

**DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU**

LRB-3658/1dn
RAC:cjs:kjf

September 18, 2001

Senator Welch:

Instead of having the governor prepare legislation in the biennial budget bill relating to the abolition of the state lottery, I provided that the secretary of revenue must submit proposed legislation to the joint committee on finance no later than April 1, 2003. The reason I did this is that the department of revenue's implementation plan may require the enactment of legislation and the plan may not be approved by the joint committee on finance until after the governor has submitted the biennial budget bill to the legislature.
