Senator Baumgart

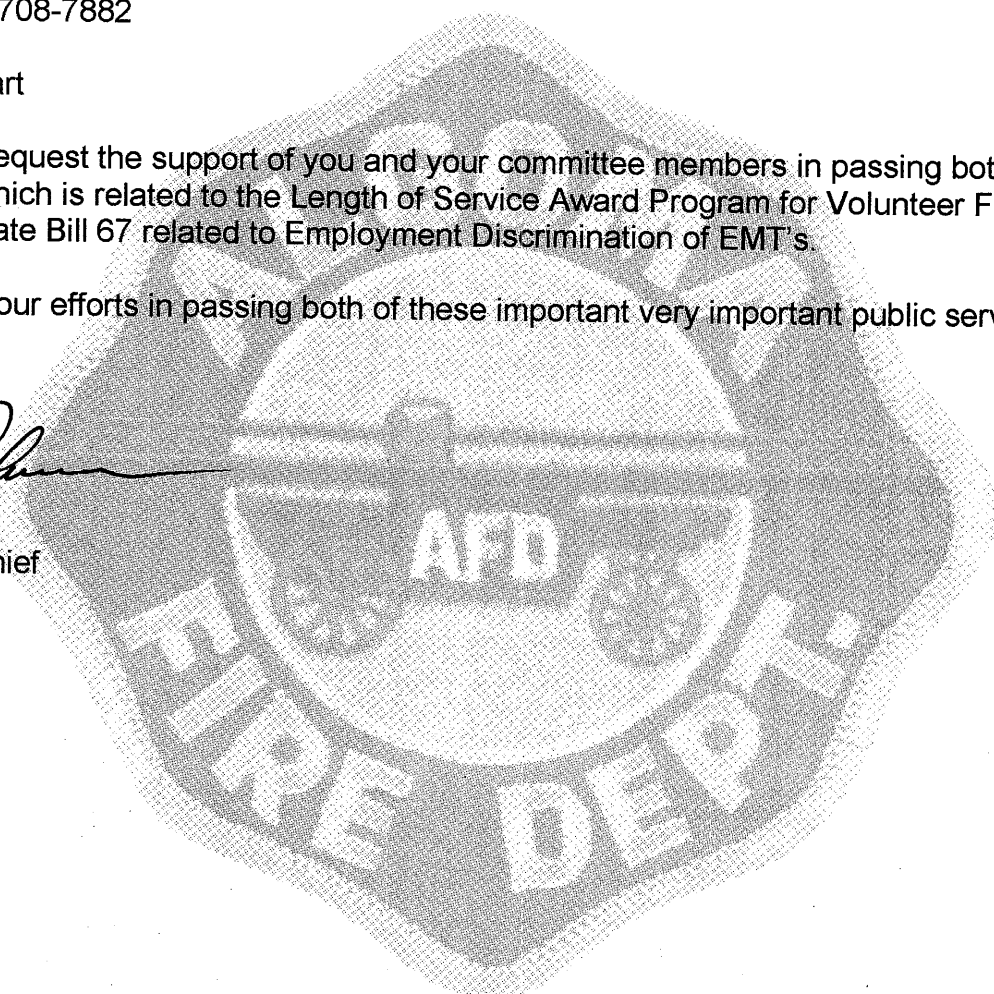

This letter is to request the support of you and your committee members in passing both Senate Bill 75 which is related to the Length of Service Award Program for Volunteer Firefighters and EMT's, and Senate Bill 67 related to Employment Discrimination of EMT's.

We appreciate your efforts in passing both of these important very important public service issues.

Sincerely,

Tom Ackerman
Assistant Fire Chief

Testimony for SB 75 (Senate Committee on Labor)

by
David Stella, Administrator
Division of Retirement Services
Department of Employee Trust Funds

(Establishes a service award program for volunteer fire fighters and emergency medical technicians and creates a volunteer fire fighter and emergency medical technician service award board attached to the Department of Employee Trust Funds)

Thank you Chair Baumgart and Committee Members for this opportunity to speak on SB 75. I am Dave Stella, Retirement Services Administrator, at the Department of Employee Trust Funds, and I'm here to speak for information only on the bill.

My comments are intended to assist you in developing a program that is administratively simple and meets the objectives of the legislation. However, I would like to initially focus on a significant concern with respect to the placement of the program within the Department of Employee Trust Funds. The Department has concerns about the placement of this program in the Department of Employee Trust Funds. All of our current programs are public employe benefit plans funded through the Public Employee Trust Fund. This program is an award program for non-employe volunteers funded initially with General Purpose Revenue (GPR). It may be more appropriate to place this program in a GPR funded state agency.

The primary mission of the Department of Employee Trust Funds is the administration of the Wisconsin Retirement System and thirteen other associated benefit programs to public employes. The staffing and resources of the Department are fully committed to the administration of these programs. Current staff cannot be reassigned to administration of the service award program without having a detrimental impact on our current employe benefit plans. Most importantly, the Department is funded exclusively with trust fund dollars that by law can only be used for trust fund purposes. Consequently, there can be no subsidization of one benefit plan by another, which requires that the Department be reimbursed for all costs it incurs over and above any resources included in the bill.

Secondly, while the bill apparently proposes that the volunteer service award program be administered by a third party, the attachment of the service award board to DETF implies some degree of oversight and staffing service. In order for the Department to promulgate rules to establish the program, disburse the GPR match funds and administrative payments to contractors, provide Board support functions and review appeals, language to cover these expenses and additional GPR funding and positions are necessary to implement the bill. If not enough municipalities participate in the program, funds from the volunteer fire fighter and emergency medical technician service award fund may be insufficient to cover the administrative costs of the program.

Lastly, the Department has no experience administering volunteer award programs. We are not familiar with federal and state statutes or tax laws governing such programs. As stated in our fiscal estimate, tax counsel would be necessary to determine which sections of the federal tax code govern this type of volunteer plan and for assistance in developing the actual plan document. The Department's only experience that is structurally similar is with the deferred

Testimony on SB 75
April 20, 1999
Page 2

compensation program which is a qualified supplemental retirement savings plan governed under Section 457 of the Internal Revenue Code and is available to state and local government employees.

If this bill moves forward as drafted the Department strongly recommends that appropriation language be added to assure that administrative costs of implementing and operating this program are included. We would be available to work with the Committee on amendments to this bill as necessary.

Thank you for your time. I'd be happy to answer any questions you may have.

Memorandum

TO: Members of the Senate Labor Committee

FROM: Gregg A. Cleveland, President 
Wisconsin State Fire Chiefs' Association

DATE: April 19, 1999

SUBJECT: Senate Bill 75

I would like to address the Committee concerning the merits of the passage of Senate Bill 75 relating to the Length of Service Awards Program. I would have preferred to make my comments in person, however, I will be in Washington D.C. attending to department business.

Volunteers and part-time fire fighters operate approximately 90% of the fire departments in the State of Wisconsin. They provide vital community services such as fire protection, public education, emergency medical services, and hazardous materials response. In addition to these volunteers, there are thousands of volunteer emergency medical technicians that donate their time and efforts to provide emergency medical services. We have all come to appreciate the efforts these individuals make responding to emergencies; however, what is sometimes forgotten is the time these individuals donate to their communities to obtain and maintain their skills in fire fighting, hazardous materials, and emergency medical services. Without the dedication of these individuals, the financial burden of providing these services on a full-time basis would exceed millions of dollars.

P.O. Box 774, Milwaukee, WI 53201
Phone: 1-800-375-5886 Fax: 414-644-7294 (press *12)

Senate Labor Committee
April 19, 1999
Page 2

The Wisconsin State Fire Chiefs' Association is seeking a partnership with the State to continue these cost-effective services at the local level. This partnership involves local communities contributing dollars that would be matched by the State with the State's contribution limited to \$250.00 per fire fighter per year. This money would be managed by an independent, third party, private sector, entity under the auspices of the State.

This legislation has been proposed to assist departments because departments that currently have Length of Service Awards Programs tend to have larger memberships (36.4 members) than those departments that do not have such programs (29.5 members). The volunteer fire service suffers from a relatively high turnover rate with approximately 40% of the current volunteers having less than five years of service. There are approximately 50 communities in the State that have departments comprised of 15 or fewer members. Approximately 50% of the fire departments indicated that they would financially participate in the program. All of this information is taken from a comprehensive survey conducted by the Wisconsin State Fire Chiefs' Association.

The Wisconsin State Fire Chiefs's Association strongly believes that Senate Bill 75 is vital to recruiting and maintaining the State's volunteer fire fighters and emergency medical technicians and the services they provide. It has been estimated that the start-up costs for this program will cost approximately five to seven million dollars. While we realize this is a significant amount of money, we have an opportunity to assist the State's volunteer fire fighters and emergency medical technicians for less than some Wisconsin cities spend on fire protection and emergency medical services alone.

Senate Labor Committee
April 19, 1999
Page 3

In our discussions with some legislators, they have asked us where the State might find the money to fund this program. Given the variety of funding sources, we feel it would be appropriate for the State to utilize the tobacco money that the State will be receiving to finance this program. We base this recommendation on the fact that the National Fire Protection Association has identified careless use of smoking materials as the leading cause of fire deaths in one and two family dwelling for the years 1992-1996. Cigarettes have long been a significant factor in residential fires in Wisconsin and the nation.

In summary, the Wisconsin State Fire Chiefs' Association believes that the State should become a partner with local communities to strengthen emergency services. Many times volunteer fire fighters and emergency medical technicians can be found assisting State agencies such as the Division of Emergency Management and the Department of Natural Resources during natural disasters and forest fires. The State itself will benefit through maintaining a ready source of trained personnel.

The legislation does not seek to compete with private sector agencies. As proposed, the financial management will be performed by an independent third party under the auspices of the State. Insurance companies and other financial intermediaries will have an opportunity to be the third party administrator of the plan.

Finally, for the cost of what one city can spend on fire protection and emergency medical services, the State can assist hundreds of local communities to maintain cost-effective emergency services. In turn these cities can benefit through their reliance on a well trained source of volunteers when they request mutual aid assistance for large area building fires, hazardous materials releases, and natural and/or man made disasters.

Senate Labor Committee
April 19, 1999
Page 4

I would recommend that the Committee support this bill which will permit the appointments to the Volunteer Fire Fighter and Emergency Medical Services Award Board so that they may begin the formulation of the rules for the establishment of this program. With the exception of the start-up cost for the Board, the funding for this program will not be required until the next State budget.

I wish to thank the Committee for their consideration of my comments.

Wisconsin State Fire Chiefs Assn. Inc.

Together We Can Make A Difference
Prevention Safety Suppression

April 20, 1999

Dear Wisconsin State Legislators:

RE: SENATE BILL 75

This letter is prepared by Fire Chiefs Joe Radomski of the Plover Fire Department, Ron Brown of the Eau Claire Fire Department and Marc Eernisse of the Port Washington Fire Department, who are the 1996, 1997 and 1998 Past Presidents of the Wisconsin State Fire Chiefs Association. The purpose of the letter is to jointly express our **strong support for Senate Bill 75**, the Volunteer Firefighter/Emergency Medical Technician Length of Service Award Program.

As the Immediate Past Presidents of the Wisconsin State Fire Chiefs Association, we all three have recognized the need for and worked very hard to see the Service Award Program for Volunteer Firefighters and Emergency Medical Technicians legislative initiative be developed and introduced for consideration. Further, we intend to continue working on behalf of the membership of the Wisconsin State Fire Chiefs Association, a 500-plus member strong association, consisting of more than 85 percent volunteer organizations, to secure the passage of this vital piece of legislation. The service award program is, and has been for many years, a primary goal of the Chiefs Association. It is one initiative that has near unanimous support among the membership, which explains why we, as Past Presidents, continue speaking and working for the legislation.

Volunteer Fire Departments and the firefighters that comprise them, are the cornerstone of community protection, not only from the devastation of fire, but any and all manmade or natural disasters that might occur in the towns, villages, rural and suburban communities in our state. The recruiting and retention of volunteer firefighters to serve on these departments are grave problems, threatening to shake the very foundation of this long-standing, cost-effective and dependable emergency response system. We simply cannot afford to allow this problem to continue; we must find ways to secure the future of our volunteer fire and emergency medical response systems. The Length of Service Award Program is a big step toward addressing the difficulties the Wisconsin Volunteer Fire Chiefs are having in this area.

Together, we are asking that you support this vital legislation. In doing so, we are simply asking that, on behalf of your constituents, you help those who have so unselfishly responded to the emergency needs of our citizens for many, many years. **Please be there for them, as they have been there for you.**

Sincerely,

Joe Radomski
Fire Chief

Ronald Brown
Fire Chief

Marc Eernisse
Fire Chief
