I assumed you would send me details on the "program." I have set up an appropriation, but I can't provide for spending the money out of an appropriation alone. There needs to be some authority outside of the appropriation. If you want, I could simply authorize commerce in ch. 560 to market "forestry products," but it would be nice to have a few more details. What forestry products? Anything made of wood? Would this marketing be for private parties? For products from state forests? Details like that.

(Dawn: Commerce "Forestry marketing")

Please create an appropriation within Commerce program (1) to receive \$250,000 in each year from the conservation fund for use in marketing forestry products.

Annual appropriation.

More details on how the money should be spent when I receive them.

We may be stuck with the general language on forestry marketing.

I asked Commerce to tell me what they wanted and the only guidance I have so far is below. (I don't feel comfortable giving you instructions myself since this is supposed to reflect Commerce's wishes.)

Could you send a draft giving general authority to market forestry products? If Commerce gets me more detail, I'll pass it on.

Thanks, Pam.

I am checking internally here for more detail, but not certain what we can come up with. We had envisioned a specialist to work with related industry.
