New Drafting Request: "Agricultural Development and Diversification Funding."

I need a new appropriation so we can use gaming revenues to fund ADD grants (in *addition* to the GPR appropriation).

Please create the appropriation in program 4 and create a matching item in s. 20.505(8)(hm). (Plus, other required changes as you identify, of course.)

(There will be more to this draft when I resolve some things with DATCP. They want to expand eligibility to include "preliminary research." It may be as simple as adding that phrase to the current criteria but they may have more detail in mind.)

Subject: FW: "Agri-preneurial Development Grants"

Following up on my email from yesterday about a new appropriation for ADD, here is suggested additional language to implement the "preliminary research" idea. Adjust it as you see fit.

Route questions and suggestions through me on this one please.

I'd like to see both sub (3) below and the existing ADD grant program funded from both the GPR and gaming appropriations at DATCP's discretion.

Thanks!

P.S. Please, let's be sure not to use the term "agri-preneurial" anywhere in the draft :-).

"Agri-preneurial" Development Grants

SECTION ____ 93.46(3) of the statutes is created to read:

93.46(3) The department may make grants and provide technical assistance to agricultural producers and producer groups to support pre-commercialization research and due diligence investigations on potential business enterprises that may enhance the value of raw agricultural commodities. The department may not award more than \$25,000 under this subsection for research or investigations related to a single business enterprise, nor may the department provide funding for more than 2 years for research or investigations related to a single business enterprise. The department shall promulgate rules to implement this subsection.

Bill -- Yesterday I met very briefly with Will Hughes, who described in rough terms his vision of the "agri-preneurial development" grant program. In response to your e-mail of December 20, Will stated that he preferred a new subsection (3) under s. 93.46, which would look something like the attached. We did not discuss appropriation language. Will is out of the office for the remainder of the year, and my knowledge of this subject is limited to the contents of this e-mail. I am forwarding the attached language in the hope that it may be helpful -- Jim Matson, DATCP Counsel.

Under current law, DATCP makes agricultural research and development grants to fund demonstration projects, feasibility analyses, and applied research on new or alternative technologies and practices that will stimulate agricultural development.

This bill authorizes DATCP to make grants and provide technical assistance to support preliminary research and investigations on potential business enterprises that may increase the value of raw agricultural commodities. The bill provides Indian gaming receipts for the new grant program and for the existing agricultural research and development grant program.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
