications</b>
