RE: Proposed Administrative Rule 99-091

Below, please find a description of administrative rule 99-091 which was recently referred to the Senate Committee on Insurance, Tourism, Transportation & Corrections. For your reference, I have included a brief summary, prepared by the department, of the rule. If you would like a copy of this rule, or if you would like to request a hearing, please contact Vaughn in my office before *Friday, October 1, 1999*.

CLEARINGHOUSE RULE 99-091; *Relating to the local bridge program.* This proposed rule making will modify the current Wisconsin requirements for replacement of eligible structures under the Local Bridge Improvement Assistance Program. The sufficiency rating for replacement is raised from less than forty to the federal standard of less than fifty. At the same time, minor changes in this proposed rule will eliminate any discrepancies between federal requirements and the current rule, and update outdated references.
