Bob.

Below are comments on several drafts, some of which you had questions on.

✓ LRB-1910/2 (lapse of funds) is fine as drafted.

LRB-0473-1 (increasing the number of Parole Commission members). I previously told you it was fine as drafted, but we would like to make a change. The two additional members added in this biennium should sunset on June 30, 2003 (i.e., they should only exist for two years).

X LRB-1906/1 (appropriation for fee collected from DOC employees). The primary purpose of the appropriation is for DOC to be able to deposit funds from parking and cafeteria fees collected from employees at the central office. The use of the term "facilities" would seem appropriate for the title and the language of the appropriation itself, but I will defer to your judgment as to whether that is appropriate.

LRB-1606/1 (autopsy for prison inmates). In answer to your questions, there is no need to create a separate appropriation for DOC to pay for the autopsies, nor a need to add language specifying what appropriation they will use to pay for them.

As for the reference to state correctional institutions, it's less clear. The directive should apply to inmates in state correctional institutions, which should include state prisons, correctional centers, probation and parole holds facilities and workhouses (all listed in s. 302.01). It should also apply to inmates held in out-of-state facilities. As far as the out-of-state facilities, DOC should be compelled to arrange for an autopsy to be performed on the inmate and have the results forwarded to the appropriate authorities in the state in which the death occurred. This should be broad given that inmates are currently held in several different states, and those states are subject to change in the future.

If you have any questions, please give me a call.

Thanks,

Jana

I just noticed that the draft has it as an annual appropriation. This new appropriation should be a continuing appropriation.
