Assumptions Used in Arriving at Fiscal Estimate
Conclusion
 One-time Costs : Data Processing = \$12,440
 On-going Costs : None until 2004. See Long Range Fiscal Implications, below.
 Revenue Impact: Reduction of about \$1.146 million, annualized.

Basis for Conclusion; Assumptions

- There are about 382,000 licensed drivers age 70 or older.
- DOT began the transition from 4 year renewal cycle to 8 year renewal cycle in February 1998. About half of drivers age 70+ (191,000 people) have already renewed their driver license for 8 years. Licenses renewed in 1998 expire in 2006; licenses renewed in 1999 expire in 2007. These people will retain their 8-year licenses until they next renew, when they will be changed to a 4-year cycle.
- The remaining 191,000 drivers 70+ will renew over the next 2 years. Under the 8 year license, half of these people would have appeared in person in 2000 to renew the license for 2008, and the other half would have appeared in person in 2001 to renew for 2009. Completing the transition to the 8 year renewal would have resulted in reduced 70+ aged customers during 2002-2005. Instead, under this proposal, drivers 70+ will appear in person in 2000 to renew the license for 2004 and in 2001 to renew for 2005. This will still leave a reduced older driver renewal volume in 2002 and 2003.
- There is no workload impact in 2000 and 2001 because of this proposal; those people would have appeared in person for the 8-year renewal anyway, and now will appear in person for the 4-year renewal.
- There will be an small indeterminable increase in road testing as a result of examiner observations during the renewal process; there will be a small indeterminable increase in phone calls from these customers about station hours, processes, and fees.
- Revenue impact: The current fee for an 8 year license (class D) is \$24. This proposal reduces the fee to \$12 for 4 years. The revenue loss is estimated at \$12 x 95,500 or about \$1.146 million in each of 2000 and 2001. (This will still leave a reduced older driver renewal volume in 2002 and 2003.)
- DOT has already reduced positions related to the 8-year renewal cycle transition. The total position reduction for was 34.7 FTE. (17.3 were reduced in FY98 and 17.4 were reduced in FY99.) Any workload increase in the future will significantly strain service levels in Customer Service Centers.

Long-Range Fiscal Implications
 The full impact of this proposal will not occur until 2004.
 One-time: Supplies & Services: \$8,000
 On-going: Salary & Fringe: 9.3 FTE; \$343,200
 Supplies & Services: \$125,000

Agency/Prepared by: (Name & Phone No.) DOT/DMV - Eileen Ostrowsky 266-1449	Authorized Signature/Telephone No. Rogers S. Cross 266-2233 	Date 3/1/00
--	---	-----------------------

Basis for Long Range Fiscal Implications; Assumptions

1. The full impact of this proposal will not occur until CY2004 and CY 2005, when drivers renewing a license for 4 years in 2000 and 2001 return to renew it for another 4 years.
2. DOT has already reduced positions related to the 8-year renewal cycle transition. The total position reduction for was 34.7 FTE. (17.3 were reduced in FY98 and 17.4 were reduced in FY99.) This workload increase will significantly strain service levels in Customer Service Centers.
3. The minutes-per-unit rate to process a driver renewal, including vision screening, is 10.1 minutes. $95,500 \times 10.1$ minutes = 16,076 hours. FTE = 1,725 production hours, so $16,076 / 1,725$ hours = 9.3 FTE @ TCR4-Field
4. Salary & Fringe: Minimum pay for a TCR4-Field is \$12,928 plus 37.14% fringe of \$4,801; this is annualized to \$36,900. $9.3 \text{ FTE} \times \$36,900 = \$343,200$
5. Supplies & Services (one-time): Uniforms @ \$800 per employee. $\$800 \times 10 = \$8,000$
6. Supplies & Services (on-going):
 - Driver License document (photo license) @ \$1.18 each (estimated). $95,500 \times \$1.18 = \$113,000$
 - Employee supplies, phone service and training @ \$1,200 per employee. $10 \times \$1,200 = \$12,000$.
7. There will be an small indeterminable increase in road testing as a result of examiner observations during the renewal process; there will be a small indeterminable increase in phone calls from these customers about station hours, processes, and fees.
8. Revenue impact: The current fee for an 8 year license (class D) is \$24. This proposal reduces the fee to \$12 for 4 years. $\$12 \times 95,500$ or about \$1.146 million variation each year. There is a revenue increase in 2004 and in 2005 of about \$1.146 million, because, under the 8-year transition, there would not have been any older driver renewals in those years. Then, there is a revenue loss for 2006 and on because of the shorter renewal period with the lower fee.

FISCAL ESTIMATE WORKSHEET

1999 Session

Detailed Estimate of Annual Fiscal Effect
DOA-2047 (R06/99)

LRB Number - 4275/1	Amendment No. if Applicable
Bill Number AB789	Administrative Rule Number
