

WISCONSIN ALCOHOL CONSUMPTION PATTERNS

ALCOHOL CONSUMPTION PATTERNS FOR PERSONS AGE 18 & OLDER 1984-1997

DRINKER: Respondents who consumed any alcoholic beverage in the past month.
HEAVY: Respondents who reported consumption of an average of 60 or more alcohol drinks in the past month. Note: The wording for this question was changed in 1994.

SOURCE: DHFS Behavioral Risk Factor Survey (BRFS)

ALCOHOL CONSUMPTION PATTERNS FOR PERSONS AGE 18 & OLDER 1984-1997

DRINKER: Respondents who consumed any alcoholic beverage in the past month.
EPISODIC: Respondents who reported having five or more alcohol drinks on an occasion, one or more times in the past month.

SOURCE: DHFS Behavioral Risk Factor Survey (BRFS)

DRINKING DRIVERS BY AGE 1984-1997

DRINKING DRIVER: Respondents who reported driving after having too much to drink during the past month.

ALCOHOL CONSUMPTION PATTERNS OF WISCONSIN ADULTS (AGE 18 & OLDER) 1984-1997

Percent who reported that, in the past month, they:

Year	Consumed Alcohol (Drinker)	Consumed 60+ Drinks (Heavy)	Consumed 5+ Drinks on One Occasion (Episodic)	Drink & Drive (Age 18+)	Drink & Drive (Age 18-24)	Number of Cases
1984	74	10	29	11	24	658
1985	75	9	27	9	23	965
1986	74	11	30	10	23	1,268
1987	70	10	29	8	22	1,341
1988	73	9	30	8	17	1,272
1989	70	6	27	6	10	1,276
1990	69	6	27	6	6	1,260
1991	68	6	23	6	8	1,282
1992	66	6	24	5	8	1,528
1993	69	5	23	5	7	1,567
1994	70	5*	24	6	11	1,562
1995	70	4	23	5	7	2,210
1996	70	6	26	6	10	2,231
1997	70	5	23	5	7	2,245

Note: All percentages are based on weighted sample data from telephone interviews conducted with persons age 18 and older.

*The wording for the "Heavy Drinker" question was changed in 1994.

WISCONSIN ALCOHOL CONSUMPTION

Trends in adult (age 18 and older) per capita alcohol consumption show an increase from 1970 to 1980 and then a decline by 1990. Figures at the 10-year marks are most accurate due to the use of actual census data and not population projections. Overall consumption has been declining since 1984 after increases during the decade of the 70s. Compared to other states, Wisconsin ranks third highest in the nation in per capita beer consumption, fifth in distilled spirits consumption, and 26th in wine consumption.

ALCOHOL AND OTHER DRUG ABUSE CLIENTS TREATED WITH PUBLIC FUNDS

During the 1970s, there was a four-fold increase in the number of persons treated for alcohol and other drug abuse in Wisconsin publicly-supported treatment programs. The number of clients treated doubled between 1980 and 1990. The figures below depict the number of clients receiving any service in Wisconsin publicly-supported alcohol and other drug abuse treatment programs and the expenditures for the treatments by year.

ALCOHOL AND OTHER DRUG ABUSE CLIENTS RECEIVING ANY SERVICE WITH PUBLIC FUNDS IN WISCONSIN

■ Number of Clients

SOURCE: Dept. of Health and Family Services

NOTE: The decline in clients from 1994 to 1995 is a result of a purging of old records from the database.

TOTAL LICENSES: Number of licenses issued for sale of any type of alcohol (includes pharmacies & wholesalers). Some establishments may have more than one license.
 #OF RESIDENTS PER LIQUOR LICENSE: For example, in Adams County there is one liquor license per 188 residents.

#OF RESIDENTS PER LIQUOR LICENSE PER 100 SQ MILES: For example, in Adams County for an average 100 square mile area, there is one liquor license per 29 residents. The lower the number, the more liquor licenses there are per person in that area.

NOTE: Population figures are taken from Department of Administration estimates for January 1, 1998.

SECTION 3: LEGAL SANCTIONS

Date Historical Overview - Wisconsin Drinking Driving Law

- 1849** Chapter 33, section 3, Laws of 1849, prohibited the employment of any person to drive a coach or vehicle who is addicted to drunkenness, or to the excessive use of intoxicating liquors. A similar statute, sec. 364.64, Stats., still exists in Wisconsin law.
- 1911** Chapter 600, Laws of 1911, published July 15, 1911, prohibits operating, riding or driving a motor vehicle while intoxicated. This appears to be the first reference in Wisconsin Statutes to the actual offense of drunk driving. Also note that riding was included as a part of the offense in 1911. The penalty for first offense was a fine of not less than \$10 nor more than \$50. The penalty for second and subsequent offenses was a fine of not less than \$25 nor more than \$100, or imprisonment for 60 days, or both. See Chapter 73a, s.1636-49 and 54, 1911 Wisconsin Statutes pp. 1092-93.
- 1921** Chapter 761 section. 1636-49, 1921 Wisconsin Statutes, p.1254, used the same language, "no intoxicated person shall operate, ride, or drive any automobile...". The penalty section in 1921, section 1636-54, p. 1259, had been changed to read: "Any person who shall operate, ride, or drive any automobile...upon or along any public highway of this state, while intoxicated, shall be punished by a fine of not more than \$100 or by imprisonment in the county jail for not more than six months, or by such fine and imprisonment." There was no statutory reference to second and subsequent offenses.
- 1923** By 1923, the drunk driving provisions were included in the "Law of the Road," which had been recodified in Chapter 85, Wisconsin Statutes. By 1923, the provision making riding while intoxicated illegal had been eliminated. Section 85.08, 1923 Wisconsin Statutes, p. 957, read as follows: "[A]nd no intoxicated person shall operate any automobile...". Section 85.22, 1923 Wisconsin Statutes, p. 962, provided for the following penalty: "Any person who violates...85.08 shall be fined not less than \$10 nor more than \$100, and for a second or subsequent violation thereof in any year shall be fined not less than \$50 nor more than \$500 or imprisoned not exceeding sixty days, or both."
- 1933** By 1933, the drunk driving provisions had been moved to sec. 85.13, 1933 Wisconsin Statutes, p. 1047. Sec. 85.13, Stats., read as follows: "It shall be unlawful for any person who is a habitual user of narcotic drugs, or who is subject to epilepsy, or any person under the influence of an intoxicating liquor or narcotic drug, to operate any vehicle upon any highway." Note that the prohibition was once again any vehicle. Section 85.91(3), 1933 Wisconsin Statutes, p. 1061, provided for the following penalty. Any person violating s. 85.13 "...shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished in addition to any other penalty provided by law, by a fine not to exceed \$100 or by imprisonment...for not more than six months, or by both such fine and imprisonment. The operator's license of such person may also be revoked or suspended for a period not to exceed one year; and for the second or each subsequent conviction within one year thereafter the person shall be punished by a fine not to exceed \$200, or by such imprisonment not to exceed one year, or both...and in addition thereto by suspension or revocation of the operator's license for not to exceed one year." This is the first reference in the law to suspension/revocation of the drivers license as a penalty for drunk driving.
- 1949** On July 28, 1949, Chapter 534, Laws of 1948-49 amended sec. 85.13 and introduced into Wisconsin law the concept of chemical analysis of breath, blood, urine and saliva as evidence of drunk driving. This new law indicated that blood taken within two hours of arrest which contained (.15) fifteen-hundredths of one percent or more by weight of alcohol in blood could be admitted as prima facie evidence of intoxication, but there also needed to be corroborating evidence.

-
- 1957** Chapter 260, Laws of 1957, recodified the Motor Vehicle statutes. This law changed the statutory cite for drunk driving from s. 85.13 to s. 346.63(1), Stats. This statutory cite is where the drunk driving offense is still located in 1996. By 1957, the chemical test sections had moved to s. 325.235. Penalties in 1957 remained the same as they were in 1953. See s. 346.65(2), 1957 Wisconsin Statutes.
- 1969** Chapter 383, Laws of 1969, created Wisconsin's Implied Consent Law. Under the law, persons who operate motor vehicles on highways are deemed to have given their consent to submit to a chemical test upon request by a police officer.
- 1973** Chapter 102, Laws of 1973, changed the prima facie blood alcohol concentration from .15 to .10, but continued the requirement for the need of corroborating evidence. By 1973, the penalty for first offense no longer included the option of jail.
- 1981** Chapter 20, Laws of 1981, restructured Wisconsin's OWI law. This law created the offense of intoxication as a matter of law if the person has an alcohol concentration in excess of .1 or more; corroborating evidence is no longer required. It eliminated the ability of prosecutors to plea bargain OWI offenses to lesser offenses. It required alcohol assessment as a condition of sentence for every person convicted of OWI, and it established a surcharge fund for the purpose of helping to underwrite assessment and treatment.
- 1983** Chapter 74, Laws of 1983, created an Absolute Sobriety provision for persons under the legal drinking age. In this same legislation the legal drinking age was changed to age 19. When the legal drinking age was changed to 21 in 1985, the absolute sobriety provision was left at age 19. See sec. 346.63(2m), Stats.
- 1985** Wisconsin Act 337 raised the drinking age to 21 effective September 1, 1986 and made other changes in statutory rules associated with underage drinking.
- 1987** Chapter 3, Laws of 1987, created immediate (30 days after the violation) license suspension for six months (Administrative Suspension) for any person with an alcohol concentration of .1 or greater. This law became effective on January 1, 1988.
- 1989** Chapter 105, Laws of 1989, created new OWI statutory provisions for commercial vehicle operators. This law created an absolute sobriety provision for commercial motor vehicle operators, and reduced the alcohol concentration level to .04 for persons operating commercial motor vehicles. These provisions became effective on January 1, 1991.
- 1992** Chapter 277, Laws of 1991, created new penalties and treatment opportunities for OWI repeat offenders. This law included possible seizure of vehicles, increased penalty for Homicide by Intoxicated Use, an alcohol concentration of .08 for persons with two or more offenses, and easier access to treatment. The provisions of this law became effective on January 1, 1993.
- 1996** Act 127 amended and expanded the OWI laws to include offenses taking place on rental property and in employee parking lots. The law does not pertain to private parking areas on farms or single-family residences.

Administrative Suspension for Prohibited Alcohol Concentration [343.305(7)]			6 month suspension [343.305(7)(a)]	Immediately [343.305(8)(d)]	NO	0
Absolute Sobriety (If under age 21) [346.63(2m)]	\$98.30 (Forfeiture and costs) ⁵ [346.935] [346.65(2q)]		3 month suspension ⁶ [343.30(1p)]	Immediately [346.63(2m)]	NO	0
Open Container (Driver)	\$209.00 (Forfeiture and costs) ⁵ [346.935] [346.95(2m)]					
Open Container (Passenger)	\$147.50 (Forfeiture and costs) ⁵ [346.935] [346.95(2m)]					

¹The 10-year and lifetime periods are measured from the date of refusal or violation that resulted in conviction [346.65(2c)]. Offenses occurring prior to 1/1/89 may not be counted. [1997 Wis. Act 237 - s. 9348(2f)].

²Absolute sobriety is mandatory for an occupational license for persons with two or more suspensions, revocations or convictions. [343.307(1), 343.10(5)(a)(2)]
³Persons with 2 or more suspensions, revocations or convictions counted under 343.307(1), must complete assessment and be in compliance with a driver safety plan to be eligible for an occupational license. [343.30(1q)(b)3, 343.10(2)(c)]

⁴If repeat offender, court may immobilize, equip with an ignition interlock device (IID) or seize vehicle. [940.09(1d), 940.25(1d)]

⁵This represents the deposit for these offenses as set forth in the Uniform State Traffic Deposit Schedule, 1999 edition.

⁶Absolute sobriety refusal results in a six month revocation and cannot be counted as priors. [343.305(10)(cm)]

⁷Fines, forfeitures, jail and revocation/suspension penalties are doubled for a person convicted of OWI when a person under 16 years of age was in the vehicle at the time of the offense. [346.65(2)(f) and (2)(j)(d), 343.30(1q)(b)4m, 343.305(10)(b)4m]

⁸1997 Wis Act 295, created new offenses of causing death or great bodily harm to unborn children by OWI and doubles the penalties if an unborn child is in the vehicle at the time the driver committed the offense of causing death or great bodily harm by OWI.

* This represents the deposit for this offense as set forth in the Uniform State Traffic Deposit Schedule, 1999 edition. If there was a passenger under 16 years of age in the vehicle, the forfeiture and costs are \$110.60 and the license suspension period is 6 months.

¹Court may stay enforcement of the sentence if the defendant agrees, and in turn, the court may require assessment and participation in a court-approved alcohol abuse education program or enrollment in a treatment program.

²False representation of age is also a violation under 125.085(3)(b). For persons under age 17 convicted of this offense, the penalties are set forth at 938.344(2d).

³Effective 1-1-2000, the court may no longer revoke the driver's license for this offense, but they may suspend.

ADDITIONAL COMMENTS

Occupational License Persons suspended or revoked for underage drinking violations other than Absolute Sobriety are eligible for occupational licenses 15 days after the suspension or revocation begins. See 343.10(4), Stats. Persons suspended for violating the Absolute Sobriety or "Not a Drop" law are eligible for occupational licenses immediately.

OWI Underage persons are also subject to the provisions of Wisconsin's operating/driving motor vehicles while intoxicated laws. These laws include impairment/intoxication resulting from the use of illegal, over the counter or prescription drugs or combinations of drugs or alcohol. It is illegal in Wisconsin to operate snowmobiles, all-terrain vehicles, motor boats, aircraft and other motor vehicles while under the influence of alcohol or drugs or a combination of alcohol or drugs.

Underage Alcohol Conviction Records Confidential The Department of Transportation may not disclose information concerning a suspension, revocation or restriction as a result of an underage alcohol conviction to any person other than a court, district attorney, municipal prosecuting attorney, law enforcement agency, the underage individual or his/her parents or legal guardian. See 343.30(5), Stats.

CASE LAW UPDATE

I. Probable Cause

***State v. Secrist*, 218 Wis. 2d 508, 582 N.W.2d 37 (Ct. App. 1998), (reversed).**

On an issue of first impression in Wisconsin, the court of appeals held that the odor from a vehicle alone does not give an officer reasonable grounds to conclude the sole occupant of the vehicle is the person who smoked the marijuana. However, on review, the Wisconsin Supreme Court reversed (*oral argument October 8, 1998*), concluding that if “a trained and experienced officer identifies an unmistakable odor of a controlled substance and is able to link that odor to a specific person or persons, the odor of the controlled substance will provide probable cause to arrest.” ***State v. Secrist*, 224 Wis. 2d 201, 589 N.W.2d 387 (1999).**

***County of Jefferson v. Renz*, 222 Wis. 2d 424, 588 N.W.2d 267 (Ct. App. 1998) (*oral argument September 9, 1999*).**

In this fact-specific case, the court of appeals concluded that an officer must have probable cause to arrest a person for OWI before requesting a preliminary breath test (PBT). In contrast, the trial court had held the probable cause standard required by the statute governing administration of a PBT was a lesser standard than the probable cause required to arrest for OWI. The issue before the supreme court asks, “Is the probable cause required for a preliminary breath test (PBT) under Wis. Stat. § 343.303, the same probable cause as that required to arrest for violation of the OWI statute, Wis. Stat. § 346.63(1)(a)?”

II. Vehicle Seizure

***State v. Konrath*, 218 Wis. 2d 290, 577 N.W.2d 601 (1998).**

The Wisconsin Supreme Court held that the vehicle seizure action taken against the defendant pursuant to his fifth offense OWI was constitutional. In reaching this decision, the supreme court concluded there was a nexus between Konrath’s vehicle and the OWI offense he committed; that the seizure of Konrath’s vehicle was an in rem civil forfeiture; and that Konrath was given adequate notice and sufficient opportunity to be heard prior to the vehicle seizure.

III. Traffic Stops

***State v. Amos*, 220 Wis. 2d 793, 584 N.W.2d 170 (Ct. App. 1998).**

Police officers who knew that drugs were being sold from cars in the parking lots of a particular neighborhood and that apartment managers requested enforcement of the trespassing ordinances to reduce the level of drug activity, were justified in stopping the defendant to investigate possible trespassing and drug activity. The court reasoned that it is the “totality of the circumstances” with which the officers are confronted that must be evaluated to determine whether there was a reasonable suspicion to stop.

***State v. Gruen*, 218 Wis. 2d 581, 582 N.W.2d 728 (Ct. App. 1998), *petition for review denied*.**

The brief questioning of defendant by a Wauwatosa officer, called to the scene by a Milwaukee officer who discovered a vehicle stuck in a snow bank, was that of an officer acting in an investigatory stage. The court concluded that the Wauwatosa officer’s brief questioning of the defendant, following the questioning by the Milwaukee officer, did not convert the *Terry* stop into a custodial interrogation requiring *Miranda* warnings.

IV. Search and Seizure

***Knowles v. Iowa*, 119 S.Ct. 484 (1998).**

A police officer who stops a motorist to issue a traffic citation cannot automatically search the motorist’s vehicle as a valid “search incident to arrest” exception to the Fourth Amendment’s warrant requirement. The U.S. Supreme Court concluded that the two historical rationales for a warrantless search did not exist in *Knowles*; namely, (1) the need to disarm the suspect to take him into custody; and (2) the need to preserve evidence for later use at trial.

***State v. Stankus*, 220 Wis. 2d 232, 582 N.W.2d 468 (Ct. App. 1998), *petition for review denied*.**

Given the totality of the circumstances, the court concluded that defendant voluntarily consented to a search of his car. Further, the court reasoned that the police chief’s presence at the passenger side of the car while the sergeant stood at the driver’s side and requested permission to search did not create a coercive atmosphere affecting the driver’s ability to freely consent to a search.

OWI: Operating a motor vehicle While Intoxicated

LIQUOR LAW VIOLATIONS: Everything other than OWI such as Furnishing Alcohol to Minors, Drinking in Public, and all Underage Drinking Violations such as "Not a Drop", consumption and possession.

Adult: Anyone 18 years old or older.

Juvenile: Anyone under the age of 18 years.

NOTE: Compiled from monthly submissions of Uniform Crime Reporting (UCR) program data from Wisconsin law enforcement agencies.

SOURCE: Office of Justice Assistance

While OWI arrests for both adults and juveniles increased dramatically in the early 1980s, adult OWI arrests leveled off and juvenile arrests generally decreased in the late 1980s and early 1990s. Both adult and juvenile OWI arrests were up in 1998. The number of liquor law violations jumped considerably between 1976 and 1990. The number decreased in the early 1990s but has increased every year since 1993. Adult liquor law arrests increased 38% between 1987 and 1988 alone. Eighteen to 20 year-olds accounted for more than 56% of the adult liquor law arrests in 1998.

1998 OWI TEST RESULTS BY ALCOHOL CONCENTRATION (AC)

■ AC Test Results from Citation File

NOTE: This chart does not include test refusals or the zero or unknown values.
 *The median AC represents the value of the mid-point of the AC test result distribution (i.e. half of the people tested had an AC of .17 or below and the other half had an AC of .17 or above). The median is based on all positive AC test results (.01 or above) since many of the zero values were actually unknown values.

COUNTING: OWI citations adjudicated in 1998. (The violation may have occurred in a prior year.)

NOTE: The numbers in these tables represent a compilation of OWI citations adjudicated in all courts within a county (municipal and circuit). The conviction rate for a county is only one measure of its commitment to OWI prosecution. The dismissed column includes those cases that were withdrawn or denied. Amended means the citation has been changed to a different charge. The above data reflect the county in which the citation occurred. (Status as of October 8, 1999) SOURCE: DOT-DMV Citation File

DISPOSITIONS - Outcome of citations that were adjudicated in 1998 and entered on the Driver Record File by early July, 1999. Counts only those citations where it was known whether the alcohol test was taken or refused.

REFUSALS - A person does not consent to having an alcohol test.

The above chart indicates that out of 35,509 total OWI citations adjudicated in 1998, the alcohol test was refused 4,884 (13.8%) times. Of the 4,884 cases where the alcohol test was refused, 4,569 (93.6%) were eventually found guilty.

COUNTING: 1998 adjudicated OWI citations by violation county. (The violation may have occurred in a prior year.)

NOTE: These numbers represent only those cases where the court type and county were known. (Status as of October, 1999).

COUNTING: Outcome of 1998 adjudicated citations by county in which the violation occurred.

NOTE: Dismissed means the case was thrown out by the judge before the trial. Dismissed column includes those cases that were withdrawn or denied. Amended means the charge has been reduced to a lesser charge. This table includes only those cases where it was known whether the person took the test or refused. It also only includes those cases that had been entered in the Driver Record Extract File by early July, 1999. This is why these numbers are lower than the figures shown on page 20.

COUNTING: Convictions and Suspensions

NOTE: Operation includes persons under the age of 21 who were operating a motor vehicle [346.63(2m)]. Operation suspension numbers represent the total number of court-ordered suspensions resulting from arrests and convictions that originated in that county. The case may have been adjudicated in a different county than where the arrest occurred. Consumption includes non-motor vehicle

UNDERAGE ALCOHOL OPERATION CONVICTIONS

UNDERAGE ALCOHOL CONSUMPTION CONVICTIONS

SOURCE: DOT-DMV Bureau of Driver Services Annual Report 1984-1998

Beginning in 1982, youth under 18 who violated laws such as alcohol purchase, possession, on premises, false ID, on school grounds, at school sponsored activities, in a motor vehicle, and "not-a-drop" laws, were subject to fines, supervised community service, and/or suspension of their driver's license. In 1984, the legal drinking age was raised to 19 and to 21 in 1986. The graphs above depict trends in the number of persons who were convicted for such violations.

The numbers on this page represent convictions entered on the DOT-DMV Driver Record File. Many counties offer local underage alcohol diversion programs. Successful completion of these programs can result in reduced sanctions such as not entering the conviction on the Driver Record File and/or not suspending the driver's license.

operation violations of persons under the age of 21 years [125.07]. These numbers represent convictions and suspensions that occurred in 1998. The violation may have occurred in a prior year. (Status as of January, 1999).

*COUNTING: 1998 operating while intoxicated, causing injury while OWI, causing great bodily harm while OWI, and homicide while OWI convictions by violation county
NOTE: These numbers represent OWI convictions that were adjudicated in 1998 and entered on the Driver Record File by early January, 1999. The violation may have occurred in a prior year. Repeat offender status is determined by the number of OWI convictions that a person received from violations in the past five years for the first or second offense, or in the past 10 years for the third or more offense. This table shows 1998 convictions by what number conviction it was for the person in the past five or ten years, whichever is applicable. These numbers represent convictions, not drivers. A driver may have received more than one OWI conviction in 1998.

COUNTING: 1998 operating while intoxicated, causing injury while OWI, causing great bodily harm by OWI, and homicide while OWI convictions by violation county and age and sex of driver AGE = Age of driver at time of violation

NOTE: These numbers represent all OWI convictions adjudicated in 1998 and entered on the Driver Record File by January, 1999. The violation may have occurred in a prior year.

SOURCE: DOT-DMV Driver Record File

OWI DRIVER HISTORY PROFILE

The Operating While Intoxicated (OWI) driver history profile represents a snapshot of drivers in the DOT-DMV Driver Record File who have at least one OWI conviction for violations during 1994-1998, or three or more during 1989-1998. Repeat offender status for OWI convictions is determined by the number of OWI convictions that a person received from violations in the past five years for the first or second offense, or in the past 10 years for the third or more offense. (Note: The time periods for counting repeat offenses will change with offenses occurring after 1/1/99. See page 11.) The following offenses are counted to determine repeat offender status: operating while intoxicated (OWI), causing injury while OWI, causing great bodily harm while OWI, and homicide while OWI. The snapshot was taken in early January, 1999 so some convictions from late in 1998 may not have been received at DOT and entered on the Driver Record File by that time.

The history profile shows that there were 139,008 drivers with 189,926 OWI convictions; 27,582 (19.8%) of the drivers were repeat offenders. Eighty (80%) percent of the drivers with one OWI conviction were males and 87% of the repeat offenders were males. The average age of drivers with one or more OWI convictions in the history profile was 36 years old.

OWI DRIVER HISTORY PROFILE

# of OWIs	# of Drivers	% of OWI Drivers

SECTION 6: ALCOHOL CRASHES

1998 PRIMARY CONTRIBUTING FACTORS IN MOTOR VEHICLE CRASHES

COUNTING: Possible driver or pedestrian causes of crashes based on the accident report.

SOURCE: DOT-DMV Accident Database

In 1998, out of 125,831 total motor vehicle crashes in Wisconsin, 8,475 were alcohol-related (6.7%). That is, at least one driver, pedestrian or bicyclist involved in the crash had been drinking prior to the crash. Of those 8,475 crashes, 3,818 (45%) involved a vehicle striking a fixed object.

ALCOHOL-RELATED CRASHES

PERCENT OF CRASHES THAT WERE ALCOHOL-RELATED - 1998

During 1998, 8,475 crashes (6.7%) involved one or more drivers, pedestrians or bicyclists who had been drinking. However, 251 of the 628 fatal crashes (40%) involved alcohol. In 1979, Wisconsin experienced 593 alcohol-related fatalities. Since that time, alcohol-related fatalities have declined 52% to 282 fatalities in 1998. Alcohol-related injuries have likewise declined since 1979, 63% from 18,681 to 6,850 in 1998.

TOTAL CRASHES AND ALCOHOL CRASHES BY HIGHWAY TYPE - 1998

COUNTING: Crashes

SOURCE: DOT-DMV Accident Database

DRINKING DRIVERS IN REPORTABLE CRASHES 1976-1998

COUNTING: Drinking Drivers

NOTE: Ability Impaired indicates that the investigating officer perceives the driver as being impaired. A driver could have an alcohol concentration (AC) under 0.10 and still be ability impaired.

SOURCE: DOT-DMV Accident Database

1998 ALCOHOL-RELATED CRASHES BY TIME OF DAY AND DAY OF WEEK

NOTE: Friday night includes 10PM Friday evening to 6AM Saturday morning. Saturday night includes 10PM Saturday evening to 6AM Sunday morning. One-third of all alcohol-related crashes occur over these two 8-hour periods. The most frequent hour for alcohol-related crashes is between 2AM and 3 AM on Saturday and Sunday.

COUNTING: Deceased Drivers

OWI Drivers (Alcohol content .10 or higher)

SOURCE: DOT-DMV Accident Database, County Coroner Reports

The percentage of deceased drivers who were administered an alcohol test increased from 67% in 1976 to 90% in 1998. This was a significant improvement for alcohol concentration (AC) testing. A small percent of deceased drivers were not administered an AC test because of time lapse, or sample contamination. The percentage of OWI driver fatalities decreased from 58% in 1976 to 35% in 1998, but it is still a significant problem.

COUNTING: Driver fatalities

SOURCE: DOT-DMV Accident Database, County Coroner Reports

Alcohol tests are supposed to be administered to all motor vehicle crash fatalities. The Division of Motor Vehicles (DMV) Accident Database collects alcohol concentrations (ACs) of drivers killed in crashes. ACs are received from the Coroner Reports. In 1998, 140 (35%) of the deceased drivers tested had an alcohol concentration at or above 0.10%.

SAFETY BELT USE BY DRIVERS AND OCCUPANTS IN VEHICLE WITH A KILLED OR SEVERELY INJURED DRIVER - 1998

COUNTING: Occupants with Drinking Drivers

SAFETY BELT USE BY OCCUPANTS IN VEHICLE WITH A KILLED OR SEVERELY INJURED NON-DRINKING DRIVER

Year	Total Occupants	Safety Belt Use by Occupant		Occupant Safety Belt Use Rate
		Yes	No	
1994	4,058	2,164	1,894	53.3%
1995	3,722	1,957	1,765	52.6%
1996	3,675	2,025	1,650	55.1%
1997	3,475	1,821	1,654	52.4%
1998	3,128	1,720	1,408	55.0%

COUNTING: Occupants with Non-Drinking Drivers

NOTE: Includes Passenger Car and Light Truck Occupants only.
SOURCE: DOT-DMV Accident Database

In severe crashes, about 20% of the drinking drivers killed or severely injured used safety restraints in 1998. Occupants in those vehicles with the killed or severely injured drinking driver used safety restraints about 27% of the time. It appears that the risk-taking behavior of the drivers carries over to the passengers; they have the same habit of not using safety restraints.

In severe crashes involving a non-drinking driver, severely injured or killed drivers used safety restraints 63% of the time. Occupants in the same vehicles used safety restraints 55% of the time. It also appears that non-drinking drivers, as well as their occupants, use safety restraints two to three times as often as drinking drivers and their occupants.

MOTORCYCLE DRIVER FATALITIES BY ALCOHOL CONCENTRATION TEST RESULTS

Year	Motorcycle Driver Fatalities	Alcohol Concentration			% with some alcohol	% with AC .10+
		Negative or Unknown	.01-.099	.10+		
1989	56	26	11	19	53.6%	33.9%

1998	58	32	4	22	44.8%	37.9%

COUNTING: Motorcycle driver fatalities
SOURCE: DOT-DMV Accident Database

The DMV Accident Database collects alcohol concentrations of motorcycle drivers killed in motor vehicle crashes. In 1998, 22 (38%) of all motorcycle drivers killed had an AC of .10 or more. The rate of motorcyclists in crashes who had been drinking is much higher than the rate for all drivers in crashes. In 1998, 149 of every 1,000 motorcycle drivers in crashes had been drinking compared to 40 of every 1,000 total drivers in crashes.

1998	64	38	6	20	40.6%	31.2%

COUNTING: Pedestrian fatalities
SOURCE: DOT-DMV Accident Database

The DMV Accident Database collects alcohol concentrations of pedestrians killed in motor vehicle crashes. In 1998, 20 (31%) of the pedestrians killed had an AC of .10 or more. During the past five years, 21-44 year olds accounted for 58% of the drinking pedestrian fatalities compared to 29% of all pedestrian fatalities. Seventy-six percent (76%) of the drinking pedestrians killed were male compared to 64% of all pedestrians killed. Most drinking pedestrian fatalities occur between 6PM and 4AM.

1996	29,580
1997	30,946
1998	30,135

COUNTING: Persons assessed
SOURCE: DOT-DMV Bureau of Driver Services

Under Wisconsin law, people convicted of operating a motor vehicle while intoxicated (OWI) or related offenses are ordered by the court to submit to an assessment of their alcohol and drug use.

An alcohol or drug assessment consists of an interview by an alcohol and other drug abuse (AODA) counselor, in which the counselor classifies the client's problems using a standardized evaluation tool. As part of the assessment, a driver safety plan is developed for the client. Alcohol and drug assessments are completed in Wisconsin by AODA professionals in county public treatment facilities.

Driver safety plans are individualized education/treatment programs based on alcohol or drug assessment findings. The following are appropriate driver safety plan programs for specified assessment findings:

1. Irresponsible Use (IU): Referred to Group Dynamics or Multiple Offender Traffic Safety School programs and, in cases with extenuating factors, to other alcohol/drug education programs and possible outpatient treatment.
2. Irresponsible Use - Borderline (IUB): Referred to an alcohol/drug education program or a combination of education and outpatient counseling, or short term outpatient individual or group counseling.
3. Suspected Alcohol/Drug Dependence (SD): Referred to outpatient treatment programs offered at approved facilities throughout the state.
4. Alcohol/Drug Dependence (D): Referred to inpatient treatment programs or extensive outpatient treatment facilities.
5. Alcohol/Drug Dependence in Remission (DR): Referred to any combination of treatment programs.

* Count includes programs reported as: Alcohol Education, 1 Day Alcohol Education, DWI Clinic, Out of State Alcohol Education, Level I and Level II Alcohol Education, etc.
 ** Count includes all outpatient treatment plus types of outpatient programs specifically reported as: Day Care, Aftercare, Evening Care, Group Therapy and Night Care & Out of State Treatment Plans, etc.
 *** Count includes programs reported as: Transitional Living, Halfway House, Residential Care and Extended Care Treatment, etc.
 **** Count does not represent number of driver safety plans (DSP) written, as multiple programs and/or amended plans may be recommended per driver. Additional plan requirements such as AA, NA, Abstinence, Detox, Victim's Panel, Exams, etc. are not included in these statistics.

* Plans are waived for 3 reasons: 1) Assessment on file & received new assessment from different agency for same offense, 2) New OWI offense while in a DSP & received new assessment, or 3) OWI vacated and DOT cannot take action.

** Extended - DSP is not amended, but extra time has been requested to complete plan recommendations.

*** Received - Assessments performed after July 31, 1998, with driver safety plan recommendations not yet completed, remain in "Received" status for 1 year from assessment date.

State of Wisconsin

GARY R. GEORGE
SENATOR

November 24, 1999

The Honorable Jeff Stone
State Representative
Room 309 North, State Capitol
Madison, Wisconsin

Dear Representative Stone:

A handwritten signature in cursive script that reads "Jeff".

Thank you for writing to me to request that the Senate Committee on Judiciary and Consumer Affairs schedule a public hearing on Assembly Bill 221, which has been referred from the Senate Committee on Insurance, Tourism, Transportation, and Corrections.

As the lead Senate co-sponsor of Assembly Bill 221, I believe this comprehensive legislation to address drunk driving should receive a public hearing and further debate. I will try to schedule a public hearing on this bill in the near future.

Thank you again for writing me. If you have any questions or if I may be of further assistance to you, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Gary".

GARY R. GEORGE
State Senator
Sixth Senate District
Chair, Senate Committee on
Judiciary and Consumer Affairs

JEFF STONE

STATE REPRESENTATIVE
82ND DISTRICT

November 3, 1999

Senator Gary George
Chair, Senate Committee on Judiciary
Room 118 South, State Capitol

Dear Senator George,

I am writing to ask that your committee hold a public hearing on Assembly Bill 221, which was recently referred from the Committee on Insurance, Tourism, Transportation and Corrections to the Committee on Judiciary.

AB 221 is a comprehensive drunk driving bill which the Assembly passed on a 96-3 vote on May 19th. This bipartisan proposal targets repeat OWI offenders, highly intoxicated OWI offenders, and underage drinking. The bill also provides increased funding for a successful pre-trial treatment program and creates a safe-ride grant program.

AB 221 is supported by a diverse coalition of groups including the Tavern League of Wisconsin, police chiefs, sheriffs, district attorneys, the Wisconsin Troopers' Association, Mothers Against Drunk Driving (MADD), the Wisconsin Restaurant Association, the Wisconsin State Brewers Association, and Miller Brewing Company.

As the lead Senate co-sponsor of AB 221, I know you share my desire to see this bill become law, and welcome the chance to move AB 221 through the Senate.

Thank you for your attention to this request. If you have any questions about AB 221, I would be happy to meet with you to discuss them.

Sincerely,

Jeff Stone
State Representative
82nd Assembly District

mp/JS

Rossmiller, Dan

From: Lewis, Kevin
Sent: Friday, March 03, 2000 8:52 AM
To: Rossmiller, Dan
Subject: Judiciary

Good morning Dan.

I have a few questions on bills in Judiciary that I'd like to run by you:

AB 221 (and the Senate companion)

Is the amendment (LRB a1284/1) that DHFS requested going to be introduced as a committee amendment? Do you know when the exec will be?

SB 345 (Robson's clean-up to Chapter 48)

DHFS would like to see an amendment to the bill that would take care of several related issues that are rather technical and do not at all detract from the original text of the bill. These have been drafted and I'm working with Sen. Robson to get it introduced. Do you know when the hearing will be?

SB 395

Have you already talked with DOJ about speaking to Sen. Risser? Matt Frank would be a great person to discuss the issue with him. If possible, we would like our chief legal counsel to be in on the conversation.
